Holy War and Human Bondage *Tales of Christian Muslim Slavery in the Early Modern Mediterranean* tells a story unfamiliar to most modern readers how this pervasive servitude involved connected and divided those on both sides of the Mediterranean The work explores how men and women Christians and Muslims Jews and sub Saharan Africans experienced their capture and bondage while comparing what they went through with what black Africans endured in the Americas Drawing heavily on archival sources not previously available in English *Holy War and Human Bondage* teems with personal and highly felt stories of Muslims and Christians who personally fell into captivity and slavery or who struggled to free relatives and co religionists in bondage In these pages readers will discover how much race slavery and faith slavery once resembled one other and how much they overlapped in the Early Modern mind Each produced its share of personal suffering and social devastation yet the whims of history have made the one virtually synonymous with human bondage while confining the other to almost complete oblivion **Merit, Meaning, and Human Bondage** Nomy Arpaly,2009-08-15 Perhaps everything we

think feel and do is determined and humans like stones or clouds are slaves to the laws of nature Would that be a terrible state Philosophers who take the incompatibilist position think so arguing that a deterministic world would be one without moral responsibility and perhaps without true love meaningful art and real rationality But compatibilists and semicompatibilists argue that determinism need not worry us As long as our actions stem in an appropriate way from us or respond in some way to reasons our actions are meaningful and can be judged on their moral or other merit In this highly original work Nomy Arpaly argues that a deterministic world does not preclude moral responsibility rationality and love in short meaningful lives but that there would still be something lamentable about a deterministic world A person may respond well to reasons and her actions may faithfully reflect her true self or values but she may still feel that she is not free Arpaly argues that compatibilists and semicompatibilists are wrong to dismiss this feeling for which there are no philosophical consolations as philosophically irrelevant On the way to this bittersweet conclusion Arpaly sets forth surprising theories about acting for reasons the widely accepted idea that ought implies can moral blame and more
