Las cuatro revoluciones invisibles José Luis Fernández, 2024-10-13 Las cuatro revoluciones invisibles audiencias de antes de la radio hasta después del podcast sostiene que las y los audionautas son los protagonistas de una transformación muy profunda e incomprensible que surgió en el pasaje del siglo XIX al XX no deja de renovarse Se trata de cuatro revoluciones invisibles ya que no se destacan en nuestra cultura escritural y audiovisual la revolución total la revolución de masas la revolución popular y la revolución permanente de los audionautas Lo radial lo fonográfico lo telefónico y las diversas plataformas que nos circundan nuestros parlantes y nuestros auriculares nos traen discursos que nos rodean y en los que estamos inmersos Pero estas tecnologías de manipulación del sonido y del audio y sus efectos discursivos desde lo informativo hasta lo musical y sus respectivas industrias han generado un tipo de receptor sobre el que aun pluralizado en audiencias no ha sido posible capturar Este ocultamiento causa dificultades para entender los alcances de la revolución digital y plataforma que está en marcha que nos tiene en estado de incertidumbre y expuestos a sorpresas cada vez peores En esta obra se despliegan los conocimientos necesarios para destacar a las revoluciones producidas por las mediatizaciones de sonido audio y construir una nueva mirada sobre las mediatizaciones de la actualidad Por ello tiene un objetivo político poner en evidencia fenómenos con los que se convive que influyen sobre la sociedad pero sobre los que hay poco enfoque académico o político
