

Homophobic Name-Calling and Gender Identity

✓ Exclusively available on IvyPanda

In the article "The influence of peers during adolescence: Does homophobic name-calling by peers change gender identity?" the authors claim that negative name-calling among peers can lead to a change in gender identity. Firstly, this is because negative experiences with peers of the same sex result in the need to identify with peers of the opposite sex. Secondly, during the period of growing up, the adolescents' identity is not yet fully established. Therefore, they are constantly re-evaluating whether the identity formation is going in the right direction. DeLay et al. (2018) recognize that homophobia can be directed at homosexual and heterosexual adolescents. This is presumably because the purpose of victimization is to hurt someone's feelings, not point out real flaws.

Gender identity development is a critical stage in developing a personality occurring during adolescence (DeLay et al., 2018). Since homophobic name-calling is a form of victimization, this practice should be frowned upon or banned in schools. Ioverno et al. (2021) note that "bullying GNCV may represent a defensive reaction to demonstrate bullies' gender conformity" (p. 215). Therefore, work with bullies should be carried out competently and with the participation of a psychologist.

Interestingly, Ioverno et al. (2021) highlight how this statement is especially true for male bullies. That is because their "own gender conformity can affect the selection of victims based on their gender conformity" (p. 216). It is critical to understand this mirror interaction to resolve the issues of gender victimization. Equally important, victimization of adolescents, including LGB, trans, and heterosexual high school students may lead to "anxiety, depression, and substance use disorders, especially among sexual and gender minority youth" (Valido et al., p. 602). This is another valuable observation that indicates the need for concomitant prevention practices of substance abuse among adolescents. No less important, substance abuse should be perceived as the consequence of psychological problems.

The Persistent Prison? Maeve Winifred McMahon, 1992-01-01 The Prison system is widely believed to be an immutable element of contemporary society Many criminologists and sociologists of deviance believe that decarceration movements have failed to yield progressive reform and that feasible alternatives to the prison system do not exist Maeve McMahon challenges these views Reconstructing the emergence of critical perspectives on decarceration she examines analytical and empirical problems in the research She also points out how indicators of community programs and other penalties serving as alternatives to prison have typically been overshadowed through critical focus on their effects in widening the net of control McMahon presents a detailed analysis of decreasing imprisonment and of the part played by alternatives in this during the postwar period in Ontario Drawing from extensive documentary research and from interviews with former correctional officials she charts the changing climates of opinions and socio economic factors which facilitated decarceration By situating her analysis in the context of theoretical and political arguments about the possibility of decarceration McMahon provides in her work a stimulus to the development of progressive penal politics not just in Canada but in all western countries

Black Men on Race, Gender, and Sexuality Devon Carbado, 1999-07-01

In late 1995 the Million Man March drew hundreds of thousands of black men to Washington DC and seemed even to skeptics a powerful sign not only of black male solidarity but also of black racial solidarity. Yet while generating a sense of community and common purpose the Million Man March with its deliberate exclusion of women and implicit rejection of black gay men also highlighted one of the central faultlines in African American politics: the role of gender and sexuality in antiracist agenda. In this groundbreaking anthology a companion to the highly successful *Critical Race Feminism* Devon Carbado changes the terms of the debate over racism, gender and sexuality in black America. The essays cover such topics as the legal construction of black male identity, domestic abuse in the black community, the enduring power of black machismo, the politics of black male/white female relationships, racial essentialism, the role of black men in black women's quest for racial equality and the heterosexist nature of black political engagement. Featuring work by Cornel West, Huey Newton, Henry Louis Gates Jr, A. Leon Higginbotham Jr, Houston Baker, Marlon T. Riggs, Dwight McBride, Michael Awkward, Ishmael Reed, Derrick Bell and many others, Devon Carbado's anthology stakes out new territory in the American racial landscape.
