Refuge In Thunder Candomblé And Alternative Spaces Of Blackness:

A Refuge in Thunder Rachel E. Harding, 2003 An important detailing of the development and evolution of a major institution of the African Diaspora and of Brazilian and Afro Brazilian identity Sheila S Walker The Afro Brazilian religion Candomblé has long been recognized as an extraordinary resource of African tradition values and identity among its adherents in Bahia Brazil Outlawed and persecuted in the late colonial and imperial period Candomblé nevertheless developed as one of the major religious expressions of the Afro Atlantic diaspora Drawing principally on primary sources such as police archives Rachel E Harding describes the development of the religion as an alternative space in which subjugated and enslaved blacks could gain a sense of individual and collective identity in opposition to the subaltern status imposed upon them by the dominant society

The Occult Nineteenth Century Lukas Pokorny, Franz Winter, 2021-01-09 The nineteenth century witnessed a proliferation of alternative religious currents and practices appropriating earlier traditions entangling geographically distinct spiritual discourses and crafting a repository of mindscapes eminently suitable to be accommodated by later generations of thinkers and practitioners Penned by specialists in the field this volume examines important themes and figures pertaining to this occult amalgam and its resonance into the twentieth century and beyond Global guises of the occult ranging from the Americas and Europe to India are variously addressed with special attention to the crucial role of mesmerism and the origins of modern yoga

Blackness in the White Nation George Reid Andrews, 2010-10-18 Uruguay is not conventionally thought of as part of the African diaspora yet during the period of Spanish colonial rule thousands of enslaved Africans arrived in the country Afro Uruguayans played important roles in Uruguay's national life creating the second largest black press in Latin America a racially defined political party and numerous social and civic organizations Afro Uruguayans were also central participants in the creation of Uruguayan popular culture and the country's principal musical forms tango and candombe Candombe a style of African inflected music is one of the defining features of the nation's culture embraced equally by white and black citizens In *Blackness in the White Nation* George Reid Andrews offers a comprehensive history of Afro Uruguayans from the colonial period to the present Showing how social and political mobilization is intertwined with candombe he traces the development of Afro Uruguayan racial discourse and argues that candombe's evolution as a central part of the nation's culture has not fundamentally helped the cause of racial equality Incorporating lively descriptions of his own experiences as a member of a candombe drumming and performance group Andrews consistently connects the struggles of Afro Uruguayans to the broader issues of race culture gender and politics throughout Latin America and the African diaspora generally

Relocating the Sacred Niyi Afolabi, 2022-11-01 Although Brazil is home to the largest African diaspora the religions of its African descendants have often been syncretized and submerged first under the force of colonialism and enslavement and later under the spurious banner of a harmonious national Brazilian character *Relocating the Sacred* argues that these religions nevertheless have been preserved and manifested in a strategic

corpus of shifting masks and masquerades of Afro Brazilian identity Following the re Africanization process and black consciousness movement of the 1970s to 1990s Afro Brazilians have questioned racial democracy seeing how its claim to harmony actually dispossesses them of political power By embracing African deities as a source of creative inspiration and resistance Afro Brazilians have appropriated syncretism as a means of not only popularizing African culture but also decolonizing themselves from the past shame of slavery This book maps the role of African heritage in and relocation of the sacred to three sites of Brazilian cultural production ritual altars literature and carnival culture

The Human Tradition in the Black Atlantic, 1500-2000 Beatriz G. Mamigonian, Karen Racine, 2010 Like snapshots of everyday life in the past the compelling biographies in this book document the making of the Black Atlantic world since the sixteenth century from the point of view of those who were part of it Centering on the diaspora caused by the forced migration of Africans to Europe and across the Atlantic to the Americas the chapters explore the slave trade enslavement resistance adaptation cultural transformations and the quest for citizenship rights The variety of experiences constraints and choices depicted in the book and their changes across time and space defy the idea of a unified black experience At the same time it is clear that in the twentieth century black identity unified people of African descent who along with other minority groups struggled against colonialism and racism and presented alternatives to a version of modernity that excluded and alienated them Drawing on a rich array of little known documents the contributors reconstruct the lives and times of some well known characters along with ordinary people who rarely left written records and would otherwise have remained anonymous and unknown

