Religion in Ohio Tarunjit Singh Butalia, Dianne P. Small, 2004 For Ohio's bicentennial in 2003 the Religious Experience Advisory Council of the Ohio Bicentennial Commission was established to commemorate and celebrate the state's diversity of religions and faith traditions. The end result of the council's efforts *Religion in Ohio* tells the story of Ohio's religious and spiritual heritage going back to the state's ancient and historic native populations and including the westward migration of settlers to this region, the development of a wide variety of faith traditions in the years preceding the mid twentieth century and the arrival of many newer immigrants in the last fifty years each group bringing with it cherished traditions.

Documenting the religious pluralism in Ohio and the impact faith communities have had on the state, this book includes chapters on the historical experiences and beliefs of over forty Christian groups as well as Native American, Jewish, Islamic, Hindu, Buddhist, Sikh, Bahá'í, Jain, and Zoroastrian faiths. Each chapter was written by a member of that faith or denomination. Operating under the auspices of the Interfaith Association of Central Ohio, the editors of *Religion in Ohio* have created a unique collection of

Faith-based Radicalism Christiane Timmerman, 2007 Terror attacks against Western symbols of power, suicide terrorism in Chechnya, or bombing of abortion clinics in the United States: these are a few of the violent religious outbursts that the media never seem to stop broadcasting. While these outbursts are mostly linked to Islamic extremism, it should however be acknowledged that every religion has its own violent side. Despite all the events, the media are too prompt to show us it would be dishonest and insensible not to accept that every religion has also a potential for religious peace building and communal renewal. How can it be explained then that religions sometimes react violently against the society surrounding them by trying to overthrow it, while at some other times they willingly help and try to build a better world for everyone?

The University Centre Saint Ignatius Antwerp organised an interdisciplinary summer seminar in September 2005 and gathered senior scholars, all experts in their own fields, and junior scholars who will be the experts of tomorrow from all over the world to discuss these burning issues. The seminar focused on miscellaneous topics all pointing towards the question of religion and society like literalism and the Holy texts, the ambivalence of faith based radicalism, the psychology of religion and terrorism, nationalism and religion, and religious social movements.

North American Churches and the Cold War Paul B. Mojzes, 2018-08-23 History textbooks typically list 1945-1990 as the Cold War years, but it is clear that tensions from that period are still influencing world politics today. While much attention is given to political and social responses to those first nuclear threats, none has been given to the reactions of Christian churches. *North American Churches and the Cold War* offers the first systematic reflection on the diverse responses of Canadian and American churches to
