Religion Commerce And The Integration Of The Mandingo In Liberia:

Religion, Commerce, and the Integration of the Mandingo in Liberia Augustine Konneh, 1996-07-11 This book contributes significantly to the body of knowledge that deals with the Mande speaking people of West Africa. It deals with the impact of religion and commerce on the integration of the Mandingo ethnic group into the political and social economies of Liberia. The author explains both the course and costs of socio political integration of the Mandingos in the context of nation building and their co habitation with non Muslim hosts. The religion of Islam in relation to the commercial activities of the Mande speaking people is discussed in detail. While a great deal of research has been done on the Mandingo in other areas of Africa, no comparable body of research exists on the Mandingo of Liberia.

Culture and Customs of Liberia Ayodeji Olukoju, 2006-03-30 Liberia has a strong connection to the United States in that it was founded by former slaves in 1822. Although Liberia had existed as an independent African nation and a symbol of hope to the African peoples under the rule of various colonial powers, its recent history has been bedeviled by a prolonged upheaval following a military coup d'etat in 1980. In this context, the narrative highlights the distinctiveness of Liberians in their negotiation of traditional indigenous and modern practices and the changes wrought by Christianity and Western influences.

Civil War and Democracy in West Africa David Harris, 2011-12-13 In the aftermath of explosive civil wars in Africa during the 1990s and 2000s, the establishment of multi party elections has often been heralded by the West as signaling the culmination of the conflict and the beginning of a period of democratic rule. However, the outcomes of these elections are very rarely uniform, with just as many countries returning to conflict as not. Here, David Harris uses the examples of Sierra Leone and Liberia to examine the nexus of international and domestic politics in these post conflict elections. In doing so, he comes to the conclusion that it is political rather than legal solutions that are more likely to enhance any positive political change that has emerged from the violence. This book is thus of significance to Western and African policy makers and also to students and scholars who wish to engage with the critical issues of conflict resolution and reconciliation both in Sierra Leone and Liberia in particular and in the wider region in general.

Militancy and Violence in West Africa James Gow, Funmi Olonisakin, Ernst Dijkhoorn, 2013-07-18 This volume provides a systematic and cross regional analysis of radicalisation, militancy and violence in West Africa. Concern about terrorism in or from West Africa has been recognised in academic research and the adoption of militarised approaches to addressing it questioned. However, the basis for that questioning, the need to investigate factors such as the historical and socio economic roots of militancy, is not developed nor is it substantiated in existing studies. The significant impact of religiously motivated radicalisation and violence in West Africa upon international security makes it essential to understand the issues of militancy and violence in the region. In this volume, the authors draw upon empirical research in West Africa to develop understanding in these areas. Over the course of several chapters, written by leading experts in the field, the book successfully blends historical and conceptual analysis with new empirical research gathered

from focus group discussions and research interviews Each of these core studies is structured around five interrelated issues tracing the antecedents of radicalisation monitoring trends identifying actors anticipating possibilities and analysing the strength of existing preventive mechanisms This book will be of much interest to students of African security African politics radicalisation political Islam war and conflict studies and security studies in general **The Upper Guinea Coast in Global Perspective** Jacqueline Knörr, Christoph Kohl, 2016-02-01 For centuries Africa's Upper Guinea Coast region has been the site of regional and global interactions with societies from different parts of the African continent and beyond engaging in economic trade cultural exchange and various forms of conflict This book provides a wide ranging look at how such encounters have continued into the present day identifying the disruptions and continuities in religion language economics and various other social phenomena These accounts show a region that while still grappling with the legacies of colonialism and the slave trade is both shaped by and an important actor within ever denser global networks exhibiting consistent transformation and creative adaptation *Political Invisibility and Mobilization* Selina Gallo-Cruz, 2020-12-30 *Political Invisibility and Mobilization* explores the unseen opportunities available to those considered irrelevant and disregarded during periods of violent repression In a comparative study of three women's peace movements in Argentina the former Yugoslavia and Liberia the concept of political invisibility is developed to identify the unexpected beneficial effects of marginalization in the face of regime violence and civil war Each chapter details the unique ways these movements avoided being targeted as threats to regime power and how they utilized free spaces to mobilize for peace Their organizing efforts among international networks are described as a form of field shifting that gained them the authority to expand their work at home to bring an end to war and rebuild society The robust conceptual framework developed herein offers new ways to analyze the variations and nuances of how social status interacts with opportunities for effective activism This book presents a sophisticated theory of political invisibility with historical detail from three remarkable stories of courage in the face of atrocity With relevance for political sociology social movement studies women's studies and peace and conflict studies it contributes to scholarly understanding of mobilization in repressive states while also offering strategic insight to movement practitioners Winner of the ASA Peace War and Social Conflict Section's 2021 Outstanding Book Award *Engaging with a Legacy: Nehemia Levtzion (1935-2003)* E. Ann McDougall, 2014-06-11 *Engaging with a Legacy* shows how Nehemia Levtzion shaped our understanding of Islam in Africa and influenced successive scholarly generations in their approach to Islamization conversion and fundamentalism The book illuminates his work career and family life including his own life vision on the occasion of his 60th birthday It speaks to his relationship with researchers at home and abroad as mentor colleague and provocateur in one section several authors reflect on those dynamics in terms of personal and professional development Levtzion's contemporaries also speak of interactions with him and his life long companion wife Tirza in the 1950s and 1960s we see in these writings the birth of West African historical studies Levtzion's arrival as Israeli graduate student in Nkrumah