Deeper Shades of Purple Stacey M. Floyd-Thomas, 2006-08 Womanist approaches to the study of religion and society have contributed much to our understanding of Black religious life activism and women s liberation This volume explores the achievements of this

movement and evaluates some of the leading voices and different perspectives within this field Underworld Work Ahmad Greene-Hayes, 2025-05-06 A rethinking of African American religious history that focuses on the development and evolution of African spiritual traditions in Jim Crow New Orleans When Zora Neale Hurston traveled to New Orleans she encountered a religious underworld a beautiful anarchy of spiritual life In Underworld Work Ahmad Greene Hayes follows Hurston on a journey through the rich tapestry of Black religious expression from emancipation through Jim Crow He looks within and beyond the church to recover the diverse leadership of migrants healers dissidents and queer people who transformed their marginalized homes bars and street corners into sacred space Greene Hayes shows how while enclosed within an anti black world these outcasts embraced African esotericisms ancestral veneration faith healing spiritualized sex work and more to conjure a connection to freer worlds past and yet to come In recovering these spiritual innovations Underworld Work celebrates the resilience and creativity of African religions *Matter, Magic, and Spirit* David Murray, 2013-04-23 The spiritual and religious beliefs and practices of Native Americans and African Americans have long been sources of fascination and curiosity owing to their marked difference from the religious traditions of white writers and researchers *Matter Magic and Spirit* explores the ways religious and magical beliefs of Native Americans and African Americans have been represented in a range of discourses including anthropology comparative religion and literature Though these beliefs were widely dismissed as primitive superstition and inferior to higher religions like Christianity distinctions were still made between the supposed spiritual capacities of the different groups David Murray's analysis is unique in bringing together Indian and African beliefs and their representations First tracing the development of European ideas about both African fetishism and Native American primitive belief he goes on to explore the ways in which the hierarchies of race created by white Europeans coincided with hierarchies of religion as expressed in the developing study of comparative religion and folklore through the nineteenth century Crucially this comparative approach to practices that were dismissed as conjure or black magic or Indian medicine points as well to the importance of their cultural and political roles in their own communities at times of destructive change Murray also explores the ways in which Indian and African writers later reformulated the models developed by white observers as demonstrated through the work of Charles Chesnutt and Simon Pokagon and then in the later conjunctions of modernism and ethnography in the 1920s and 1930s through the work of Zora Neale Hurston Zitkala Sa and others Later sections demonstrate how contemporary writers including Ishmael Reed and Leslie Silko deal with the revaluation of traditional beliefs as spiritual resources against a background of New Age spirituality and postmodern conceptions of racial and ethnic identity Sorcery in the Black Atlantic Luis Nicolau Parés, Roger Sansi-Roca, 2011-02-15 Roger Sansi is lecturer in anthropology at Goldsmiths University of London Book Jacket **Museums and Atlantic Slavery** Ana Lucia Araujo, 2021-04-11 *Museums and Atlantic Slavery* explores how slavery the Atlantic slave trade and enslaved people are represented through words visual images artifacts and audiovisual materials in museums in Europe and the Americas Divided

into four chapters the book addresses four recurrent themes wealth and luxury victimhood and victimization resistance and rebellion and resilience and achievement Considering the roles of various social actors who have contributed to the introduction of slavery in the museum in the last thirty years the analysis draws on selected exhibitions and institutions entirely dedicated to slavery as well as national community plantation and house museums in the United States England France and Brazil Engaging with literature from a range of disciplines including history anthropology sociology art history tourism and museum studies Araujo provides an overview of a topic that has not yet been adequately discussed and analysed within the museum studies field Museums and Atlantic Slavery encourages scholars students and museum professionals to critically engage with representations of slavery in museums The book will help readers to recognize how depictions of human bondage in museums and exhibitions often fail to challenge racism and white supremacy inherited from the period of slavery

Terms of Inclusion Paulina L. Alberto, 2011-05-02 In this history of black thought and racial activism in twentieth century Brazil Paulina Alberto demonstrates that black intellectuals and not just elite white Brazilians shaped discourses about race relations and the cultural and political terms of inclusion in their modern nation Drawing on a wide range of sources including the prolific black press of the era and focusing on the influential urban centers of Sao Paulo Rio de Janeiro and Salvador da Bahia Alberto traces the shifting terms that black thinkers used to negotiate their citizenship over the course of the century offering fresh insight into the relationship between ideas of race and nation in modern Brazil Alberto finds that black intellectuals ways of engaging with official racial discourses changed as broader historical trends made the possibilities for true inclusion appear to flow and then recede These distinct political strategies Alberto argues were nonetheless part of black thinkers ongoing attempts to make dominant ideologies of racial harmony meaningful in light of evolving local national and international politics and discourse Terms of Inclusion tells a new history of the role of people of color in shaping and contesting the racialized contours of citizenship in twentieth century Brazil

Spiritual Citizenship N. Fadeke Castor, 2017-11-09 In Spiritual Citizenship N Fadeke Castor employs the titular concept to illuminate how If Orisha practices informed by Yoruba cosmology shape local national and transnational belonging in African diasporic communities in Trinidad and beyond Drawing on almost two decades of fieldwork in Trinidad Castor outlines how the political activism and social upheaval of the 1970s set the stage for African diasporic religions to enter mainstream Trinidadian society She establishes how the postcolonial performance of If Orisha practices in Trinidad fosters a sense of belonging that invigorates its practitioners to work toward freedom equality and social justice Demonstrating how spirituality is inextricable from the political project of black liberation Castor illustrates the ways in which If Orisha beliefs and practices offer Trinidadians the

