Burke s Reflections on the Revolution in France was the first sustained theoretical critique of the French Revolution and is now recognised as the classic statement of modern conservatism Reflections surveys the British political culture of traditionalism gradualism and deference and contrasts it with the French Revolutionaries programme of appeal to abstract right transformational change and popular agency Ultimately Burke advocated a counterrevolutionary war and the restoration of the French monarchy This accessible new edition brings together for the first time Burke s first and last published thoughts on the revolution including as it does the first Letter on a Regicide Peace a work that has contributed to a particular view of international society Featuring a comprehensive introduction and extensive annotations Iain Hampsher Monk s edition helps readers new to Burke to better understand the

historical political and philosophical context behind his writings and the significance of contemporary and classical allusions

Reflections on the French Revolution Edmund Burke, 1890 **Reflections on the Revolution in France** Edmund Burke, 2018-10-14 Edmund Burke's *Reflections on the Revolution in France* is considered by many to be a masterpiece of political analysis and a compelling rationale against the French Revolution. Originally written as a letter in response to a young Parisian and later expanded upon and published in book format in January 1790, the work has greatly influenced conservative and classic liberal intellectuals and stands as a powerful argument against violent revolutions, lawlessness, and unrest. Prior to 1790, Burke was a well-known member of the British House of Commons and a vocal supporter of the American Revolution. His condemnation of the French Revolution shocked many of his peers and supporters. Burke viewed the French Revolution as a violent and chaotic war without any guiding ideology or respect for the rule of law and feared it would lead to a situation that was both dangerous and corrupt. Many of Burke's predictions came true as the Revolution devolved into bloodshed and anarchy with the Reign of Terror beginning in 1793 and then leading to the eventual military dictatorship of Napoleon Bonaparte. Burke's work stands as an enduring statement in support of tradition, hereditary power, property rights, duty, and the monarchy.

Reflections on the Revolution in France, Edmund Burke, 1790 **Reflections on the Revolution in France and Other Writings** Edmund Burke, 2015-11-03 The most important works of Edmund Burke, the greatest political thinker of the past three centuries, are gathered here in one comprehensive volume. Accompanying his influential masterpiece *Reflections on the Revolution in France* is a selection of pamphlets, speeches, public letters, private correspondence, and for the first time, two important and previously uncollected early essays. Philosopher, statesman, and founder of conservatism, Burke was a dazzling orator and a visionary theorist who spent his long political career fighting abuses of power. He wrote at a time of great change, against the backdrop of the revolt of the American colonies, the expansion of the British Empire, the collapse of Ireland, and the French Revolution. Burke argued passionately in support of the American revolutionaries and in equally impassioned opposition to the horrors of the unfolding French Revolution. Making a case for upholding established rights and customs and advocating incremental reform rather than radical revolutionary change, Burke's writings have profoundly influenced modern democracies up to the present day. Edited and Introduced by Jesse Norman.

Reflections on the Revolution in France, and on the Proceedings of Certain Societies in London Relative to that Event Edmund Burke, 1836 *On Burke's Reflections on the French Revolution, 1790* Catharine Macaulay, 1997 Catharine Macaulay's reply to Burke on the French Revolution has never been reprinted but takes its place alongside Wollstonecraft's *Vindication of the Rights of Men* as the immediate response of the radical left preceding Priestley, Mackintosh, and Paine. The leading professional historian of her day, Macaulay was a personal friend of Washington and had Volumes 1-5 of her *History of England* translated into French by Mirabeau. Her *Letters on Education* (1790), see p. 21 of this catalogue, contains the basic feminist positions taken up by Wollstonecraft in her second *Vindication*.

An Original Political Pamphlet

Reflections on the Revolution in France The proceedings in certain societies in London relative to that event in a letter intended to have been sent to a Gentleman in Paris

Edmund Burke

Reflections on the Revolution in France is a political pamphlet written by the British statesman Edmund Burke and published in November 1790 One of the best known intellectual attacks against the French Revolution

Reflections is a defining tract of modern conservatism as well as an important contribution to international theory Above all else it has been one of the defining efforts of Edmund Burke's transformation of traditionalism into a self-conscious and fully conceived political philosophy of conservatism

The pamphlet has not been easy to classify Academics have had trouble identifying whether Burke or his tract can best be understood as a realist or an idealist Rationalist or a Revolutionist Thanks to its thoroughness rhetorical skill and literary power it has become one of the most widely known of Burke's writings and a classic text in political theory

In the twentieth century it greatly influenced conservative and classical liberal intellectuals who recast Burke's Whiggish arguments as a critique of communist and revolutionary socialist programmes

It may not be unnecessary to inform the reader that the following Reflections had their origin in a correspondence between the author and a very young gentleman at Paris who did him the honor of desiring his opinion upon the important transactions which then and ever since have so much occupied the attention of all men

An answer was written some time in the month of October 1789 but it was kept back upon prudential considerations

That letter is alluded to in the beginning of the following sheets

It has been since forwarded to the person to whom it was addressed

The reasons for the delay in sending it were assigned in a short letter to the same gentleman

This produced on his part a new and pressing application for the author's sentiments

The author began a second and more full discussion on the subject

This he had some thoughts of publishing early in the last spring but the matter gaining upon him he found that what he had undertaken not only far exceeded the measure of a letter but that its importance required rather a more detailed consideration than at that time he had any leisure to bestow upon it

However having thrown down his first thoughts in the form of a letter and indeed when he sat down to write having intended it for a private letter he found it difficult to change the form of address when his sentiments had grown into a greater extent and had received another direction

A different plan he is sensible might be more favorable to a commodious division and distribution of his matter
