War, Peace & Prosperity in the Name of God Murat Iyigun, 2015-05-07 Differences among religious communities have motivated and continue to motivate many of the deadliest conflicts in human history But how did political power and organized religion become so thoroughly intertwined And how have religion and religiously motivated conflicts affected the evolution of societies throughout history from demographic and sociopolitical change to economic growth War Peace and Prosperity in the Name of God turns the focus on the big three monotheisms Judaism Islam and Christianity to

consider these questions Chronicling the relatively rapid spread of the Abrahamic religions among the Old World Murat Iyigun shows that societies that adhered to a monotheistic belief in that era lasted longer suggesting that monotheism brought some sociopolitical advantages While the inherent belief in one true god meant that these religious communities had sooner or later to contend with one another Iyigun shows that differences among them were typically strong enough to trump disagreements within The book concludes by documenting the long term repercussions of these dynamics for the organization of societies and their politics in Europe and the Middle East

contemporary debate surrounds the traditional teaching that God is unchanging It is frequently argued that an immutable God must be cold remote indifferent and uncaring that an unchanging God cannot be the triune God of love revealed in Scripture Those who reject divine immutability often single out Thomas Aquinas as its most prominent proponent

Unfortunately such critics of his theology frequently misunderstand the fundamentals of Aquinas's actual teaching. The Unchanging God of Love provides a clear and comprehensive account of what Aquinas really says about divine immutability presented in a way that allows his theology to address contemporary criticisms. The book first reviews the various ways Aquinas applies the notion of immutability to creatures showing that he is well aware of both the positive and negative implications of the concept. It then analyzes all of his arguments for divine immutability that are presented in his writings noting his care in determining which aspects of immutability are to be affirmed and which are to be denied of God. It also demonstrates the distinctiveness of Aquinas's teaching by examining the biblical, patristic and philosophical sources he employs. Aquinas's unchanging God proves to be no static deity but the dynamic trinitarian plenitude of knowledge, love and life to whom not only immutability but also motion may in some way be attributed. A study of the motion of the motionless God reveals how the concepts of both motion and immutability function in Aquinas's understanding of the Trinity, the Incarnation, Creation and Providence. Through this study it becomes clear that the unchanging God of Aquinas far from being indifferent or remote is truly the God of compassion and love revealed in Scripture who shares a most intimate friendship with the people he has created and redeemed.

ABOUT THE AUTHOR Michael J. Dodds O.P. is professor of philosophy and theology at the Dominican School of Philosophy and Theology in Berkeley, California. He is coauthor of *The Seeker's Guide to Seven Life Changing Virtues* and *Happily Ever After Begins Here and Now Living the Beatitudes Today*.

PRAISE FOR THE BOOK In *The Unchanging God of Love*, Dodds fearlessly asserts that an unchanging God can indeed be a God of love and that any contradiction of this is rooted in misrepresentation of Aquinas's authentic theology. Writing in a prose inviting and readable even for non-theologian types, Dodds offers an honest account of how this theology applies to both God and earthly creatures.

Africa Must Deal with Blats for Its True Decolonisation

Nkwazi Nkuzi Mhango, 2023-04-12 Africa has always blamed external colonisation for its Catch 22s such as violent ethnic conflicts for the struggle for resource control, perpetual exploitation, poverty and general underdevelopment all tacked to its past which is a fact, logical and the right to pour out vials of ire based perpetual victimhood it has clung to and maintained and lost a golden chance of addressing another type of colonialism specifically internal colonisation presided over by black traitors or black betrayers or blats or blabes. Basically internalised internal colonisation is but a mimesis of Africa's nemesis namely external colonisation as another major side of the jigsaw cum story all those supposed to either clinically address or take it on have by far never done so for their perpetual peril. In addressing internal colonisation this corpus explores and interrogates the narratives and nuances of the terms it uses. The untold story of Africa is about internal colonisation that has alluded to many for many years up until now simply because it made Africans wrongly believe that it is only external colonisation their big and only enemy.
