Religious Worlds The Comparative Study Of Religion:

Religious Worlds William E. Paden,1994 **New Patterns for Comparative Religion** William E. Paden,2016-05-19

The cross cultural study of religion has always gone hand in hand with the worldview sciences or intellectual frameworks of the time These frames whether focused on psychology or politics gender or colonialism bring out perspectives for understanding religious behavior Today one of our common civic worldviews is represented in the shift from scriptural to evolutionary history This volume brings together in one place key essays by professor emeritus William Paden showing a progression of steps he has taken in exploring bridgeworks between comparative religion and evolutionary models of religious behavior One of the leading scholars in religious studies Paden shows ways that religion can be contextualized as part of the natural world and thus seen as reflecting the ingrained sociality and world making drive of the human species Paden argues that although comparativism has been challenged as too culture bound too western or too gendered cross over categories and concepts between religious traditions cannot be avoided Arguing that there are recurrent patterns of human behavior common to our species and that thereby underlie all cultures he proposes that the missing link in the Religion Evolution debate is comparative religion a global cross cultural perspective on religious behaviours throughout time Each article is contextualized within this overall trajectory of thought within Paden s work and the history of the discipline as a whole

Warne, 2008-12-19 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline **Sayyid Qutb's Radical Islamism and the Comparative Political Theology** Dragos Stoica, 2024-12-15 Sayyid Qutb's Radical Islamism and The Comparative Political Theology argues that Sayyid Qutb's radical critique of secular modernity seen as a product of a great theft of sovereignty that usurps the monopoly of God over the entire world of creation is not idiosyncratic or incoherent but a quintessential expression and an extreme type of a specific tradition of political theology that until now has been exclusively the province of the Western thought Dragos Stoica claims that Sayyid Qutb's political theology of Hakimiyyah God's Sovereignty is better understood by integrating it in a wider context of the antimodern political theology Thus throughout this book he compares Qutb's critique of modernity with the Pakistani Islamist thinker Abu al A la Mawdudi 1903 1979 the Spanish Catholic counter revolutionary political theologian Juan Donoso Cortes 1809 1853 as well as the Protestant political theologians Abraham Kuyper 1837 1920 and Rousas J Rushdoony 1916 2001 This book employs a family resemblance cross cultural comparative method and applies a cross disciplinary analytical model that combines comparative political theology with critical discourse analysis

Employing these analytical instruments this book compares Qutb and his counterparts via the category of anti modern political theology more precisely through a set of shared antitheses organized around the master concept of God s Sovereignty The ultimate objective is to augment the understanding of the Qutbian critique of secular modernity as an essential dimension of anti modern political theology Thus by recasting Sayyid Qutb as an essential Muslim political theologian of God s Sovereignty placed within a larger cross cultural paradigm this book contributes as well to the necessary process of decolonization of political theology

The Cambridge Companion to Feminist Theology Susan Frank Parsons, 2002-07-04 Feminist theology is a significant movement within contemporary theology The aim of this Companion is to give an outline of feminist theology through an analysis of its overall shape and its major themes so that both its place in and its contributions to the present changing theological landscape may be discerned The two sections of the volume are designed to provide a comprehensive and critical introduction to feminist theology which is authoritative and up to date Written by some of the main figures in feminist theology as well as by younger scholars who are considering their inheritance it offers fresh insights into the nature of feminist theological work The book as a whole is intended to present a challenge for future scholarship since it critically engages with the assumptions of feminist theology and seeks to open ways for women after feminism to enter into the vocation of theology

The Art of Spiritual Care across Religious Difference Jill L. Snodgrass, 2024-03-19 The United States is witnessing a rise in the religiously unaffiliated Participation in traditional religious settings is in decline But everyone inhabits a location relative to religion whether or not they practice or identify with a religious tradition People engage in religious encounters and relationships in myriad ways and their religious location is one part of their intersecting identities This shifting religious landscape challenges spiritual caregivers to provide competent care and counsel that honors how persons religious locations intersect Jill Snodgrass argues that without a theoretical understanding of religious location chaplains counselors and other spiritual caregivers are left without sufficient tools to navigate this relational terrain In The Art of Spiritual Care across Religious Difference she gathers practices and insights from experienced spiritual caregivers and scholars to explore the concept of religious location a term initially coined by pastoral theologian Kathleen Greider as an aspect of an individual s intersecting identity Snodgrass presents a

