Gordon

Melton, 2005 An illustrated A to Z reference containing over 600 entries providing information on the theology people historical events institutions and movements related to Protestantism A Global Sourcebook in Protestant Political

Thought, Volume I Matthew Rowley, Marietta van der Tol, 2024-07-01 This first volume of A Global Sourcebook in Protestant

Political Thought provides a window into the early Protestant world and the ways in which Protestants wrestled with politics and religion in the wake of the Reformation. This period saw political authorities and church hierarchies challenged and defended by scholars, clerics and laypeople alike. The volume engages the full spectrum of Protestants with reference to theology, geography, ethnicity, historical importance, socio-economic background and gender. This diversity highlights how Protestants felt pulled towards differing political positions and used several maps to chart their course: conscience, custom, history, ecclesiastical tradition and the laws of God, nature, nation or community. On most important issues, Protestants lined up on opposing sides. Additionally, Catholic and Eastern Orthodox political thought as well as interactions with Jewish and Muslim texts and thinkers profoundly influenced different directions taken in the history of Protestant political thought. Even as our own time is fraught with deep disagreement and political polarisation, so too was early modern Europe, and we might read it in the anxieties, uncertainties, hopes and expectations that the sources vividly express. This sourcebook will enrich both research and classroom teaching in politics, theology and history, whether geared towards general political or religious history or towards more specialised courses on colonialism, warfare, gender, race or religious diversity.

The Empire's Reformations David M. Luebke, 2024-07-25. The Empire's Reformations provides a concise overview of reform movements in 16th-century Germany that gave birth to the modern division of western Christianity into multiple denominations: Roman Catholic, Lutheran, Calvinist and more. It exposes the origins of modern religious pluralism both in battle for souls among these emerging camps and in the struggles of political leaders at every level to manage the threat that religious diversity posed to tranquillity and order in a rigidly hierarchical society. As such, it offers a prehistory of religious toleration not as a positive value; few regarded toleration as inherently good but as a strategy for keeping the peace. David M. Luebke considers the reformations of religion in the context of concurrent transformations in the political and judicial structures of the Holy Roman Empire, that sprawling confederation of principalities and city states that embraced most regions where German was spoken. This allows Luebke to view the religious reforms through the lens of imperial politics, showing how the Empire differed from the Atlantic monarchies, Eastern Europe, Scandinavia and the Mediterranean. On a different and equally significant level, he examines how ordinary people of all backgrounds experienced the controversy over religion and responded to reforms of doctrine and observance. The inclusion of both the imperial and local perspectives moves the Reformation beyond the familiar story of theological combat and reimagines it as something that had resonance throughout the world, impacting people's lives in the process.

Disruption David Potter, 2021-06-03. A timely and fascinating look at massive historical change across two millennia, from the Christianization of the Roman Empire to today's new economy. Disruption examines how fringe intellectual movements can change powerful institutions and why those institutions are vulnerable to big changes.
