Loss During Pregnancy Or In The Newborn Period

Mr. Rohit Manglik

Loss During Pregnancy Or In The Newborn Period:

Loss During Pregnancy Or in the Newborn Period James R. Woods, Jenifer L. Esposito Woods, 1997 This volume examines the biologic implications and psychological challenges that occur with the loss of a baby during pregnancy or in the newborn period The editors include practical clinical cases with commentaries provided by outside professional practitioners They address pregnancy loss from many angles loss at the various stages of pregnancy the medical causes of loss methods of preventing fetal death the roles of various care providers and issues of counseling and ethics The book encourages a broad definition of pregnancy loss by including such information as the feelings of loss experienced by birth parents who give children up for adoption

The Fetal and Infant Mortality Review (FIMR) Process, 2001

Palliative Care for Infants, Children, and Adolescents Brian S. Carter, Marcia Levetown, 2004-06-24 A case based clinical handbook Palliative Care for Infants Children and Adolescents combines a pragmatic approach to symptom management with a humanitarian approach emphasizing more abstract issues such as psychological support for both patient and caregiver SciTech Book News This practical guide provides professionals involved in pediatric end of life care with comprehensive information for hands on care in a single volume Home Health Care Nurse

[Perinatal and Pediatric Bereavement in Nursing and Other Health Professions](#) Beth Perry Black, Patricia Moyle Wright, Rana Limbo, 2015-09-10 This is a definitive state of the art resource for professionals who provide bereavement care to families when a baby or older child dies Culling the most important new evidence from scholars and practitioners worldwide it links theoretical knowledge and clinical practice recommendations to fill a gap in the current literature The text is distinguished by its provision of different and even competing perspectives that address the complexities of the tragic human experience of perinatal and pediatric death Expert contributors from the fields of nursing and other health professions disseminate new theoretical approaches and reexamine current concepts in light of new research They discuss the theoretical underpinnings of perinatal and pediatric bereavement examine current thought on the dimensions of loss deliver evidence based clinical interventions and offer the perspective of grieving families in regard to their experiences and needs

Maternal Newborn Nursing Mr. Rohit Manglik, 2024-01-18 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels

Meeting the Needs of Parents Pregnant and Parenting After Perinatal Loss Joann O'Leary, Jane Warland, 2016-06-17 Despite research which highlights parents increased anxiety and risk of attachment issues with the pregnancy that follows a perinatal loss there is often little understanding that bereaved families may need different care in their subsequent pregnancies This book explores the lived experience of pregnancy and parenting after a perinatal loss Meeting the Needs of Parents Pregnant and Parenting After Perinatal Loss develops a helpful framework which integrates continuing bonds and attachment theories to support prenatal

parenting at each stage of pregnancy Giving insight into how a parent s world view of a pregnancy may have changed following a loss readers are provided with tools to assist parents on their journey The book discusses each stage of a pregnancy as well as labor and the postpartum period before examining subjects such as multi fetal pregnancies reluctant terminations use of support groups and the experiences of fathers and other children in the family The chapters include up to date research findings vignettes from parents reflecting on their own experiences and recommendations for practice Written for researchers students and professionals from a range of health social welfare and early years education backgrounds this text outlines what we know about supporting bereaved families encountering the challenges of a subsequent pregnancy

Silent Risk Jason H. Collins MD MSCR,2014-07-02 With an estimated 8 000 deaths per year in the United States from complications of UCA an initial goal of 50% reduction of loss is possible To achieve this goal requires the recognition by the obstetrical community of the issue Recent research into circadian rhythms may help explain why UCA stillbirth is an event between 2 00 a m and 4 00 a m Melatonin has been described as stimulating uterine contractions through the M2 receptor Melatonin secretion from the pineal gland begins around 10 00 p m and peaks to 60 pg at 3 00 a m Serum levels decline to below 10 pg by 6 00 a m Uterine stimulation intensifies during maternal sleep which can be overwhelming to a compromised fetus especially one experiencing intermittent umbilical cord compression due to UCA It is now time for the focus to be on screening for UCA managing UCA prenatally and delivery of the baby in distress defined by the American College of Obstetricians and Gynecologists as a heart rate of 90 beats per minute for 1 minute on a recorded nonstress test The ability of ultrasound and magnetic resonance imaging MRI to visualize UCA is well documented The 18 20 week ultrasound review should include the umbilical cord its characteristics and description of its placental and fetal attachment Bettye Wilson MD R T R CT RDMS FASRT Fellow of The American Society of Radiologic Technologist recommended in RADIOLOGIC TECHNOLOGY March April 2008 Vol 79 No 4 pg 333S 345S That an umbilical cord evaluation with sonography should include the appearance composition location and size and length of the cord In addition Abnormal Insertion in the placenta and fetus Vasa Previa Abnormal composition single umbilical artery Cysts Masses Hematoma Umbilical Cord Thrombosis Coiling helices collapse knotting and prolapsed funic presentation Cord Events Although many stillbirths are attributed to a cord accident this diagnosis should be made with caution Cord abnormalities including a Nuchal Cord are found in approximately 30% of normal births and may be an incidental finding American College of Obstetrics and Gynecology Practice Bulletin 2009 According to NICHD s recent stillbirth study UCA is a significant cause of mortality 10% This finding is in agreement with other international UCA studies Bukowski et al 2011 These histologic criteria identify cases of cord accident as a cause of stillbirth with very high specificity Dilated fetal vessels thrombosis in fetal vessels avascular placental villi Pediatr Dev Pathol 2012 Finally defining the morbidity injury of cord compression such as fetal neurologic injury or heart injury identified with umbilical cord blood troponin T levels or pulmonary injury is the next major area of investigation

Screening and Diagnosis of Fetal Malformation A.K. Debdas,2004 This book is the first one of its kind published in India a comprehensive practical package for diagnosing fetal anomaly covering methods right from the simple clinical clues to the molecular level of genes

Psychological Challenges in Obstetrics and Gynecology Jayne Cockburn,Michael E Pawson,2007-09-05 By providing the background knowledge the book empowers the obstetrician gynecologist to be in the key coordinating role and to communicate effectively with all parties and health workers involved in psychological care It meets the needs of doctors not covered by their training e g Communication skills coping and adjustment in pregnancy communicating with cancer patients Chapters show how to use the consultation to maximum benefit for the patient and doctor Easy to read with stand alone chapters this book covers key aspects of O and G and addresses areas not covered in other texts It is relevant to all stages of O and G practice from trainees to consultants and some lay interest This book offers topics in psychological care to trainees and specialist in O and G helps them understand the emotional problems their patients face and shows them how to undertake psychological care

Encyclopedia of Infant and Early Childhood Development ,2020-03-13 Encyclopedia of Infant and Early Childhood Development Second Edition provides a comprehensive entry point into the existing literature on child development in the fields of psychology genetics neuroscience and sociology Featuring 171 chapters across 3 volumes this work helps readers understand these developmental changes when they occur why they occur how they occur and the factors that influence development Although some medical information is included the emphasis lies mainly in normal growth primarily from a psychological perspective Comprehensive and in depth scholarly articles cover theoretical applied and basic science topics providing an interdisciplinary approach All articles have been completely updated making this resource ideal for a wide range of readers including advanced undergraduate and graduate students researchers and clinicians in developmental psychology medicine nursing social science and early childhood education Cutting edge content that cover the period of neonates to age three Organized alphabetically by topic for ease of reference Provides in depth scholarly articles covering theoretical applied and basic science Includes suggested readings at the end of each article
