the historical roots of congregational life Taking the perspective of the laity Cashdollar ranges widely from worship and music to fund raising and administration from pastoral care to social work from prayer meetings to strawberry festivals from the sanctuary to the kitchen Firmly rooted in broader currents of gender class notions of middle class respectability increasing expectations for personal privacy and patterns of professionalization he finds that there was a gradual shift in emphasis during these years from piety to fellowship Based on records publications and memorabilia from about 150 congregations representing eight denominations *A Spiritual Home* gives us a comprehensive composite portrait of religious life in Victorian Britain and America The Making of the Scottish Countryside M. L. Parry,T. R. Slater,2021-10-12

Originally published in 1980 this book examines the evolution of the Scottish landscape from pre historic times to the mid nineteenth century It considers the way in which the structural base of agriculture and the changing farming system came to alter the Scottish rural landscape This book with its focus on the underlying landscape processes gives a developmental view of landscape change It therefore considers the crucial question of the rate and pace of landscape change and argues that the Scottish landscape was not the product of a few brief phases of quite rapid development but rather the result of a continual and gradual process of change It also looks at the regional variation of landscape change and establishes the importance of regional linkages in the diffusion of ideas especially in new technology The Materiality of Magic Ceri Houlbrook,Natalie Armitage,2015-12-31 The subject of magic has long been considered peripheral and sensationalist the word itself having become something of an academic taboo However beliefs in magic and the rituals that surround them are extensive as are their material manifestations and to avoid them is to ignore a prevalent aspect of cultures worldwide from prehistory to the present day *The Materiality of Magic* addresses the value of the material record as a resource in investigations into magic ritual practices and popular beliefs The chronological and geographic focuses of the papers presented here vary from prehistory to the present day including numinous interpretations of fossils and ritual deposits in Bronze Age Europe apotropaic devices in Roman and Medieval Britain the evolution of superstitions and ritual customs from the voodoo doll of Europe and Africa to a Scottish wishing tree and an exploration of spatiality in West African healing practices The objectives of this collection of nine papers are twofold First to provide a platform from which to showcase innovative research and theoretical approaches in a subject which has largely been neglected within archaeology and related disciplines and secondly to redress this neglect The papers were presented at the 2012 Theoretical Archaeology Group TAG conference in Liverpool

The Northern Isles Alexander Fenton,1997 The Northern Isles stand at a crossroads of North Atlantic Europe subject to the competing influences of Scandinavia and Scotland Sandy Fenton s detailed study of the material culture of Orkney and Shetland is combined with thorough linguistic analysis and is based on years of study and sifting of a mass of detail Much of the material is new based on extensive research by the author on manuscript and other written sources and on knowledge freely imparted by many local inhabitants It illuminates the complexity of numerous interlocking factors draws a picture of a

fascinating and varied existence and reveals the past not as a static tableau but a process of continuous change This book recreates the physical environment in which the people lived their crops and livestock the harvest of the sea their houses the food they ate These things dominated their lives and form the background which is the key to understanding the character of these fascinating islands This major work has earned its place as a key contribution to European ethnology and won the Dag Stromback Award of the Royal Gustav Academy Sweden Reminiscences of the Royal Burgh of Haddington and Old East

Lothian Agriculturists John Martine,2024-02-10 Reprint of the original first published in 1883 **The New History of Orkney** William P. L. Thomson,2008 For much of its history Orkney had its own language culture and institutions The prehistoric inhabitants created monuments which are unmatched anywhere in Europe and the medieval period saw the magnificent earldom that expressed itself through the Orkneyinga Saga and the building of St Magnus Cathedral in Kirkwall Like Shetland Orkney was heavily influenced by Viking traders and raiders from Scandinavia and for a long period it formed an outlying part of the kingdom of Norway Over 500 years ago however the islands lost their Scandinavian links and since then have had a sometimes difficult association with mainland Scotland More recent times have seen the use of Orkney as a strategic stronghold during two world wars and the far reaching impact of oil and gas exploitation in the North Sea This classic book covers the whole fascinating story and will be of interest to readers far beyond the rocky shores of Orkney itself
