Plaatje and South Africa Shane Moran studies Sol Plaatje the founding secretary of what was to become the African National Congress ANC and his work within the context of colonial politics and resistance Arguing for a return to the study of one of the founders of anti racism Moran explores issues of land reform human rights and the legacy of colonialism Through an in depth analysis of Plaatje s resistance to racial domination Moran examines the nature of the struggles that continue within and beyond South Africa today In particular Moran analyzes events from the beginning of the previous century that shaped post 1994 South Africa such as the resolution of the ANC to expropriate land without compensation *Forthcoming Books* Rose Army,2003-04 *Cumulated Index Medicus* ,1993 *Responding to Domestic Violence* Eve S. Buzawa,Carl G. Buzawa,Evan D. Stark,2015-10-01 This new edition of the bestselling *Responding to Domestic Violence* explores the response to domestic violence today not only by the criminal justice system but also by public and non profit social service and health care agencies After providing a brief theoretical overview of the causes of domestic violence and its prevalence in our society the authors cover such key topics as barriers to intervention variations in arrest practices the role of state and federal legislation and case prosecution Focusing on both victims and offenders the book includes unique chapters on models for judicial intervention domestic violence and health and children and domestic violence In addition this edition provides an in depth discussion of the concept of coercive control in domestic violence and its importance in understanding victim needs Finally this volume includes international perspectives in order to broaden the reader s understanding of alternative responses to the problem of domestic violence *Women and Capital Punishment in the United States* David V. Baker,2015-11-26 The history of the execution of women in the United States has largely been ignored and scholars have given scant attention to gender issues in capital punishment This historical analysis examines the social political and economic contexts in which the justice system has put women to death revealing a pattern of patriarchal domination and female subordination The book includes a discussion of condemned women granted executive clemency and judicial commutations an inquiry into women falsely convicted in potentially capital cases and a profile of the current female death row population *The Death Penalty* Roger Hood,Carolyn Hoyle,2008 This new edition of a classic study assesses the global status of capital punishment As in previous editions this work draws on Roger Hood s experiences as consultant to the United Nations for the Secretary General s five yearly surveys of capital punishment as well as the latest literature from non governmental organizations and academic experts This edition examines significant developments around the world including the Chinese plan for the People s Supreme Court to review all death sentences and the abolition in the USA of the death penalty for offenders who committed murder while under the age of 18 Recent legal challenges to lethal injection as a form of execution are also examined This edition also includes an additional chapter on the role and influence of victims families and victim interest movements This volume shows how despite a number of set backs the movement to abolish the death penalty has continued to gather pace that international organizations and human rights treaties continue to put

pressure on retentionist countries that further developments have been made in securing protection for those facing the death penalty in retentionist countries and that despite such advances in some parts of the world the range of crimes subject to the death penalty remains wide and the number of executions considerable This work engages with the latest debates on the realities of capital punishment with claims that the death penalty is a unique deterrent to murder and other serious crimes and contains expanded coverage of arguments about the role of public opinion in the debate on capital punishment