s Egyptian leaning Ghana and the debate over what African Studies should mean in an environment that included the personal intervention of W E B Du Bois are stories told for the first time Most poignant is the account of Levtzion s commitment to building African Studies complete with emphasis on Islam in the heart of the Jewish state at The Hebrew University His never ending defence of the program reflected his determination to be both engaged historian and engaged Israeli a legacy he chose for himself Finally an Epilogue to the original publication shows how one aspect this legacy Levtzion s growing preoccupation with the public sphere in Muslim societies has become even more relevant in post Arab Spring Africa and the Middle East This book was published as a special issue of the Canadian Journal of African Studies *Zones of Conflict in Africa* George Klay Kieh, Ida Rousseau Mukenge, 2002-03-30 Torn by ongoing civil and military violence Africa presents a challenge to scholars interested in the root causes of conflict Each conflict is unique but overall they exhibit common patterns The contributors of this book employ an eclectic array of current explanations of civil strife and how to resolve it The first half of the book provides the relevant theoretical background Theories of conflict and conflict resolution the larger context of African strife in Africa and patterns and trends of conflict are discussed Shifting from the general to the particular the remaining chapters of this volume gauge the accuracy and usefulness of the current thinking on conflicts by grounding it in case studies drawn from the Great Lakes Region Liberia Nigeria and Zambia The Politics of Conflict Economies Morten Bøås, 2014-08-21 Conflict economies cannot be approached in isolation but must instead be contextualised socially and historically These economies did not emerge in vacuum but are part and parcel of the history of people and place This book explores the informal and illicit extraction and trade of minerals and other types of natural resources that takes place in the borderlands during periods of conflict This type of extraction and marketing often referred to as conflict trade depends on a weak state and works alongside the structures of the state and its officials The book emphasises that conflicts do not start as competition over natural resources and in turn suggests that the integration of the extraction and marketing of natural resources only starts once fighting is well under way Boas argues that although economic agendas are an integral part of African conflicts the desire to accumulate is not the only motivation Thus in order to present a more comprehensive analysis of conflict we need to take into account political cultural and historical factors in addition to the economic dimensions of conflict This book will be of very strong interest to students and scholars of political economy conflict studies international relations and development *Customary Justice and the Rule of Law in War-torn Societies* Deborah Isser, 2011 The major peacekeeping and stability operations of the last ten years have mostly taken place in countries that have pervasive customary justice systems which pose significant challenges and opportunities for efforts to reestablish the rule of law These systems are the primary if not sole means of dispute resolution for the majority of the population but post conflict practitioners and policymakers often focus primarily on constructing formal justice institutions in the Western image as opposed to engaging existing traditional mechanisms This book offers insight into how the rule of law community might make

the leap beyond rhetorical recognition of customary justice toward a practical approach that incorporates the realities of its role in justice strategies Customary Justice and the Rule of Law in War Torn Societies presents seven in depth case studies that take a broad interdisciplinary approach to the study of the justice system Moving beyond the narrow lens of legal analysis the cases Mozambique Guatemala East Timor Afghanistan Liberia Iraq Sudan examine the larger historical political and social factors that shape the character and role of customary justice systems and their place in the overall justice sector Written by resident experts the case studies provide advice to rule of law practitioners on how to engage with customary law and suggest concrete ways policymakers can bridge the divide between formal and customary systems in both the short and long terms Instead of focusing exclusively on ideal legal forms of regulation and integration this study suggests a holistic and flexible palette of reform options that offers realistic improvements in light of social realities and capacity limitations The volume highlights how customary justice systems contribute to or detract from stability in the immediate post conflict period and offers an analytical framework for assessing customary justice systems that can be applied in any country
