Reformation in Medieval Perspective ,1971 *Seeing the Reformation in medieval perspective* William David James Cargill Thompson, **The Dawn of the Reformation** Heiko Oberman, 1992-08-04 A distinguished scholar places the Reformation movement in its medieval context Oberman s discerning perspective illuminates the modern student in regard to the multi faceted historical cultural context out of which the Reformation arose This splendid volume includes essays ranging in time from the fourteenth century to Calvin Gordon Rupp University of Cambridge A Short History of the Reformation Helen L. Parish, 2018-08-30 When in October 1517 Martin Luther pinned his Ninety Five Theses to the door of All Saints Church in Wittenberg he shattered the foundations of western Christendom The Reformation of doctrine and practice that followed Luther s seismic action and protest against the sale of indulgences fragmented the Church and overturned previously accepted certainties and priorities But it did more challenging the relationship between spiritual and secular authority perceptions of the supernatural the interpretation of the past the role of women in society and church and clerical attitudes towards marriage and sex Drawing on the most recent historiography Helen L Parish locates the Protestant Reformation in its many cultural social and political contexts She assesses the Reformers impact on art and architecture on notions of authority scripture and tradition and reflecting on the extent to which the printing press helped spread Reformation ideas on oral print and written culture **The Reformation of the Sixteenth Century** Roland Bainton, 1985-09-30 Bainton presents the many strands that made up the Reformation in a single brilliantly coherent account He discusses the background for Luther s irreparable breach with the Church and its ramifications for 16th Century Europe giving thorough accounts of the Diet of Worms the institution of the Holy Commonwealth of Geneva Henry VIII s break with Rome and William the Silent s struggle for Dutch independence **The Reformation of Feeling** Susan C. Karant-Nunn, 2012-10-18 Susan Karant Nunn argues that the 16th century Reformation movement sought not only to modify people s doctrinal convictions and their behavior but to root these changes in altered sentiment **Lay Theology in the Reformation** Paul A. Russell, 2002-06-20 This book examines the coming of the Protestant Reformation from the viewpoint of

eight common people who were sufficiently disturbed by the events of 1521 to write treatises letters dialogues and sermons which they published Their works are lively testimony to the interest of laypeople in the affairs of the church and their willingness to discuss often complex theological training These works are among the first documents of lay theology and piety but they are also propaganda disappointed with the Catholic clergy and with secular authorities the authors of these pamphlets were called to prophesy preach and convert their readers listeners lest Christ return soon to find his church unprepared They demanded a new apostolate for laypeople something the clergy had feared for centuries and something which civic authorities feared as a potential source of radical ideas

Historical Dictionary of the Reformation and Counter-Reformation Michael Mullett, 2010-04-30 The Protestant Reformation of the 16th century has traditionally been viewed as marking the onset of modernity in Europe It finally broke up the federal Christendom of the middle ages under the leadership of the papacy and substituted for it a continent of autonomous and national states independent of Rome The Historical Dictionary of the Reformation and Counter Reformation provides a comprehensive account of two chains of events the Protestant Reformation and the Catholic Counter Reformation that have left an enduring imprint on Europe America and the world at large This is done through a chronology an introductory essay a bibliography and over 300 cross referenced dictionary entries on persons places countries institutions doctrines ideas and events

Luther and the Reformation of the Later Middle Ages Eric Leland Saak, 2017-04-19 In 1517 Martin Luther posted his 95 Theses an act often linked with the start of the Reformation In this work Eric Leland Saak argues that the 95 Theses do not signal Luther's break from Roman Catholicism An obedient Observant Augustinian Hermit Luther's self understanding from 1505 until at least 1520 was as Brother Martin Luther Augustinian not Reformer and he continued to wear his habit until October 1524 Saak demonstrates that Luther's provocative act represented the culmination of the late medieval Reformation It was only the failure of this earlier Reformation that served as a catalyst for the onset of the sixteenth century Protestant Reformation Luther's true Reformation discovery had little to do with justification by faith or with his 95 Theses Yet his discoveries in February of 1520 were to change everything

Scriptural Perspicuity in the Early English Reformation in Historical Theology Richard M. Edwards, 2009 A consistent indigenous English doctrine of scriptural perspicuity correlates with a commitment to the availability of the vernacular scriptures in English and supports the English roots of the Early English Reformation EER Although political events and figures dominate the EER its religious component springing from John Wyclif and streaming throughout the tradition must be recognized more widely This book critically surveys the doctrine of scriptural perspicuity from the beginning of the Church in the first century noted as early as John Chrysostom through the seventeenth century examining its impact on the current debates concerning competing hermeneutical systems reader response hermeneutics and the debates in conservative American Presbyterianism and Reformed theology on subscription to the Westminster Confession of Faith the length of creation days and other issues

