Space, the City and Social Theory Fran Tonkiss, 2005 Taking a thematic approach this book covers the main aspects of modern urban life taught on undergraduate courses The key approaches to the city within contemporary social theory are assessed Tonkiss adopts an international perspective with examples drawn from places such as New York Paris and Sydney

The Right to Resist Mario Wenning, Thomas Byrne, 2023-01-12 While the idea of total revolution seems anachronistic today there is increasing consensus about the importance of new forms of political ethical and aesthetic resistance In the past resistance was often motivated as a form of protest against specific institutions Increasingly dissent has become integrated into the fabric of modern life This volume addresses new forms of resistance at a level that combines a rootedness in the philosophical tradition and a sensitivity to rethinking the possibility of emancipation in today's age The work focuses on contemporary social and political philosophy from a perspective informed by critical theory The text specifically addresses three challenges

- 1 Critical theorists need to investigate in which ways resistance conformism and oppression oppose and constitute each other
- 2 The relationship between the theory and the practice of resistance needs to be posed anew given recent protest movements and media of protest
- 3 It needs to be shown in which ways different areas of society such as the arts religion and social media establish divergent practices of resistance

The chapters are written by scholars from Asia Europe and North America These experts in resistance discourse focus on practices of dissent ranging from traditional forms of civil disobedience to more recent practices such as guerrilla protest art and resistance in digital networks including social media What unites them is a shared concern for the dimensions of political acts of resistance in an age that is characterized by a tendency to integrate and thereby neutralize those very acts

Diagrams of Power in Benjamin and Foucault Mark Laurence Jackson, 2022-09-04 This book's overarching premise is that discussion and critique in the discourses of architecture and urbanism have their primary focus on engagements with form particularly in the sense of the question as to what planning and architecture signify with respect to the forms they take and how their meanings or content what is contained is considered in relation to form as container While significant critical work in these disciplines has been published over the past 20 years that engages pertinently with the writings of Walter Benjamin and Michel Foucault there has been no address to the co incidence in the work of Benjamin and Foucault of an architectural figure that is pivotal to each of their discussions of the emergence of modernity The arcade for Benjamin and the panoptic prison for Foucault have a parallel role In Foucault's terms panopticism is a diagram of power The parallel for Benjamin would be his understanding of constellation In more recent architectural writings the notion of the diagram has emerged as a key motif Yet and in as much as it supposedly relates to aspects of the work of Foucault along with Gilles Deleuze this notion of diagram amounts for the most part to a thinly veiled reinstatement of geometry as idea This book redresses the emphasis given to form within the cultural philosophy of modernity and particularly with respect to architecture and urbanism inflects on the agency of force that opens a reading of their productive capacities as technologies of power It is relevant to students and scholars in poststructuralist critical theory architecture and urban studies This is a book about Foucault and Benjamin and it is grounded in a deep knowledge of and reflection upon their works but it is also underpinned by an impressive erudition There are reflections on Hegel and Heidegger central to the author and Derrida along with Kierkegaard and others This leads to a rich and suggestive discussion in staging a spatial architectural political conversation between Foucault and Benjamin Anonymous Reviewer Mark Jackson's *Diagrams of Power in Benjamin and Foucault* The Recluse of Architecture juxtaposes and interrogates its two leading actors so as to draw from and through them a theory of architecture which is inseparable from its recluse In doing so it elaborates a series of complex connections with their various interlocutors and inspirations Hegel Heidegger Derrida the Kabbalah Agamben allegory Marx Deleuze Klossowski tragedy capitalism modernity and so on The list is long and impressive This is not only done with an extremely high degree of scholarship but is presented in a light lucid and very compelling manner in a voice both personal and authoritative The recluse is the figure of mimesis itself the appearance of a withdrawal always already a ruin This book not only contributes a highly astute reading of its philosophical objects but it enacts the ontology of the recluse through its own unfolding simultaneously revealing and withholding the meaning of architecture as such so that we not only understand its meaning but feel the pulsing differential of the book's object as if it were alive within us Stephen Zepke Independent Researcher Vienna *On Violence* Bruce B. Lawrence, Aisha Karim, 2007-12-06 An interdisciplinary collection of primary texts on the subject of violence from Freud to Gramsci to Foucault from Ghandi to Osama bin Laden The editors introductions frame the texts within questions of how violence is generated and perpetuated in so **"The Time Is Fulfilled"** Lynne Moss Bahr, 2018-12-27 In this study Lynne

Moss Bahr explores the concept of temporality as central to Jesus's proclamation of the Kingdom of God. Using insights from continental philosophy on the messianic which expose the false claim that time progresses in a linear continuum, Bahr presents these philosophical positions in critical dialogue with the sayings of Jesus regarding time and time's fulfillment. She shows how the Kingdom represents the possibilities of a disruption in time, one that reveals the intrinsic relation between God and humanity. In illustrating how Jesus's sayings regarding time are thus expressions of his messianic identity as of the world and not of the world, Bahr argues that the meaning of Jesus's identity as Messiah is embedded in the disjuncture of time in the impossibility of now from which the Kingdom comes. Bahr's use of critical theory in this study expands the concept of God's Kingdom beyond the traditional confines of the discipline.

