Religious Texts And Material Contexts:

Religious Texts and Material Contexts Jacob Neusner, James F. Strange, 2001-07-17 No problem so vexes learning as how to balance the claims of the written record of humanity against the actualities of man's material detritus Religious Texts and Material Contexts brings together scholars of the written record and those of the material realm beyond especially those working in the academic study of religion This book examines the relationship between archaeology and text scholarship through religion featuring cases of archaeology supported and not supported by written evidence **Text, Context and Performance** James A. Kapaló, 2011-09-20 Past scholarship on the Gagauz people has focused on their ethnic origins and the tension between their Christian faith and Turkish linguistic identity This study based on extensive fieldwork in the Republic of Moldova approaches the problem of this central dichotomy in Gagauz identity through the lens of daily religious practices This empirical approach reveals how scholarly discourses on folk religion guide the local fieldworker's identification of what are folk religious practices and thus actualises folk religion in a given context The book offers a fresh methodological perspective on folk religion as discourse and object of study and is the first monograph in a Western European language on the religion history and identity of this under studied European people **Reading Religion in Text and Context** Peter Collins, 2017-05-15 To what extent is religion inherently textual What might the term textual mean in relation to religious faith and practice These are the two key questions addressed by the eleven thought provoking essays collected in this volume Accounts of the content and structure of sacred texts are commonplace The rather more adventurous aim of this book is to disclose within the context of religion the various ways in which meaning can be read of more or less obviously sacred writing and from discourses such as the body the built and natural environment drama and ritual Persia and Rome in Classical Judaism Jacob Neusner, 2008 Persia and Rome in Classical Judaism examines the representation of Rome and Persia Iran in the successive groups of documents that comprise the Rabbinic canon of late antiquity Neusner considers how diverse documents of Rabbinic Judaism represent Rome and Iran and presents the way in which documentary differentiation affords perspective on the history of Judaism Axial events of the age the destruction of the second Temple in 70 and the defeat of the effort to restore it in 135 the transformation of the Roman Empire into a Christian state in the fourth century the failure to rebuild the Temple when the opportunity arose in the reign of Emperor Julian and the delegitimation of Israelite institutions in Byzantine Rome allow us to examine in historical and political context the evidence of the formation of normative Judaism **BOOK JACKET Theology in the Context of World Christianity** Timothy C. Tennent, 2009-05-26 Thinking more globally about the formation of theology enriches our understanding of what it means to be a Christian It's no secret that the center of Christianity has shifted from the West to the global South and East While the truths of the Christian faith are universal different contexts and cultures illuminate new questions understandings and expressions What does this mean for theology as Western theologians understand it Timothy Tennent argues that the Christian faith is culturally and theologically

translatable Theology in the Context of World Christianity is written to expand our ecclesiastical cartography by highlighting within each of the major themes of systematic theology studies that are engaging the global church such as Anthropology with studies drawn from the different views of human identity between Eastern and Western cultures Christology with a focus on the emphases that African Christians place on the characteristics of Christ Pneumatology by looking at the role of the Holy Spirit in Latin American Pentecostalism Eschatology by focusing on how this branch of theology shapes world missions and evangelism Each of the ten chapters examines traditional theological categories in conversation with theologians from across the globe making this volume valuable for students pastors missionaries and theologians alike Theological reflection is active and exciting in the majority world church and Tennent invites you to your own reflection and celebration of Christ's global church These are perspectives that should be heard considered and brought into conversation with Western theologians Global theology can make us aware of our own blind spots and biases and has much to offer toward the revitalization of Western Christianity **Why Ask Questions About Islam?: Answers Christians Need to Understand**

Gordon Kainer, 2016-07-11 Across the world Islam appears in eye catching headlines We may be aware of what is happening but often we don't understand why Most Christians have unanswered questions about Islam don't we Do Muslims and Christians worship the same God Does it matter whether one is a Muslim or a Christian How does Islam view love sin salvation and forgiveness Is a Muslim's view of Jesus different than a Christian's What does Bible prophecy say about Islam How best should a Christian witness to a Muslim This book answers over 100 questions Christians ask about Islam and in so doing reveals Islam's greatest need a saving faith in the gospel of Jesus Christ It is the author's hope that this book provides you with a highly informative perspective as Islam is thoughtfully studied and evaluated within the framework of a biblical worldview **Understanding Islam and Christianity**

Josh McDowell, Jim Walker, 2013-10-01 For years international apologist Josh McDowell has been alert to the challenge of Islam and how Muslims' objections to Christianity can raise deep doubts in believers' minds His recent on the ground research with Muslims in the Middle East has crystallized into this practical resource focusing on Jesus and the gospel Aided by Islam expert Jim Walker McDowell lays out the evidence on the crucial issues What kind of prophet was Jesus Was he the Messiah Son of God Son of Man What's that about How are God and Jesus related Can they both be God The gospel how could God dishonor his Son by letting him die horribly What good did his death do Aren't the Bible's accounts of Jesus corrupt With all this as well as background appendixes on the basics believers will have authoritative evidence from Scripture and history to intelligently deal with Muslims' questions about and challenges to Christianity **From Scrolls to Scrolling**

Bradford A. Anderson, 2020-06-22 Throughout history the study of sacred texts has focused almost exclusively on the content and meaning of these writings Such a focus obscures the fact that sacred texts are always embodied in particular material forms from ancient scrolls to contemporary electronic devices Using the digital turn as a starting point this volume highlights material dimensions of the sacred texts of Judaism Christianity and

Islam The essays in this collection investigate how material aspects have shaped the production and use of these texts within and between the traditions of Judaism Christianity and Islam from antiquity to the present day Contributors also reflect on the implications of transitions between varied material forms and media cultures Taken together the essays suggests that materiality is significant for the academic study of sacred texts as well as for reflection on developments within and between these religious traditions This volume offers insightful analysis on key issues related to the materiality of sacred texts in the traditions of Judaism Christianity and Islam while also highlighting the significance of transitions between various material forms including the current shift to digital culture *Discourse Perspectives on English* Risto Hiltunen, Janne

Skaffari, 2003-12-19 Covering nearly one thousand years this volume explores medieval and modern English texts from fresh perspectives Within the relatively new field of historical discourse linguistics the synchronic analysis of large textual units and consideration of text external features in relation to discourse has so far received little attention To fill that gap this volume offers studies of medieval instructional and religious texts and correspondence from the early modern period The contributions highlight writer audience relationships the intended use of texts descriptions of text type and questions of orality and manuscript contextualization The topics ranging from the reception of Old English texts to the conventions of practical instruction in Middle English to the epistolary construction of science in early Modern English are directly relevant to historical linguists discourse and text linguists and students of the history of English *KOINE* Derek Counts, Anthony

Tuck, 2009-11-23 The Oxford English Dictionary defines koine as a set of cultural or other attributes common to various groups This volume merges an academic career over a half century in breadth and scope with an editorial vision that brings together a chorus of scholarly contributions echoing the core principles of R Ross Holloways own unique perspective on ancient Mediterranean studies Through broadly conceived themes the four individual sections of this volume I A View of Classical Art Iconography in Context II Crossroads of the Mediterranean Cultural Entanglements Across the Connecting Sea III Coins as Culture Art and Coinage from Sicily and IV Discovery and Discourse Archaeology and Interpretation are an attempt to capture the many and varied trajectories of thought that have marked his career and serve as testimony to the significance of his research The twenty four papers plus four introductory essays to the individual sections biographical sketch and main introduction contain recent research on subjects ranging from the Kleophrades Painter to the Black Sea Sicilian Coinage and archaeology in modern Rome
