Transitions and Transformations in the History of Religions Joseph Mitsuo Kitagawa, Frank E. Reynolds, Theodore M. Ludwig, 1980-01-01

Religion after Religion Steven M.

Wasserstrom,1999-11-15 By the end of World War II religion appeared to be on the decline throughout the United States and Europe Recent world events had cast doubt on the relevance of religious belief and modernizing trends made religious rituals look out of place It was in this atmosphere that the careers of Scholem Eliade and Corbin the twentieth century s legendary scholars in the respective fields of Judaism History of Religions and Islam converged and ultimately revolutionized how people thought about religion Between 1949 and 1978 all three lectured to Carl Jung s famous Eranos circle in Ascona Switzerland where each in his own way came to identify the symbolism of mystical experience as a central element of his monotheistic tradition In this the first book ever to compare the paths taken by these thinkers Steven Wasserstrom explores how they overturned traditional approaches to studying religion by de emphasizing law ritual and social history and by extolling the role of myth and mysticism The most controversial aspect of their theory of religion Wasserstrom argues is that it minimized the binding character of moral law associated with monotheism The author focuses on the lectures delivered by Scholem Eliade and Corbin to the Eranos participants but also shows how these scholars generated broader interest in their ideas through radio talks poetry novels short stories autobiographies and interviews He analyzes their conception of religion from a broadly integrated comparative perspective sets their distinctive thinking into historical and intellectual context and interprets the striking success of their approaches Corpus Hermeticum XIII and Early Christian Literature William C. Grese,2023-08-21 Religion & Contemporary Art Anthony Padgett,2010-02 These essays explore the relationship between art and religion The first part 2001 2002 is essays about The Ism where 1994 9 Padgett united religious and spiritual perspectives by uniting the art forms appropriate to them The second part is essays from 2002 2005 when Padgett studied at Wimbledon School of Art London for an MA in Theory of Contemporary Art and Performance Padgett looks at artists Damien Hirst Thomas Hirschhorn Anton Artaud Jake and Dinos Chapman Brothers Guillermo Gomez Pena etc and develops the idea of Postmodern Religious Art His program of uniting the art forms is progressed by uniting the specific material forms of religions in semi irony with the profane whilst keeping the sacred as of highest importance The final part is the questionnaire that Padgett submitted to the Employment Tribunals giving the main arguments behind his claim that the Tate Galleries were exercising religious discrimination in the way they selected artworks *The History of Religions* Edward Washburn Hopkins,1918 **The Complete Idiot's Guide to Past Life Regression** Michael Hathaway,2003-09-02 A guide to the mysteries of your past In this fascinating book a board certified past life regression therapist goes beyond reincarnation and karma to reveal everything people want to know about the ins and outs of this phenomena This book covers Whether past life regression is for real What to expect from hypnosis Whether children are closer to their past lives than adults How knowledge of past lives can help resolve issues and improve the present **Forgiveness Confronts Race, Relationships, and the Social** Court D. Lewis,2022-07-05 Forgiveness Confronts Race Relationships and the Social Volume V of Vernon Press s The Philosophy of Forgiveness series is an exercise in listening Listening to others and not just waiting for them to

stop speaking requires a willingness to recognize the worth of the other and to believe that what they say is worthy of consideration. Much like reading a book, one must strive to quiet the constant voice in one's head in order to hear and process the information communicated. Listening is not always easy and it takes considerable practice, but it is one of the most effective means for developing understanding and growing as an intellectual and moral person. Literature dealing with forgiveness lacks many important voices, including those from First Peoples, African American, LatinX, and LGBTQ, and many others. The authors of *Forgiveness Confronts Race Relationships* and *The Social* begin the task of closing these gaps, discussing topics from folk and other social and political issues to racism, systems of oppression, and religion. The authors were asked to explore forgiveness from their own understandings of underrepresented aspects of forgiveness, and readers will hopefully be enlightened and inspired to make their own diverse voices of forgiveness heard, creating a true dialogue of diversity and wisdom.
