Religious Function Of The Psyche

Lionel Corbett

Religious Function Of The Psyche:

The Religious Function of the Psyche Lionel Corbett,1996 The book offers an alternative approach to spirituality that can be applied in psychotherapeutic and everyday life It also serves as an introduction to Jung and religion **The Feminine in Jungian Psychology and in Christian Theology** Ann Belford Ulanov,1971 The Feminine in Jungian Psychology and in Christian Theology investigates the implications for Christian theology of Jung s special insights into the feminine In it Ann Belford Ulanov gathers together in one volume what Jung and Jungians have discovered about the feminine in order to explore what Jungian thought and methods may illuminate about the place of the feminine in Christian theology Jung focuses on the human person and sees as central its mixture of masculine and feminine elements In a time when so much is asserted and written about women in society their rights roles identities needs and contributions it is especially significant that Jung asserts the existence of the feminine as a key element not only in women but in men as well No less contested are the roles and identities of Christians Ulanov brings into focus the deep and fascinating connections between theology and psychology

Ego and Archetype Edward F. Edinger,2017-02-28 A medical psychiatrist and founding member of the Jung Foundation explores a pivotal part of analytical psychology encountering the self through individuation This book is about the individual s journey to psychological wholeness known in analytical psychology as the process of individuation Edward Edinger traces the stages in this process and relates them to the search for meaning through encounters with symbolism in religion myth dreams and art For contemporary men and women Edinger believes the encounter with the self is equivalent to the discovery of God The result of the dialogue between the ego and the archetypal image of God is an experience that dramatically changes the individual s worldview and makes possible a new and more meaningful way of life *The Religious Function of the Psyche and Its Implications for Counseling from a Christian Perspective* N. Douglas Wiegand,1982 *The Handbook of Jungian Psychology* Renos K. Papadopoulos,2012-10-12 The field of Jungian psychology has been growing steadily over the last twenty years and awareness is increasing of its relevance to the predicaments of modern life Jung appeals not only to professionals who are looking for a more humane and creative way of working with their clients but also to academics in an increasingly wide range of disciplines This Handbook is unique in presenting a clear comprehensive and systematic exposition of the central tenets of Jung s work which has something to offer to both specialists and those seeking an introduction to the subject Internationally recognised experts in Jungian Psychology cover the central themes in three sections Theory Psychotherapy Applications Each chapter begins with an introduction locating the topic in the context of Jung s work as a whole before moving on to an investigation of contemporary developments and concluding by demonstrating how Jung s theories continue to evolve and develop through their practical therapeutic applications The Handbook of Jungian Psychology is the definitive source of authoritative information on Jungian psychology for Jungian analysts psychotherapists counsellors and related professionals It will be an invaluable aid to those involved in Jungian academic studies and related

disciplines **Marian Apparitions in Cultural Contexts** Valeria Céspedes Musso, 2018-10-03 *Marian Apparitions in Cultural Contexts* provides an analysis of collective phenomena specifically mass visions of the Virgin Mary from a psychoanalytical perspective. It draws from Jung's compensation theoretical model with the aim of merging depth psychology and historical material from the Zeitoun case. Offering an original interpretation of this phenomenon from a Jungian psychological perspective, the book provides stimulating insights to any person interested in these supernatural events, whether general readers with active curiosity or scholars with broad intellectual interests. A review of the literature points to a prevailing socio-political approach to examining visions of the Virgin Mary while a psychoanalytical approach is generally lacking. Musso draws from Jung's compensation theoretical model in *Flying Saucers* with the aim of merging depth psychology and historical material. Common themes and symbols are extracted and interpreted from the empirical material and analyzed along with Egyptian social and political data. The book concludes with a discussion on how depth psychological principles grounded in empirical and historical material could be applied in order to explicate cases of mass visions. An original interdisciplinary exploration of cultural phenomena. *Marian Apparitions in Cultural Contexts* will be of value to academics and students in the fields of psychoanalysis, analytical psychology, political science, and religious studies. This book will also be of interest among Jungian scholars and practitioners in applications of depth psychology to cultural phenomena.

Dreaming about the Divine Bonnelle Lewis Strickling, 2012-02-01 In *Dreaming about the Divine* Bonnelle Lewis Strickling argues that people dream about the divine in forms that fit their current emotional and spiritual condition. Using Jungian psychology and the philosophy of Karl Jaspers, Strickling contends that dreams about the divine occur in the context of existential issues, psychic and emotional crises which open us to the experience of the divine. She concludes that working with dreams of the divine can be spiritually, psychically, and emotionally helpful both to people who are engaged in a spiritual search and also to people who are already committed to a spiritual tradition. *Psyche and the Sacred* Lionel

Corbett, 2006-09-30 This book describes an approach to spirituality that is based on personal experience of the sacred rather than upon any pre-existing religious doctrine or dogma. Using the language and insights of depth psychology, it describes the intimate relationship between sacred experience and the psychology of the individual, revealing the seamless continuity of personal and transpersonal levels of the psyche. This work contributes to the emergence of the new myth that is arising alongside the Judeo-Christian tradition. **Ego & Archetype** Edward F. Edinger, 1992 *The Mystical Exodus in Jungian Perspective* Shoshana Fershtman, 2021-04-07

