Love And Toil Motherhood In Outcast London 1870 1918:

Love and Toil : Motherhood in Outcast London, 1870-1918 Ellen Ross Professor of Women's Studies Ramapo College, 1993-10-19 The history of the British working class has until recently been written with a focus on the workplace or on such male organizations as clubs unions or national political parties This study of mothers in London before World War I stresses the distinctiveness of their experiences from those of other classes and of the post World War I period and demonstrates the ways in which mothers and their domestic choices were essential to the survival and cultural perpetuation of the working classes

Love and Toil Ellen Ross, 1993-11-25 The feisty warm hearted mum has long figured as a symbol of the working class in Britain yet working class history has emphasized male organizations such as clubs unions or political parties Investigating a different dimension of social history Love and Toil focuses on motherhood among the London poor in the late Victorian and Edwardian years and on the cultures communities and ties with husbands and children that women created Mothers skills in managing the family budget earning income and caring for their children were critical in protecting households from the worst hardships of industrial capitalism yet poverty or the threat of it molded intimate relationships and left its imprint on personalities This book is also a case study demonstrating the larger argument that the concept of motherhood is more socially and historically constructed than biologically determined Shaky household economics pressure toward respectability the close proximity of neighbors the precariousness of infant and child life and little chance of better lives for their children shaped the work and emotions of motherhood much more than did the biological experiences of pregnancy birth and lactation This beautifully written book embellished with Cockney slang and music hall songs addresses fascinating questions in the fields of women s studies labor history social policy and family history

Mothers, Criminal Insanity and the Asylum in Victorian England Alison C. Pedley, 2023-07-13 Tracing the experiences of women who were designated insane by judicial processes from 1850 to 1900 this book considers the ideas and purposes of incarceration in three dedicated facilities Bethlem Fisherton House and Broadmoor The majority of these patients had murdered or attempted to murder their own children but were not necessarily condemned as incurably evil by medical and legal authorities nor by general society Alison C Pedley explores how insanity gave the Victorians an acceptable explanation for these dreadful crimes and as a result how admission to a dedicated asylum was viewed as the safest and most human solution for the madwomen as well as for society as a whole Mothers Criminal Insanity and the Asylum in Victorian England considers the experiences treatments and regimes women underwent in an attempt to redeem and rehabilitate them and return them to into a patriarchal society It shows how society s views of the institutions and insanity were not necessarily negative or coloured by fear and revulsion and highlights the changes in attitudes to female criminal lunacy in the second half of the 19th century Through extensive and detailed research into the three asylums archives and in legal governmental press and genealogical records this book sheds new light on the views of the patients themselves and contributes to the historiography

of Victorian criminal lunatic asylums conceptualising them as places of recovery rehabilitation and restitution *In Bed with the Victorians* Vicky Holmes, 2017-10-16 This book examines the life cycle of Victorian working class marriage through a study of the hitherto hidden marital bed Using coroners inquests to gain intimate access to the working class home and its inhabitants this book explores their marital quasi marital and post marital beds to reveal the material domestic and emotional experience of working class marriage during everyday life and at times of crisis Drawing on the recent approach of utilising domestic objects to explore interpersonal relationships the marital bed not only provides a rereading of the experiences of the working class wife but also brings the much maligned or simply overlooked working class husband into the picture Moreover it also extends our understanding of the various marriage like arrangements existing throughout this class Moving through the marital life cycle this book provides a greater understanding of marriages from the outset during childbirth at times of strife and marital breakdown and upon the death of a spouse

Rural Women Workers in Nineteenth-century England Nicola Verdon, 2002 The range of women's work and its contribution to the family economy studied here for the first time Despite the growth of women's history and rural social history in the past thirty years the work performed by women who lived in the nineteenth century English countryside is still an under researched issue Verdon directly addresses this gap in the historiography placing the rural female labourer centre stage for the first time The involvement of women in the rural labour market as farm servants as day labourers in agriculture and as domestic workers are all examined using a wide range of printed and unpublished sources from across England The roles village women performed in the informal rural economy household labour gathering resources and exploiting systems of barter and exchange are also assessed Changes in women's economic opportunities are explored alongside the implications of region age marital status number of children in the family and local custom women's economic contribution to the rural labouring household is established as a critical part of family subsistence despite criticism of such work and the rise in male wages after 1850 NICOLA VERDON is a Research Fellow in the Rural History Centre University of Reading

Conceptualizing Cruelty to Children in Nineteenth-Century England Monica Flegel, 2016-05-23 Moving nimbly between literary and historical texts Monica Flegel provides a much needed interpretive framework for understanding the specific formulation of child cruelty popularized by the National Society for the Prevention of Cruelty to Children NSPCC in the late nineteenth century Flegel considers a wide range of well known and more obscure texts from the mid eighteenth century to the early twentieth including philosophical writings by Locke and Rousseau poetry by Coleridge Blake and Caroline Norton works by journalists and reformers like Henry Mayhew and Mary Carpenter and novels by Frances Trollope Charles Dickens Wilkie Collins and Arthur Morrison Taking up crucial topics such as the linking of children with animals the figure of the

child performer the relationship between commerce and child endangerment and the problem of juvenile delinquency Flegel examines the emergence of child abuse as a subject of legal and social concern in England and its connection to earlier primarily literary representations of endangered children With the emergence of the NSPCC and the new crime of cruelty to children new professions and genres such as child protection and social casework supplanted literary works as the authoritative voices in the definition of social ills and their cure Flegel argues that this development had material effects on the lives of children as well as profound implications for the role of class in representations of suffering and abused children Combining nuanced close readings of individual texts with persuasive interpretations of their influences and limitations Flegel's book makes a significant contribution to the history of childhood social welfare the family and Victorian philanthropy

