Religious Observances In Tibet Patterns And Function:

Religious Observances in Tibet Robert Brainerd Ekvall, 1987 **Tibet, Past and Present: Religion and secular culture in Tibet** International Association for Tibetan Studies. Seminar, John Ardussi, 2002-01-01 The proceedings of the seminars of the International Association for Tibetan Studies IATS have developed into the most representative world wide cross section of Tibetan Studies They are an indispensable reference work for anyone interested in Tibet and capture the cutting edge of Tibet related research This volume is the second of three volumes of general proceedings of the Ninth Seminar of the IATS It presents a careful selection of scholarly and academic articles on Tibetan Buddhist and Bon religious culture including a sizeable section of anthropological contributions The complete series covers ten volumes The other seven volumes are the outcome of expert panels Of special interest to readers of this book are the edited volumes by Katia Buffetrille Hildegard Diemberger anthropology territory and identity Helmut Eimer David Germano Buddhist canon Toni Huber anthropology Amdo cultural revival Christiaan Klieger anthropology presentation of self identity and Deborah Klimburg Salter and Eva Allinger art history Identity, Ritual and State in Tibetan Buddhism Martin A. Mills, 2013-11-05 This is a major anthropological study of contemporary Tibetan Buddhist monasticism and tantric ritual in the Ladakh region of North West India and of the role of tantric ritual in the formation and maintenance of traditional forms of state structure and political consciousness in Tibet Containing detailed descriptions and analyses of monastic ritual the work builds up a picture of Tibetan tantric traditions as they interact with more localised understandings of bodily identity and territorial cosmology to produce a substantial re interpretation of the place of monks as ritual performers and peripheral householders in Ladakh The work also examines the central and indispensable role of incarnate lamas such as the Dalai Lama in the religious life of Tibetan Buddhists Food issues □□ Miriam Castorina, Diego Cucinelli, 2022-04-28 Food issues Interdisciplinary Studies on Food in Modern and Contemporary East Asia concentrates on the relationship among food culture literature and language in a comparative transcultural or literary perspective The contributions investigate these aspects from different approaches historical sociological anthropological religious linguistic and want to deepen issues such as the symbolic value of food food as an essential element for the construction of individual identity and a sign of belonging to a community food as an intercultural medium food as language and the language of food The articles included in the volume are organized in a Japanese and a Chinese section and use different approaches within humanities disciplines to explore topics ranging from classical and contemporary East Asian literature to present day issues focusing on Food Culture and its declinations Prisoners of Shangri-La Donald S. Lopez Jr., 2012-12-31 Prisoners of Shangri La is a provocative analysis of the romance of Tibet a romance that even as it is invoked by Tibetan lamas living in exile ultimately imprisons those who seek the goal of Tibetan independence from Chinese occupation Lopez lifts the veil on America's romantic vision of Tibet to reveal a country and a spiritual history more complex and less ideal than popular perceptions allow Lively and engaging

Lopez's book raises important questions about how Eastern religions are often co-opted, assimilated and misunderstood by Western culture. Publishers Weekly Proceeding with care and precision Lopez reveals the extent to which scholars have behaved like intellectual colonialists. Someone had to burst the bubble of pop Tibetology and few could have done it as resoundingly as Lopez. Booklist Fascinating A provocative exploration Lopez conveys the full dizziness of the Western encounter with Tibet and Tibetan Buddhism. Fred Pheil Tricycle The Buddhist Review A timely and courageous exploration Lopez's book will sharpen the terms of the debate over what the Tibetans and their observers can or should be doing about the place and the idea of Tibet. And that alone is what will give us all back our Shambhala. Jonathan Spence Lingua Franca Book Review Lopez's most important theme is that we should be wary of the idea that Tibet has what the West lacks; that if we were only to look there we would find the answers to our problems. Lopez's book shows that on the contrary when the West has looked at Tibet all that it has seen is a distorted reflection of itself. Ben Jackson Times Higher Education Supplement

The Politics of Language Oppression in Tibet Gerald Roche, 2024-11-15 In The Politics of Language Oppression in Tibet Gerald Roche sheds light on a global crisis of linguistic diversity that will see at least half of the world's languages disappear this century. Roche explores the erosion of linguistic diversity through a study of a community on the northeastern Tibetan Plateau in the People's Republic of China. Manegacha is but one of the sixty minority languages in Tibet and is spoken by about 8,000 people who are otherwise mostly indistinguishable from the Tibetan communities surrounding them. Recently many in these communities have switched to speaking Tibetan and Manegacha faces an uncertain future. The author uses the Manegacha case to show how linguistic diversity across Tibet is collapsing under assimilatory state policies. He looks at how global advocacy networks inadequately acknowledge this issue, highlighting the complex politics of language in an interconnected world. The Politics of Language Oppression in Tibet broadens our understanding of Tibet and China, the crisis of global linguistic diversity and the radical changes needed to address this crisis. **Religious Violence Today** Michael

Jerryson, 2020-07-15 Through sections containing overview essays and reference entries related to particular religions, this resource explores the rise of religious violence, hate crime and persecution around the world. Religious violence and persecution have been growing steadily both within the United States and around the world. Drawing on the expertise of a wide range of scholars, this current and comprehensive reference helps readers understand the persecution of members of particular faiths as well as violence committed by members of those faiths. In doing so, it promotes a greater understanding of the role of religion in global politics, domestic and international terrorism and religious bigotry. The book contains sections on particular religious traditions from around the world. Each section begins with an overview essay surveying violence related to that particular religion, whether committed by or against members of that faith. Reference entries in each section then provide objective, fundamental information about particular topics related to violence and the religion discussed. The entries provide cross-references and suggestions for further reading, and the work closes with a bibliography of resources for further