The Mystical Exodus in Jungian Perspective explores the soul loss that results from personal, collective, and transgenerational trauma and the healing that unfolds through reconnection with the sacred. Personal narratives of disconnection from and reconnection to Jewish collective memory are illuminated by millennia of Jewish mystical wisdom, contemporary Jewish Renewal, and feminist theology and Jungian and trauma theory. The archetypal resonance of the Exodus story guides our exploration. Understanding exile as disconnection from the Divine Self, we follow

Moses keeper of the spiritual fire and Serach bat Asher preserver of ancestral memory We encounter the depths with Joseph touch collective grief with Lilith experience the Red Sea crossing and Miriam s well as psychological rebirth and Sinai as the repatterning of traumatized consciousness Tracing the reawakening of the qualities of eros and relatedness on the journey out of exile the book demonstrates how restoring and deepening relationship with the Sacred Feminine helps us to transform collective trauma This text will be key reading for scholars of Jewish studies Jungian and post Jungian studies feminist spirituality trauma studies Jungian analysts and psychotherapists and those interested in healing from personal and collective trauma Cover art Radiance by Elaine Greenwood

Religious Hatred and Human Conflict Andrew Floyer
Acland,2023-09-12 Religious Hatred and Human Conflict focuses the lens of psychodynamic psychology on a phenomenon that often confounds conventional thinking the intensity of conflict with religious or quasi religious dimensions The book highlights six dimensions of religion identity doctrine and practice emotion and experience mythology sacred values and power and control exploring how these can give rise to religious hatred and lead to marginalisation persecution and even genocide It also explores reasons for the evolution of religion and religious hatred and their relationship with human behaviour through contemporary issues such as fundamentalism martyrdom clerical narcissism and apocalyptic belief Acland examines how religious hatred and conflict may be transcended by facilitating processes of dialogue and diapraxis which enable a systematic understanding of prejudices and projections Last it offers practical methods and strategies for helping individuals and communities grow beyond the constraints of religious hatred treating religious hatred as a psycho spiritual problem that requires self understanding Identifying the implications for professionals in conflict resolution and mediation politicians community leaders diplomats and anyone working to prevent or reduce conflict where religious belief is a factor this book sets out how those tasked with intervening can respond to the challenges involved It will also be highly relevant reading for students and researchers of psychology and religious studies

Consciousness in Jung and Patañjali Leanne Whitney,2017-08-03 The East West dialogue increasingly seeks to compare and clarify contrasting views on the nature of consciousness For the Eastern liberatory models where a nondual view of consciousness is primary the challenge lies in articulating how consciousness and the manifold contents of consciousness are singular Western empirical science on the other hand must provide a convincing account of how consciousness arises from matter By placing the theories of Jung and Patajali in dialogue with one another Consciousness in Jung and Patajali illuminates significant differences between dual and nondual psychological theory and teases apart the essential discernments that theoreticians must make between epistemic states and ontic beliefs Patajali s Classical Yoga one of the six orthodox Hindu philosophies is a classic of Eastern and world thought Patajali teaches that notions of a separate egoic I are little more than forms of mistaken identity that we experience in our attempts to take ownership of consciousness Carl Jung s depth psychology which remains deeply influential to psychologists religious scholars and artists alike argues that ego consciousness developed out of the unconscious over the

course of evolution By exploring the work of key theoreticians from both schools of thought particularly those whose ideas are derived from an integration of theory and practice Whitney explores the extent to which the seemingly irremediable split between Jung and Patajali's ontological beliefs can in fact be reconciled This thorough and insightful work will be essential reading for academics theoreticians and postgraduate students in the fields of psychology philosophy of science and consciousness studies It will also appeal to those interested in the East West psychological and philosophical dialogue

Subjectivity, the Unconscious and Consumerism Marlon Xavier, 2018-09-17 Subjectivity the Unconscious and Consumerism is a unique and imaginative psycho sociological exploration of how postmodern contemporary consumerism invades and colonises human subjectivity Investigating especially consumerism's unconscious aspects such as desires imagination and fantasy it engages with an extensive analysis of dreams The author frames these using a synthesis of Jungian psychology and the social imaginaries of Baudrillard and Bauman in a dialogue with the theories of McDonaldization and Disneyization The aim is to broaden our understanding of consumerism to include the perennial consumption of symbols and signs of identity a process which is the basis for the fabrication of the commodified self The book offers a profound innovative critique of our consumption societies challenging readers to rethink how we live and how our identities are impacted by consumerism As such it will be of interest to students and scholars of critical psychology psychoanalysis sociology anthropology and cultural studies but is also accessible to anyone interested in the complex psychology of contemporary subjectivity