Infant Mortality: A Continuing Social Problem Eilidh Garrett, Chris Galley, Nicola Shelton, Robert Woods, 2018-02-06

In 1906 Sir George Newman's *Infant Mortality: A Social Problem* one of the most important health studies of the twentieth century was published To commemorate this anniversary this volume brings together an interdisciplinary team of leading academics to evaluate Newman's critical contribution to review current understandings of the history of infant and early childhood mortality especially in Britain and to discuss modern approaches to infant health as a continuing social problem The volume argues that even after 100 years of health programmes scientific advances and medical interventions early childhood mortality is still a significant social problem and it also proposes new ways of defining and tracking the problem of persistent mortality differentials

School Lunch Politics Susan Levine,2010-03-28 Whether kids love or hate the food served there the American school lunchroom is the stage for one of the most popular yet flawed social welfare programs in our nation s history School Lunch Politics covers this complex and fascinating part of American culture from its origins in early twentieth century nutrition science through the establishment of the National School Lunch Program in 1946 to the transformation of school meals into a poverty program during the 1970s and 1980s Susan Levine investigates the politics and culture of food most specifically who decides what American children should be eating what policies develop from those decisions and how these policies might be better implemented Even now the school lunch program remains problematic a juggling act between modern beliefs about food nutrition science and public welfare Levine points to the program menus dependence on agricultural surplus commodities more than on children s nutritional needs and she discusses the political policy barriers that have limited the number of children receiving meals and which children were served But she also shows why the school lunch program has outlasted almost every other twentieth century federal welfare initiative In the midst of privatization federal budget cuts and suspect nutritional guidelines where even ketchup might be categorized as a vegetable the program remains popular and feeds children who would otherwise go hungry As politicians and the media talk about a national obesity epidemic School Lunch Politics is a timely arrival to the food policy debates shaping American health welfare and equality

Contagion, Isolation, and Biopolitics in Victorian London Matthew Newsom Kerr,2017-10-12 This book is a history of London s vast network of fever and smallpox hospitals built by the Metropolitan Asylums Board between 1870 and 1900 Unprecedented in size and scope this public infrastructure inaugurated a new technology of disease prevention isolation Londoners suffering from infectious diseases submitted themselves to far reaching forms of surveillance removal and detention which made them legible to science and the state in entirely new ways Isolation on a mass scale transformed the meaning of urban epidemics and introduced contentious new relationships between health citizenship and the spaces of

modern governance Rich in archival sources and images this engaging book offers innovative analysis at the intersection of preventive medicine and Victorian era liberalism The social world of the school Hester Barron,2022-08-02 This book shows why the study of schooling matters to the history of twentieth century Britain integrating the history of education within the wider concerns of modern social history Drawing on a rich array of archival and autobiographical sources it captures in vivid detail the individual moments that made up the minutiae of classroom life It focuses on elementary education in interwar London arguing that schools were grounded in their local communities as lynchpins of social life and drivers of change Exploring crucial questions around identity and belonging poverty and aspiration class and culture behaviour and citizenship it provides vital context for twenty first century debates about education and society showing how the same concerns were framed a century ago

City Of Cities Stephen Inwood,2011-07-06 By 1880 London capital of the largest empire ever known was the richest most populous city in the world And yet it remained an overcrowded undergoverned city with huge slums gripped by poverty and disease Over the next three decades London began its transformation into a new kind of city one of unprecedented size dynamism and technological advance In this highly evocative account Stephen Inwood defines an era of unique character and importance by delving into the lives and textures of the booming city He takes us by hansom cab bicycle electric tram or motor bus from the glittering new department stores of Oxford Street to the synagogues and sweat shops of the East End from bohemian bars and gaudy music halls to the well kept gardens of Edwardian suburbia Essential reading for the scholar the historian and the lover of London He is equally at home with the grand sweep and the human detail always supported by immaculate research Inwood can throw off with elegant ease a concise explanation of technicalities that the reader was vaguely aware of not understanding and perhaps meant to look up sometime Liza Picard Financial Times Magazine

Victorian Childhoods Ginger S. Frost,2008-12-30 The experiences of children growing up in Britain during Victorian times are often misunderstood to be either idyllic or wretched Yet the reality was more wide ranging than most imagine Here in colorful detail and with firsthand accounts Frost paints a complete picture of Victorian childhood that illustrates both the difficulties and pleasures of growing up during this period Differences of class gender region and time

varied the lives of children tremendously Boys had more freedom than girls while poor children had less schooling and longer working lives than their better off peers Yet some experiences were common to almost all children including parental oversight physical development and age based transitions This compelling work concentrates on marking out the strands of life that both separated and united children throughout the Victorian period Most historians of Victorian children have concentrated on one class or gender or region or have centered on arguments about how much better off children were by 1900 than 1830 Though this work touches on these themes it covers all children and focuses on the experience of childhood rather than arguments about it Many people hold myths about Victorian families The happy myth is that childhood was simpler and happier in the past and that families took care of each other and supported each other far more than in contemporary times In contrast the unhappy myth insists that childhood in the past was brutal full of indifferent parents high child mortality and severe discipline at home and school Both myths had elements of truth but the reality was both more complex and more interesting Here the author uses memoirs and other writings of Victorian children themselves to challenge and refine those myths
