Traveling Traditions Erik Redling,2016-03-21 This study seeks to fill a major gap in the fields of Nineteenth Century American and British Studies by examining how nineteenth century intellectuals shaped and re shaped aesthetic traditions across the Atlantic Ocean Special attention is paid to a group of salient cultural concepts such as artist as hero imagination the picturesque reform simultaneity and seriality Although embedded in a particular aesthetic tradition these concepts travel from one culture to another and are transformed along their transatlantic journeys The purpose of this book is to explore the roles of these traveling concepts within the realm of transatlantic cultures and to trace their at times surprising paths within ever widening transnational intellectual networks *Exploring the Plains States Through Literature* Carolyn S. research work towards her doctorate degree this book focuses on the four sets of qualities that are vital to teachers who are leading teachers administrators digitally native students parents and ICT professionals These qualities are hidden in every teacher and appear to be deceptively simple yet teachers need to nurture them within their core to effectively communicate and collaborate with others and expand their instructional repertoire with ICT As these qualities strengthen teacher leaders will be able to help their colleagues to realize their potential to use ICT beyond the classroom This book focuses on the essence of being a teacher leader Coaching and mentoring Assisting student learning Supporting others Becoming a curious technologist Taken from the author s research findings this book presents much needed teacher leadership reflections for teachers school administrators directors and professors on building qualities to lead others through weaving ICT into the culture of their classrooms