A Companion to the Reformation World R. Po-chia

Hsia,2008-04-15 This volume brings together 29 new essays by leading international scholars to provide an inclusive overview of recent work in Reformation history Presents Catholic Renewal as a continuum of the Protestant Reformation Examines Reformation in Eastern and Western Europe Asia and the Americas Takes a broad inclusive approach covering both traditional topics and cutting edge areas of debate *Rethinking Catholicism in Reformation England* Lucy E. C. Wooding,2000-10-19 This book considers the ideological development of English Catholicism in the sixteenth century from the complementary perspectives of history theology and literature Lucy Wooding argues that Erasmian humanism had laid the foundations for Catholic reformation in England but that it was Henry VIII who turned an intellectual trend into an actual reform programme reshaping English Catholicism in the process The reformist strand within Catholic thought remained influential during the reign of Mary I and in the early Elizabethan period but was then reconfigured by the experience of exile and the onset of the drive for Counter Reformation uniformity Dr Wooding shows that Catholicism in this period was neither a defunct tradition nor one merely reacting to Protestantism but a vigorous intellectual movement responding to the reformist impulse of the age Its development illustrates the English Reformation in microcosm scholarly humanist didactic and preserving its own peculiarities independent of European trends *Rethinking Catholicism in Reformation England* makes an important contribution to the intellectual history of the Reformation *Historical Dictionary of the Reformation and Counter-Reformation* Hans J. Hillerbrand,2013-04-03 The Reformation of the 16th century has always been seen as one of the pivotal events in European history Lord Acton the famous 19th century British historian compared the importance of Martin Luther s speech at the diet at Worms in 1521 with Napoleon s defeat at the Battle of Waterloo in 1813 Lord Acton s may or may not be an extravagant claim but it is certainly true that the events of the 16th and 17th centuries now called the Reformation and Counter Reformation changed forever the religious and political history of the West The Historical Dictionary of the Reformation and Counter Reformation provides a one volume balanced alternative to the overwhelming amounts of literature on the events of the time and the theological and political debates that spawned those events

Pastor and Laity in the Theology of Jean Gerson Dorothy Catherine Brown,1987-03-19 An exploration of the teaching of one of Europe s most influential churchmen of the early fifteenth century **Contesting the Reformation** C. Scott Dixon,2012-03-09 Contesting the Reformation provides a comprehensive survey of the most influential works in the field of Reformation studies from a comparative cross national interdisciplinary perspective Represents the only English language single authored synthetic study of Reformation historiography Addresses both the English and the Continental debates on Reformation history Provides a thematic approach which takes in the main trends in modern Reformation history Draws on the most recent publications relating to Reformation studies Considers the social political cultural and intellectual implications of the Reformation and the associated literature *Fifteenth-Century Carthusian Reform: The World of Nicholas Kempf* Martin,2021-11-01 *Fifteenth Century Carthusian Reform* argues that monastic theology offers a medieval

Catholic paradigm distinct from the scholastic theology that has been the conventional source for medieval oriented interpretations of Renaissance and Reformation. It is based on thorough study of the manuscript record. Nicholas Kempf ca 1415-1497 taught at the University of Vienna before becoming the head of Carthusian monasteries in rural Austria and Slovenia. Faced with calls for reform in church and society, he placed his confidence in the patristic Christian idea of reform: the reform of the image of God in the human person. This contemplative monastic idea of reform depended on authoritative structures, especially the monastic rule and rational yet divinely inspired discernment by a spiritual director. What seemed like simpleminded submission to monastic structures was actually a way to avoid relying on human effort for salvation. By returning to one's true self, the image of God, one opened oneself up for genuine social relationships. To activist reformers, whether adherents of medieval scholasticism, Renaissance humanism, or modern Enlightenment, this monastic idea of reform has seemed escapist, backward looking, and womanish. Monks accepted these labels but read them as signs of hidden strength. This book attempts to read through monastic lenses. *Covenant Theology in the Reformed Perspective* Mark W. Karlberg, 2000-07-31

Masters of the Reformation Heiko Augustinus Oberman, 1981-06-04. A general survey of academic thought and its impact on a wider world from the later Middle Ages to the emergence of Luther and the city Reformation. The book uses the early history of the University of Tübingen to illuminate late fifteenth century theological developments and the first stirrings of the Reformation.
