Adler, 1999-07-01 Over the last two decades Japanese firms have challenged U S dominance in many manufacturing industries This challenge has increasingly come in the form of transplant operations and recognition has spread that their success owes a great deal to superior manufacturing management Despite the ups and downs of the business cycle in Japan there remains a core of world class Japanese companies that have developed manufacturing management systems that companies throughout the world strive to emulate In this edited volume a team of eminent scholars uses case studies and large scale surveys to explain in depth the process of transferring and transforming the best Japanese Management Systems JMS by both Japanese and U S owned firms While the most successful of the Japanese manufacturing transplants rely to varying degrees on home country management techniques they have had to adapt them to fit U S conditions Similarly the growing number of U S firms that are adopting these techniques to strengthen their own positions face a considerable challenge in transforming them to fit local conditions A new environment necessarily compels the transformation of JMS But despite the hurdles firms face the evidence presented here and elsewhere strongly indicates that key aspects of JMS are remarkably transferable and successful in the United States Combining scientific data with clear and engaging prose *Remade in America* is a rich analytical resource for manufacturing professionals as well as scholars and students of management and business Multinationals, Institutions and the Construction of Transnational Practices Anthony Ferner, Javier Quintanilla, 2006-03-15 This text considers how multinationals transfer structures policies and practices across national borders It is contributed to by experts in the field of employment relations and combines empirical material with a theoretical approach The essays advance comparative institutionalist theory at both the macro level and the micro level *The Learning Economy and the Economics of Hope* Bengt-Åke Lundvall, 2016-12 The Learning Economy and the Economics of Hope offers original insights in processes of innovation and learning and draws implications for economic theory and public policy The book introduces the reader to important concepts such as innovation systems and the learning economy It throws new light on economic development and opens up horizons for a new kind of economics the economics of hope Managing a Global Workforce Charles Vance, Yongsun Paik, 2015-03-27 This new edition of Managing a Global Workforce provides balanced and contemporary coverage of human resource management in the international marketplace Directed at future general managers and international executives rather than HR specialists it is designed to help students as well as professionals recognize the critical human resource issues underlying the cultural and economic challenges they face **A Translation Theory of Knowledge Transfer** Kjell Arne Røvik, 2023-03-28 In A Translation Theory of Knowledge Transfer Kjell Arne Røvik develops a new theory on the challenges of transferring and sharing knowledge across organizational borders Based on extensive research he proposes a new reframing idea of knowledge transfer as acts of translation resembling the translation of texts This new concept both