Slavery's Metropolis Rashauna Johnson, 2016-11-07 New Orleans is an iconic city which was once located at the crossroads of early America and the Atlantic World New Orleans became a major American metropolis as its slave population exploded in the early nineteenth century slaves made up one third of the urban population In contrast to our typical understanding of rural localized isolated bondage in the emergent Deep South daily experiences of slavery in New Orleans were global interconnected and transient Slavery's Metropolis uses slave circulations through New Orleans between 1791 and 1825 to map the social and cultural history of enslaved men and women and the rapidly shifting city nation and world in which they lived Investigating emigration from the Caribbean to Louisiana during the Haitian Revolution commodity flows across urban rural divides multiracial amusement places the local jail and freedom seeking migrations to Trinidad following the War of 1812 it remaps the history of slavery in modern urban society *Engaging Coloniality* Raimundo Barreto, Mark A. Lamport, 2025-08-19 The fifteen chapters of *Engaging Coloniality* tell a complex and multifaceted story of Latin American Christianity Latin America was the first region of the colonized world to be Christianized As no form of Christianity preexisted the colonial invasion of Latin America no Latin American Christian story can be told without reference to colonialism Throughout its five hundred year history in Latin America Christianity has taken multiple forms This history is presented as in no other volume available in English Primarily non Eurocentric perspectives alternate between continuity and transformations Rather than emphasizing denominational branches this volume focuses on liberative decolonial and intercultural movements This book is cutting edge scholarship on Latin American religion and theology and the featured contributors represent the extent of a continent where almost six hundred million Christians live today Latin American Christian identity has never been homogeneous and the volume describes countless Christian spiritualities and practices resulting from continuous encounters tensions and negotiations over five centuries These encounters have not taken place in a historical vacuum but as part of a broader history in which visible and invisible power disparities still inform the limits challenges and promises of the Christian experiment in the region

Critical Appropriations Simone C. Drake, 2014-05-12 From the novels of Toni Morrison to the music of Beyonc Knowles the cultural prevalence of a transnational black identity as created by African American women is more than a product of geographic mobility Rather as author Simone C Drake shows these constructions illuminate our understanding of a chronically marginalized demographic In *Critical Appropriations* Drake contends that these fluid and heterogeneous characterizations of black females arise from multiple creative outlets literature film and music videos and reflect African American women's evolving concept of home community gender and family Through a close examination of Toni Morrison's *Paradise* Danzy Senna's *Caucasia* Gayl Jones's *Corregidora* Erna Brodber's *Louisiana* and Kasi Lemmons's film *Eve's Bayou* as well as Beyonc Knowles's *B Day* album and music video collaboration with Shakira *Beautiful Liar* Drake reveals how concepts of hybridity whether positioned as *cr olit Candombl n* *gritudo* *Latinidad* or

Brasilidade are appropriated in each work of art as a way of challenging the homogeneous paradigm of black cultural studies. This redefined notion of identity enables African American women to embrace a more complex transnational blackness that is not only more liberating but also more pertinent to their experiences. Drawing from this borderless exchange of ideas and a richer concept of self, Critical Appropriations offers a rewarding reconsideration of the creative implications for African American women mapping new directions in black women's studies. *Bastide on Religion* Michel Despland, 2014-12-18

Roger Bastide developed the theory of acculturation which provides a framework for understanding contact between different cultures and beliefs. Bastide on Religion offers a clear introduction to the life and work of this influential scholar. The volume focuses on Bastide's study of Afro-Brazilian religions, in particular his study of Candomblé, a religion born from the contact between African and Brazilian cultures. The book outlines Bastide's work on acculturation, his concept of the relationship between religion and culture, and his challenge to many dominant approaches to economic development.

Introducing Womanist Theology Stephanie Y. Mitchem, 2014-07-30 **Defending Rumba in Havana** Maya J. Berry, 2024-11-29

In *Defending Rumba in Havana*, anthropologist and dancer Maya J. Berry examines rumba as a way of knowing the embodied and spiritual dimensions of Black political imagination in post-Fidel Cuba. Historically a Black working-class popular dance, rumba, Berry contends, is a method of Black Cuban struggle that provides the community accountability, sustenance, and dignity that neither the state nor the expanding private market can. Berry's feminist theorization builds on the notion of the undercommons to show how rumba creates a space in which its practitioners enact deeply felt and dedicatedly defended choreographies of reciprocity, refusal, sovereignty, devotion, and pleasure, both on stage and in their daily lives. Berry demonstrates that this Black corporeal undercommons emphasizes mutual aid and refuses neoliberal development logics favoring instead a collective self-determination rooted in African diasporic spiritual practices through which material compensation and gendered power dynamics are negotiated. By centering rumba to analyze how poor Black Cubans navigate gendered and racialized life, Berry helps readers better understand the constraints and yearnings that move diasporic Black struggles to seek refuge beyond the bounds of the nation-state.