compilation of essays that help spiritual caregivers think reflexively about their own religious locations and how these locations influence relational dynamics with care seekers within a diversity of cultural contexts This vigorous compilation advances the fields of pastoral and practical theology as well as spiritual care and counseling by developing a robust interreligious theory of religious difference grounded in insights from Christianity Buddhism Confucianism and Islam As such *The Art of Spiritual Care across Religious Difference* presents a well timed resource for the training of religiously competent caregivers to serve in hospitals prisons places of worship community mental health centers offices of campus ministry and more Scholars and practitioners will quickly discover that this book will serve as an enduring resource to meet the training needs for spiritual caregivers in ways that will help them to build enduring competencies ***Representing Religion*** Tim Murphy, 2014-12-05 If religion is continually in a state of flux how can the study of religion critically examine contemporary religious beliefs and values *Representing Religion* critically examines this crisis of representation The volume traces the history of religious studies critiquing the concept that experience is central to understanding religion The views of influential semioticians and philosophers notably Nietzsche Saussure Foucault Barthes and Bakhtin are used to construct a new methodology for the critical study of religion *Representing Religion* will be of interest to students and scholars of semiotics as well as theory and method in religious studies ***War in Heaven/Heaven on Earth*** Stephen D. O'Leary, Geln S. McGhee, 2014-12-18 The apocalypse is a motif that lies behind many religious beliefs and practices *War in Heaven Heaven on Earth* theorizes the apocalyptic as it has arisen in a variety of religious traditions from Native American religion to Islam in Northern Nigeria and new terrorist movements Millennial theory and history are explored from the perspective of social psychology sociology and post modern philosophy The volume is unique in applying an analysis of millennial themes to a comparative study of religion ***Buddhism After Patriarchy*** Rita M. Gross, 1993-01-01 This book surveys both the part women have played in Buddhism historically and what Buddhism might become in its post patriarchal future The author completes the Buddhist historical record by discussing women usually absent from histories of Buddhism and she provides the first feminist analysis of the major concepts found in Buddhist religion Gross demonstrates that the core teachings of Buddhism promote gender equity rather than male dominance despite the often sexist practices found in Buddhist institutions throughout history ***Evolution, Cognition, and the History of Religion: A New Synthesis*** Anders Klostergaard Petersen, Gilhus Ingvild Sælid, Luther H. Martin, Jeppe Sinding Jensen, Jesper Sørensen, 2018-10-08 *Evolution Cognition and the History of Religion A New Synthesis* comprises 41 chapters that push for a new way of conducting the study of religion thereby transforming the discipline into a genuine science of religion The recent resurgence of evolutionary approaches on culture and the increasing acknowledgement in the natural and social sciences of culture s and religion s evolutionary importance calls for a novel epistemological and theoretical framework for studying these two areas The chapters explore how a new scholarly synthesis founded on the triadic space constituted by evolution cognition cultural and

ecological environment may develop Different perspectives and themes relating to this overarching topic are taken up with a main focus on either evolution cognition and or the history of religion

Theology, Hermeneutics, and Imagination Garrett Green, 1999-11-25 This book explores the contemporary crisis of biblical interpretation by examining modern and postmodern forms of the hermeneutics of suspicion Garrett Green looks at several thinkers who played key roles in creating a radically suspicious reading of the Bible After Kant Hamann and Feuerbach comes Nietzsche who marked the turn from modern to postmodern suspicion Green argues that similarities between Derrida s deconstruction and Barth s theology of signs show that postmodern suspicion ought not to be viewed simply as a threat to theology but as a secular counterpart to its own

hermeneutical insights When theology attends to its proper task of describing the grammar of scriptural imagination it discovers a source of suspicion more radical than the secular the hermeneutical expression of God's gracious judgement Green concludes that Christians are committed to the hermeneutical imperative the never ending struggle for the meaning of scripture in the hopeful insecurity of the faithful imagination
