Religion In Practice:

Lived Religion Meredith B McGuire, 2008-08-22 The divergence of religious practices from one individual to another has long baffled scholars of contemporary religion whose research often assumes that individuals commit or refuse to commit to an entire institutionally defined package of beliefs and practices Social surveys typically ask respondents to self identify by denominational or other broad religious categories Sociologists attempt to measure religiosity according to how well individuals conform to the official religious standards such as frequency of church attendance scripture reading or prayer In this book Meredith McGuire points the way forward to a new way of understanding and studying religious behavior Rather than try to fit people into prearranged packages she argues scholars must begin to study religion as it is actually lived and experienced in people s everyday lives

What Happens When We Practice Religion? Robert Wuthnow, 2020-05-19 An exploration of the interdisciplinary methods used to understand religious practice Religion is commonly viewed as something that people practice whether in the presence of others or alone But what do we mean exactly by practice What approaches help to answer this question What Happens When We Practice Religion delves into the central concepts arguments and tools used to understand religion today Throughout the past few decades the study of religion has shifted away from essentialist arguments that grandly purport to explain what religion is and why it exists Instead using methods from anthropology psychology religious studies and sociology scholars now focus on what people do and say their daily religious habits routines improvisations and adaptations Robert Wuthnow shows how four intersecting areas of inquiry situations intentions feelings and bodies shed important light on religious practice and he explores such topics as the role of religious experiences in sacred spaces gendered social relationships educational settings the arts meditation and ritual Suitable for undergraduate and graduate courses What Happens When We Practice Religion provides insights into the diverse ways that religion manifests in ordinary life Summarizes the latest theories and empirical methods of religious practice Shows how the study of religion has changed Includes chapters on theory situations intentions feelings and bodies Draws from anthropology psychology religious studies and sociology Accessible for undergraduate and graduate courses

Religious Reading Paul J. Griffiths, 1999 In examining and analyzing these practices Griffiths develops a picture of the intellectual and moral commitments involved in being a religious person Griffiths favorably contrasts the practices and pedagogies of traditional religious cultures with those of our own fragmented and secularized culture and insists that religious reading should be preserved He concludes with the controversial proposal that the modern university should make room for traditional scholastics

Recent studies show that atheism is increasing The reasons for this development have not as yet been examined thoroughly Many atheists continue to be residual groups in surveys on religiosity making it difficult to examine who they are and why they have chosen to be atheists Moreover they are minority groups in most countries former Soviet bloc countries are left out of discussion many do not identify with any organized groups of atheists or agnostics Atheist groups and ideologies then represent a wide range of attitudes behaviour and ways of acting towards religion The lack of a clear definition of what being atheist or an unbeliever means today invites us to study the issue in greater depth This volume represents a first attempt at understanding and scrutinizing atheism Thanks to all contributors it provides both a global perspective and specific insights into specific cases *Religion, Spirituality and Everyday Practice* Giuseppe Giordan, William H. Swatos, Jr., 2011-08-14

The current generation of young adults at least in the Western world has shown a marked tendency toward a preference for describing themselves as spiritual as contrasted to religious This book seeks to examine the possible meanings and consequences associated with this contrast in terms of the similarities and differences that affect those who use these terms with respect to the everyday practices that they themselves employ or believe should follow from being self defined as religious or spiritual or not The several chapters in this volume take up the religious spiritual contrast specifically through investigations into practice In what ways do people who claim to be religious or spiritual define these self images as manifest in their own lives How on a daily basis does a person who considers himself or herself religious or spiritual live out that self image in specific ways that she or he can describe to others even if not share with others Are there ways that being spiritual can involve religion or ways that being religious can involve spirituality and if so how do these differ from concepts in prior eras e g Ignatian spirituality Orthodox spirituality Anglican spirituality etc We also explore if there are institutions of spiritual practice to which those who term themselves spiritual turn or if the difference implied by these terms may instead be between institutionalized and de institutionalized expressions of practice including but not limited to self spiritualities

Studying Lived Religion Nancy Tatom Ammerman,2021-12-07 Offers an overarching definition and framework for the study of religion as it manifests itself in everyday life Look around you as you walk down the street somewhere usually hidden in plain sight there will be traces of religion Perhaps it is the person who walks past with a Christian tattoo or a Muslim hijab Perhaps it is the poster announcing a charity auction at the local synagogue Or perhaps you open your Instagram feed to see what inspiring images and meditations have been posted by spiritual guides to help start the day Studying Lived Religion examines religious practices wherever they happen both within religious spaces and in everyday life Although the study of lived religion has been around for over two decades there has not been an agreed upon definition of what it encompasses and we have lacked a sociological theory to frame the way it is studied This book offers a definition that expands lived religion s geographic scope and a framework of seven dimensions around which we can analyze lived religious practice Examples from multiple traditions and disciplines show the range of methods available for such studies offering practical tips for how to begin The volume opens up how we understand the category of lived religion erasing the artificial divide between what happens in congregations and other religious institutions and what happens in other settings Nancy Tatom Ammerman draws on examples ranging from Singapore to Accra to Chicago to show how deeply religion permeates everyday lives In revealing the often overlooked ways that religion shapes human experience she invites us all into new ways of seeing the world around us
