## **Religious Fundamentalism And American Education The Battle For The Public:**

Religious Fundamentalism and American Education Eugene F. Provenzo, 1990-04-05 For the past twenty five years ultra fundamentalist Christians have put increasing pressure on American public education to conform exclusively with their own philosophy and vision of education and culture Eugene Provenzo considers and addresses the impact that the fundamentalist movement has had on such issues as censorship textbook content Creationism versus Evolution the family and education school prayer and the state regulation of Christian schools In exploring both sides of the debate however the author concludes that many fundamentalists concerns are justified due to a basic inconsistency between the rights guaranteed under the First Amendment and the position that many public schools have legally assumed *Religious Fundamentalism and American Education* Eugene F. Provenzo, 1990-01-01 For the past twenty five years ultra fundamentalist Christians have put increasing pressure on American public education to conform exclusively with their own philosophy and vision of education and culture Eugene Provenzo considers and addresses the impact that the fundamentalist movement has had on such issues as censorship textbook content Creationism versus Evolution the family and education school prayer and the state regulation of Christian schools In exploring both sides of the debate however the author concludes that many fundamentalists concerns are justified due to a basic inconsistency between the rights guaranteed under the First Amendment and the position that many public schools have legally assumed

**Religion in Multicultural Education** Farideh Salili, Rumjahn Hoosain, 2006-05-01 The National Association for Multicultural Education in Washington D C listed a number of issues that the school curriculum should address with reference to multicultural education including racism sexism classism linguisticism ablism ageism heterosexism and religious intolerance It is noteworthy that of all these issues religion is about the only one that throughout history people are willing to die for although whether what is at issue is really religion or other things such as territory is another matter It is also interesting that all the others have isms in their names but religious issues are characterized by intolerance Perhaps we should try to understand this intolerance and look at what steps might help to alleviate it However while intolerance might seem a simple thing understanding what is behind it and how it plays such a crucial role in religion requires what we refer to in the Introduction chapter as a multifaceted approach at multiple levels It is not enough just to try to dispel stereotypes of followers of other religions or to point out commonalities in world religions We should for example try to understand and appreciate how adherents of other religions try to answer questions regarding their adaptation to the contemporary environment It is through understanding how different religions coexist side by side at various levels that we truly come to learn about religion in multicultural education

**Media and Science-Religion Conflict** Thomas Aechtner, 2020-01-22 This book examines why the religion science skirmishes known as the Evolution Wars have persisted into the 21st century It does so by considering the influences of mass media in relation to decision making research and the Elaboration Likelihood Model one of the most authoritative persuasion theories The book s

analysis concentrates on the expression of cues or cognitive mental shortcuts in Darwin sceptic and counter creationist broadcasts A multiyear collection of media generated by the most prominent Darwin sceptic organizations is surveyed along with rival publications from supporters of evolutionary theory described as the pro evolutionists The analysed materials include works produced by Young Earth Creationist and Intelligent Design media makers New Atheist pacesetters as well as both agnostic and religious supporters of evolution These cues are shown to function as subtle but effective means of shaping public opinion including appeals to expertise claims that ideas are being censored and the tactical use of statistics and technical jargon Contending that persuasive mass media is a decisive component of science religion controversies this book will be of keen interest to scholars of Religion Science and Religion interactions as well as researchers of Media and Communication Studies more generally

*Religious Education in a Pluralist Society* John Edwards, Peter R. Hobson, 2019-07-12 Religious education in liberal pluralist societies such as the UK the USA and Australian underwent radical change in the 1980s and 1990s with a major shift towards multi faith educationally oriented programmes This has meant significant modifications to both the content and the methodology of religious education courses and to the way they are conceived of and taught in schools and universities One important implication of this change for the teaching and study of religion today is the need for a philosophical dimension that deals with issues such as the truth status of religious statements and the moral acceptability of religious claims This dimension is often insufficiently developed this lack is made more critical by the multiple competing truth claims of various religions giving rise to such contentious problems as the growth of fundamentalism increasing religious intolerance and conflict and differences of opinion on central moral problems such as birth control abortion and euthanasia This text attempts to provide the philosophical underpinning that the study and teaching of religion in modern societies requires

**The Fight for Local Control** Campbell F. Scribner, 2016-05-12 Throughout the twentieth century local control of school districts was one of the most contentious issues in American politics As state and federal regulation attempted to standardize public schools conservatives defended local prerogative as a bulwark of democratic values Yet their commitment to those values was shifting and selective In The Fight for Local Control Campbell F Scribner demonstrates how in the decades after World War II suburban communities appropriated legacies of rural education to assert their political autonomy and in the process radically changed educational law Scribner's account unfolds on the metropolitan fringe where rapid suburbanization overlapped with the consolidation of thousands of small rural schools Rural residents initially clashed with their new neighbors but by the 1960s the groups had rallied to resist government oversight What began as residual opposition to school consolidation would transform into campaigns against race based busing unionized teachers tax equalization and secular curriculum In case after case suburban conservatives carved out new rights for local autonomy stifling equal educational opportunity Yet Scribner also provides insight into why many conservatives have since abandoned localism for policies that stress school choice and federal accountability In the 1970s as new battles arose over unions textbooks and taxes districts on the rural suburban fringe became the first to assert individual choice in the form of school vouchers religious exemptions and a marketplace model of education At the same time they began to embrace tax limitation and standardized testing policies that checked educational bureaucracy but bypassed local school boards The effect Scribner concludes has been to reinforce inequalities between districts while weakening participatory government within them keeping the worst aspects of local control in place while forfeiting its virtues
