Reflections From The Sea:

Reflections by the Sea Christin Marie, 2019-12-17 Reflections by the Sea navigates along three sections of poetry inspired by the author's experiences over her time while mingling with the sea Through a still space the profound voice of the sea emerges and what flows forth is a movement through three Parts Reflections Prayers and Love Part I both reflective and meditative stirs from being at one with the elements and paints a landscaped canvas of distant beaches lush mountains and lusty sails Part II drifts into a resonance of prayers washed forth along the shore of the painted sea verses delivered from its abyssal soul and the Divine voice of All In Part III Love by the Sea the tone shifts to one of romantic love poems of a heart that heals regains courage and flows into a deeper love never before fathomed **Reflections in the Sea** John

Cooper,2013-10-29 Myth and religion poetry and prose painting and music attest to the fascination of reflections of the sun on the surface of the sea For D H Lawrence Henri Matisse and many others the experience of sunlight on the sea gives vigour and vitality to our lives This short book is one philosopher s enquiry into the significance of this experience an attempt to articulate the meaning of an experience that many people both need and cherish The starting point is the undeniable beauty of glittering reflections on the sea the most perfect of all beauties according to Arthur Schopenhauer Inspiration is then drawn from ancient traditions of thought Chinese Greek Indian that emphasised the unity of beauty goodness and truth The question addressed is what the beauty we find in sunlight on water shows about our understanding of the good life and of the way of things In some chapters a parallel question is asked by way of counterpoint about the significance of a contrasting kind of beauty the shadowy and subdued beauty that has been especially appreciated in Japanese culture In the glistening surface of a sunlit sea the author argues there is a metaphor for and an expression of aspects of the good life happiness spontaneity and intimacy with nature In looking at this surface we have a glimpse of how we would want our relationship to the world to be But reflections of the sun in water are also a metaphor for or an epiphany of reality This is the world as it is prior to being subjected to human conceptual schemes and purposes It is the world as an integrated whole of experience a quicksilver soft edged ephemeral realm whose source is a mystery In the swirling ever changing and ever merging reflections on the surface of a sea whose depths are invisible to us there is a symbol of the way of things of what Chinese thinkers called the Dao This book is an exercise in phenomenology its aim is to expose the meaning of a familiar experience of beauty The author shows how this experience as expressive of the good and the true is in a sense deeper perhaps than Lawrence and Matisse intended life enhancing Whether or not the book succeeds in its aim will be judged by people who in the words of one travel writer can find no escape from the mirror like expanse of a gleaming sea it is an experience that follows them about like an all pervading inevitable melody

Hyperbolic Reflections on Beaufort Sea Seismic Records K. G. Neave,1981 *Lived Experiences and Social Transformations* CL Wren Radford,2022-03-07

Practices of sharing marginalised lived experiences are framed as providing insight into injustices yet social inequalities influence whose experiences and whose interpretations of these experiences are seen as valid Lived Experiences and Social Transformations analyses academic and activist encounters with lived experiences arguing that these practices reinforce or disrupt power relations Through the example of UK activists sharing their experiences of poverty Wren Radford advocates for collaborative interventions that emphasise the critical creative knowledges enmeshed in marginalised experiences The book compellingly enacts this approach to practical theology rooted in concrete issues and argued through poetic writing artwork and interdisciplinary sources