The Beautiful Country Stephanie Malia

Hom, 2015-02-05 Every year Italy swells with millions of tourists who infuse the economy with billions of dollars and almost outnumber Italians themselves. In fact, Italy has been a model tourist destination for longer than it has been a modern state. *The Beautiful Country* explores the enduring popularity of destination Italy and its role in the development of the global mass tourism industry. Stephanie Malia Hom tracks the evolution of this particular touristic imaginary through texts, practices, and spaces, beginning with the guidebooks that frame Italy as an idealized land of leisure and finishing with destination Italy's replication around the world. Today more tourists encounter Italy through places like Las Vegas's The Venetian Hotel and Casino or Dubai's Mercato shopping mall than experience the country in Italy itself. Using an interdisciplinary methodology that includes archival research, ethnographic fieldwork, literary criticism, and spatial analysis, *The Beautiful Country* reveals destination Italy's paramount role in the creation of modern mass tourism.

The Just and Loving Gaze of God with Us, Second Edition Henry Walter Spaulding III, 2024-08-01

In recent years, Paul has become the subject of renewed interest among political philosophers. These philosophers deploy Paul as a means to deconstruct late modern political issues such as liberalism, biopolitics, and sovereignty. However, these philosophers ultimately truncate Paul's message to fit nontheistic, materialist ends. Such an approach polarizes interpreters, often leading either to a full endorsement or full rejection. In this work, Spaulding adds a needed voice in this conversation. By neither fully endorsing nor fully rejecting the new approach to Paul, Spaulding argues that Paul's message is both materialist and faithful to the Christian tradition. Spaulding critically utilizes both the new approach and recent studies in apocalyptic interpretations of Paul in order to articulate a Pauline political theology for our time. Pauline apocalyptic emphasizes the already disruptive nature of the incarnation, crucifixion, and resurrection of Jesus of Nazareth that wrests humanity from under the sovereignty of the fallen powers and places them under the Lordship of Christ. Apocalyptic is nourished by the promise of the eschatological hope of the not yet finished work of Christ. The church that follows the Lordship of Christ is called forth into being in the tension of the present Lordship of Christ and the not yet transformation of the cosmos. Such a tension begets practices that form the political commitment of what philosopher Iris Murdoch calls the just and loving gaze, namely the central conviction that in order to live good political

lives one must be taught to see *The Post-Racial Limits of Memorialization* Alfred Frankowski, 2015-11-09 The Post Racial Limits of Memorialization Toward a Political Sense of Mourning attempts to show how post racial discourse in general and post racial memory specifically operates as a context through which the memorialization of anti black violence and the production of new forms of this violence are connected Alfred Frankowski argues that aside from being symbolically meaningful the post racial context requires that memorialization of anti black violence in the past produces memory as a type of forgetting By challenging many of tenants of the critical turn in political philosophy and aesthetics he argues against a politics of reconciliation and for a political sense of mourning that amplifies the universality of violence embedded in our contemporary sensibility He argues for a sense of mourning that requires that we deepen our understanding of how remembrance and resistance to oppression remain linked and necessitates a fluid and active reconfiguration relative to the context in which this oppression exists *Key Writers on Art: The Twentieth Century* Chris Murray, 2005-06-27 A unique and authoritative guide to modern responses to art Featuring forty eight essays and written by a panel of expert contributors it introduces readers to the key approaches and analytical tools of contemporary art study and debate *Political Theology* Saul Newman, 2018-12-18 God is dead but his presence lives on in politics This is the problem of political theology the way that theological ideas find their way into secular political institutions particularly the sovereign state In this intellectual tour de force leading political theorist Saul Newman shows how political theology arose alongside secularism and relates to the problem of legitimising power and authority in modernity It is not about the power of religion so much as about the religion of power Examining the current crisis of the liberal order he argues that recent phenomena such as the rise of populism the renewed demand for strong national sovereignty and the return of religious fundamentalism may be understood through this paradigm He illustrates his argument through an exploration of themes such as sovereignty democracy economics technology ecological catastrophe messianism and the future of radical politics engaging with thinkers ranging from Schmitt and Hobbes to Stirner Foucault and Agamben This book will be a crucial text for all students scholars and general readers interested in the meaning and significance of political theology for political theory *Mimesis and Reason* Gregg Daniel Miller, 2011-09-23 Complicating the standard interpretation of Habermas as a proceduralist *Mimesis and Reason* uncovers the role that mimesis or imitation plays as a genuinely political force in communicative action Through a penetrating examination of Habermas s use of themes and concepts from Plato George Herbert Mead and Walter Benjamin Gregg Daniel Miller reconstructs Habermas s theory to reveal a new postmetaphysical articulation of reason that lays the groundwork for new directions in political theory **Mexico's Ruins** Raúl Rodríguez-Hernández, 2012-02-01 At face value the concept of modernity seems to reference a stream of social and historical traffic headed down a utopian one way street named progress Mexico s Ruins examines modernity in twentieth century Mexican culture as a much more ambiguous concept arguing that such a single minded notion is inadequate to comprehend the complexity of modern Mexico s national projects and their