When Sickness Heals Siroj Sorajjakool, 2006-04 In *When Sickness Heals* Dr Siroj Sorajjakool draws on more than ten years of studies on health benefits in relation to spirituality especially focusing on the function of meaning He expounds on his theory that healing is primarily the function of meaning and meaning transcends sickness and even death itself He concludes that what people ultimately seek in life is the healing of their souls Sorajjakool brings many Eastern and Western resources to his conversation on health meaning and healing He incorporates the perspectives of theologians and philosophers like Paul Tillich Carl Jung Søren Kierkegaard Raimundo Panikkar Dietrich Bonhoeffer and John Macquarrie as well as references to religious texts including yin and yang and alchemy A clear distinct understanding of spirituality in clinical contexts is presented with an argument for the role of meaning in the healing process based on evidence that there may be healing even in the face of death Sorajjakool identifies the transitional processes people may go through as they seek to make sense of their experiences during a health crisis He suggests an alternative approach to spiritual assessment and provides methods of spiritual care that speak to the soul

The Sacred Cauldron Lionel Corbett, 2011 At a time when psychotherapy seems to be a purely secular pursuit with no connection to the sacred *The Sacred Cauldron* makes the startling claim that for both participants psychotherapeutic work is actually a spiritual discipline in its own right The psyche manifests the sacred and provides the transpersonal field within which the work of therapy is carried out This book demonstrates some of the ways in which a spiritual sensibility can inform the technical aspects of psychotherapy The Sacred

Cauldron is truly a book to be read by both therapists and non therapists for it offers a thoughtful intelligent sensitive passage through the spiritual quarrels and complexities of our time and addresses our common summons which is to treat the life of the spirit with the respect the gravity and the centrality it deserves This book is instructive to all for Corbett not only marshals a wealth of scholarship and clinical experience but also expresses challenging insights through a calm reasonable and commonsense appeal After this book the reader will be more thoughtful more considered more sophisticated more appreciative of the importance of therapy as a vehicle for healing and for engaging the numinous James Hollis Ph D Jungian analyst and author of What Matters Most Living a More Considered Life Dr Lionel Corbett trained in medicine and psychiatry in England and as a Jungian analyst at the C G Jung Institute of Chicago He is currently on the core faculty of Pacifica Graduate Institute in Santa Barbara California and the author of The Religious Function of the Psyche and Psyche and the Sacred as well as various professional articles His main interest is in the religious function of the psyche and the ways in which this function expresses itself through the structures of personality

A Jungian and Psychoanalytic Approach to Biblical Myth and Religion Lionel Corbett, 2024-12-23 This book describes some of the major psychological processes that underpin various biblical stories and some of the theological speculation to which they have given rise Psychological biblical criticism as described here is suggested as an alternative or supplement to historical cultural textual philological literary and other types of biblical criticism Using a combination of Jungian and psychoanalytic theory Corbett shows how some biblical material arises from human psychodynamics while some originates in the archetypal level of the psyche and is further elaborated as it passes through the human level of the psyche The author addresses some of the traditional anxieties about psychological approaches to biblical stories He views Jung's approach as an evolving mythology of the sacred that offers an alternative to purely theological approaches to the Bible and to the traditions that emerged from it This book will be of value to practicing psychotherapists and analysts particularly those who treat patients with a religious background as well as trainees clergy and graduate students in this area

Spiritual and Religious Competencies in Clinical Practice Cassandra Vieten, Shelley Scammell, 2015-09-01 Religion lies at the heart of many clients core values and helps shape their perception of themselves and the world around them In *Spiritual and Religious Competencies in Clinical Practice* two clinical psychologists provide a much needed research based road map to help professionals appropriately address their clients spiritual or religious beliefs in treatment sessions This book is a must read for any mental health professional

Jungian Counseling and Play Therapy Rachel McRoberts, 2024-09-12 Jungian Counseling and Play Therapy is both an introduction to Jung's theory and a practical guide to Jungian informed practice Readers journey through the development of the mental health crisis of the digital age which Jung foresaw and are presented with solutions he suggested that are still being met with resistance despite compelling facts This book not only advocates for a more widespread integration of Jungian ideas into clinical practice but also for greater acknowledgement of the integrity creativity and intersecting identities of

clients professional counselors and play therapists Integrating historical theory with contemporary research this book helps students to weave creative techniques into their online and in person clinical work This is an ideal text for a psychodynamic theory or methods class or to support counseling students and supervisors becoming interested in or familiar with the work of Carl Jung **Psyche's Knife** Elizabeth Éowyn Nelson, **C.G. Jung's Collected Works** Ann Yeoman, Kevin

Lu,2024-03-19 This new introduction to Jung s Collected Works written in lively and accessible style provides a comprehensive guide to key concepts in analytical Jungian psychology while charting the creative evolution of Jung s thought through his own words Invaluable to both beginners and those more experienced with Jungian theory this book provides tables listing key readings for further study of the Collected Works clear explication of fundamental principles chapter summaries prompts for deepening a critical engagement with Jung s texts a glossary of key terms and suggestions for further reading This text will be an invaluable introduction for those coming to the Collected Works for the first time as well as a useful reference for readers familiar with the collection

Eventually, you will enormously discover a other experience and ability by spending more cash. yet when? do you agree to that you require to acquire those all needs like having significantly cash? Why dont you attempt to acquire something basic in the beginning?