Correspondence of Major General Emory Upton, Vol. 2, 1875-1881 Salvatore Cilella, 2024-01-12 Emory Upton 1839-1881 was thrust into the Civil War immediately upon graduation from the United States Military Academy at West Point in May of 1861 He was wounded three times during the war He participated in nearly every major battle in the Eastern Theater including Fredericksburg Gettysburg and Spotsylvania where he led a prominent attack on entrenched Confederate positions a signal of Upton's brilliance as an officer and of his military creativity that foreshadowed his later work in revising the Army's tactics Upton was mustered out of service in 1866 and later named commandant of cadets at West Point a position that carved a path for Upton to focus more on Army tactics and reforms Until now the only lenses through which scholars could study Upton were two biographies published nearly a century apart but practically identical in scope and treatment of Upton The two volume *Correspondence of Major General Emory Upton* follows Upton through his enrollment at West Point to his extensive Army activities following the Civil War and contains the bulk of Emory Upton's wartime correspondence Volume two collects Upton's foreign correspondence and observations on military tactics and Army reform At the behest of U.S. Army Commanding General William T. Sherman Upton was sent on a tour to study the armies of Asia and Europe and more specifically the German army after conclusion of the Franco-Prussian War This tour resulted in the publication of his monumental *The Armies of Europe and Asia* which warned that the U.S. Army was woefully below the standards of European nations and between Upton's death in 1881 and the turn of the twentieth century military policy was fiercely debated in both the military and popular press Upton's ideas on reform were often central to the arguments and his letters and writings provoked a wide range of discussion over military and inevitably civilian issues These selected letters and reports expertly annotated and gathered from repositories across the country present a more complex human Emory Upton He is both the clean pure and spotless individual of Michie's biographies and the ambitious yet flawed Army officer obsessed with his career These volumes explore his trials and frustrations as well as his triumphs Salvatore G. Cilella now retired was president of the Atlanta Historical Society He is the author of *Upton's Regulars: The 121st New York Infantry in the American Civil War* and *Fund Raising for Small Museums in Good Times and Bad* **Journal of the American Medical Association** American Medical Association, 1908 Includes proceedings of the Association papers read at the annual sessions and list of current medical literature *Legalizing LGBT Families* Amanda K. The Death Penalty Roger Hood
CBE QC (Hon) DCL FBA, Carolyn Hoyle, 2008-03-27 The 4th edition of this authoritative study of the death penalty now written jointly with Carolyn Hoyle brings up to date developments in the movement to abolish the death penalty worldwide It draws on Roger Hood s experience as consultant to the United Nations for the UN Secretary General s five yearly surveys of capital punishment and on the latest information from non governmental organizations and the academic literature Not only have many more countries abolished capital punishment but even amongst those that retain it the majority have been carrying out fewer executions Legal challenges to the mandatory capital punishment have been successful as has the pressure to abolish the death penalty for those who commit a capital crime when under the age of 18 This edition has more to say about the prospects that China will restrict and control the number of executions on the road to abolition Yet despite such advances this book reveals many human rights abuses where the death penalty still exists In some countries a wide range of crimes are still subject to capital punishment and the authorities too often fail to meet the safeguards embodied in international human rights treaties to safeguard those facing the death penalty There is evidence of police abuse unfair trials lack of access to competent defence counsel excessive periods of time spent on in horrible conditions on death row and public painful forms of execution The authors engage with the latest debates on the realities of capital punishment especially its justification as a uniquely effective deterrent whether it can ever be administered equitably without discrimination or error and what influence relatives of victims should have in sentencing and on the public debate For the first time it also discussing the problem of devising an alternative to capital punishment especially life imprisonment without the possibility of parole

The Evolution of the Juvenile Court Barry C. Feld, 2019-06-01 Winner 2020 ACJS Outstanding Book Award given by the Academy of Criminal Justice Sciences A major statement on the juvenile justice system by one of America s leading experts The juvenile court lies at the intersection of youth policy and crime policy Its institutional practices reflect our changing ideas about children and crime control *The Evolution of the Juvenile Court* provides a sweeping overview of the

American juvenile justice system's development and change over the past century. Noted law professor and criminologist Barry C. Feld places special emphasis on changes over the last 25 years: the ascendance of get tough crime policies and the more recent Supreme Court recognition that children are different. Feld's comprehensive historical analyses trace juvenile courts' evolution through four periods: the original Progressive Era, the Due Process Revolution in the 1960s, the Get Tough Era of the 1980s and 1990s, and today's Kids Are Different era. In each period, changes in the economy, cities, families, race, and ethnicity, and politics have shaped juvenile courts' policies and practices. Changes in juvenile courts' ends and means, substance, and procedure reflect shifting notions of children's culpability and competence. *The Evolution of the Juvenile Court* examines how conservative politicians used coded racial appeals to advocate get tough policies that equated children with adults, and more recent Supreme Court decisions that draw on developmental psychology and neuroscience research to bolster its conclusions about youths' reduced criminal responsibility and diminished competence. Feld draws on lessons from the past to envision a new developmentally appropriate justice system for children. Ultimately, providing justice for children requires structural changes to reduce social and economic inequality, concentrated poverty in segregated urban areas that disproportionately expose children of color to juvenile courts' punitive policies. Historical, prescriptive, and analytical, *The Evolution of the Juvenile Court* evaluates the author's past recommendations to abolish juvenile courts in light of this new evidence and concludes that separate but reformed juvenile courts are necessary to protect children who commit crimes and facilitate their successful transition to adulthood.