reception by the nation's citizenry. Instead, through the trope of modernity as ruin, author Raúl Rodríguez Hernández explores the dilemma presented by the etymology of ruins: a simultaneous falling down and rising up, a confluence of opposing forces at work on the skyline of the metropolis since 1968. He focuses on artists and writers of the *generación de medio siglo* like Juan García Ponce and envisions both the tales of modernity and their storytellers in a new light. The arts, literature, and architecture of twentieth-century Mexico are all examined in this cross-cultural and interdisciplinary book. *Conceiving Life* Patrick Hanafin, 2016-05-23 This volume examines the evolution of reproductive law in Italy from the far west of the 1980s and 90s through to one of the most potentially restrictive systems in Europe. The book employs an array of sociological, philosophical, and legal material in order to discover why such a repressive piece of legislation has been produced at the end of a period of substantial change in the dynamic of gender relations in Italy. The book also discusses Italian policy within the wider European policy framework. *The Making of James Agee* Hugh Davis, 2008 Wildly productive during his short life, James Agee (1909-1955) is today perhaps best remembered as a novelist; his posthumously published *A Death in the Family* won a Pulitzer Prize in 1958, but he was also a poet, screenwriter, journalist, essayist, book reviewer, and movie critic. In *The Making of James Agee*, Hugh Davis takes a comprehensive look at Agee's career, showing the interrelatedness of his concerns as a writer. A full view of Agee's oeuvre, Davis argues, illuminates its deeply political nature as well as a debt to various sources, particularly European surrealism, that have been little noted by previous Agee scholars. Davis challenges the view of Agee that has persisted since his death: that he is best understood primarily as a romantic individualist at odds with convention and the literary mainstream, and argues that this myth was largely constructed by friends and associates who were so immersed in the tenets of modernism that they distorted Agee's work and aesthetic intent in an attempt to purify it in modernist terms. In revealing a writer of far greater complexity than the Agee myth allows, Davis explores, for example, the leftist poetry that Agee wrote in the 1930s, which was almost completely suppressed by his editors. He also throws a fresh light on Agee's collaboration with photographer Walker Evans on *Let Us Now Praise Famous Men* and reevaluates *A Death in the Family* in light of recent scholarship that has produced an almost entirely new version of the novel, one much closer to Agee's original intentions. A much-needed corrective to the many misconceptions about Agee, Davis's study is a provocative and lucidly written work that is certain to spark new dialogues about one of the most fascinating figures in twentieth-century American literature. **Beckett's Words** David Kleinberg-Levin, 2015-07-30 At stake in this book is a struggle with language in a time when our old faith in the redeeming of the word and the word's power to redeem has almost been destroyed. Drawing on Benjamin's political theology, his interpretation of the German Baroque mourning play, and Adorno's critical aesthetic theory, but also on the thought of poets and many other philosophers, especially Hegel's phenomenology of spirit, Nietzsche's analysis of nihilism, and Derrida's writings on language, Kleinberg-Levin shows how, because of its communicative and revelatory powers, language bears the utopian promise of happiness, the idea of a secular redemption of humanity at the

very heart of which must be the achievement of universal justice In an original reading of Beckett's plays novels and short stories Kleinberg Levin shows how despite inheriting a language damaged corrupted and commodified Beckett redeems dead or dying words and wrests from this language new possibilities for the expression of meaning Without denying Beckett's nihilism his picture of a radically disenchanted world Kleinberg Levin calls attention to moments when his words suddenly ignite and break free of their despair and pain taking shape in the beauty of an austere yet joyous lyricism suggesting that after all meaning is still possible
