gerson.org/gerpress/ritas-story-how-imi-healing-breast-cancer-holistically/

The Gerson Institute

by Rita S, August 2012.

I am from a little town 25 km North of Barcelona, Spain. I was diagnosed with a hormone-dependent breast cancer in November 2009 called invasive ductal adenocarcinoma; stage II/III, tumor size 2cm.

I felt devastated at that moment, and so did my husband, my mother and my sisters. But then I felt the strength inside myself, and a furious rage came out saying that this cancer wasn't going to kill me — that I would be victorious!

The doctors immediately started to plan surgery, then radiotherapy and, following that, five years of Tamoxifen. After a pre-surgical routine MRI the doctors found another little 4mm tumor in the same breast. Since they could not localize it because it was small and very deep, the doctors couldn't perform a biopsy. They took out the tumor out and decided I should have a check-up with an MRI every 3 months just in case it grew. Luckily, my lymph nodes were clear so the doctors only took out the sentinel lymph node.

After surgery, my hospital oncologist said that I had to take Tamoxifen. I found out that, according to the National Cancer Institute, Tamoxifen's side effects range from hot flashes, vaginal dryness, joint pain and leg cramps to blood clots, cataracts, strokes and uterine cancer. So, it was clear in my mind that I was not going to take that poison.

I started radiotherapy for six weeks, but worried that it would be a big mistake.

After one month I was so ill that I ended up in the hospital because I could not stop vomiting. I lost about 22 pounds in a few months. My family was very alarmed and fearful and my husband could see that I was not doing well. The day after I returned from the hospital, I started vomiting again.

The Triumph of the Ordinary Joshua Feinstein, 2003-11-20 Were movies in the East Bloc propaganda or carefully veiled dissent In the first major study in English of East German film Joshua Feinstein argues that the answer to this question is decidedly complex Drawing on newly opened archives as well as interviews with East German directors actors and state officials Feinstein traces how the cinematic depiction of East Germany changed in response to national political developments and transnational cultural trends such as the spread of television and rock n roll Celluloid images fed a larger sense of East German identity an identity that persists today more than a decade after German reunification But even as they attempted to satisfy calls for authentic images of the German Democratic Republic that would legitimize socialist rule filmmakers challenged the regime's self understanding Beginning in the late 1960s East German films dwelled increasingly on everyday life itself no longer seeing it merely as a stage in the development toward communism By presenting an image of a static rather than an evolving society filmmakers helped transform East German identity from one based on a commitment to socialist progress to one that accepted the GDR as it was
