Reducing Disaster Risk A Challenge For Development A Global Report Pb:

Global Report on Human Settlements 2007; Volume 3., 1978 Reducing Disaster Risk, 2004 Reducing Disaster Risk A Challenge for Development looks at disasters through a human development lens. This global Report aims to explain the linkages between development and disaster. It introduces a pioneering Disaster Risk Index (DRI) that measures the relative vulnerability of countries to three key natural hazards: earthquakes, tropical cyclones, and floods. It identifies the development factors that contribute to risk and shows in quantitative terms just how the effects of disasters can be either reduced or exacerbated by policy choices. UNDP

Managing Water Under Uncertainty and Risk: United Nations World Water Development Report #4 (3 Vols.) UNESCO, 2012-01-01 Released every three years since March 2003, the United Nations World Water Development Report (WWDR) is a flagship UN Water report published by UNESCO. It has become the voice of the United Nations system in terms of the state, use, and management of the world's freshwater resources. The report is primarily targeted at national decision makers and water resource managers but is also aimed at educating and informing a broader audience from governments to the private sector and civil society. It underlines the important roles water plays in all social, economic, and environmental decisions, highlighting policy implications across various sectors from local and municipal to regional and international levels. Similarly to the first two editions, this report includes a comprehensive and up-to-date assessment of several key challenge areas such as water for food, energy, and human health, and governance challenges such as institutional reform, knowledge and capacity building, and financing, each produced by individual UN agencies. Air Pollution Bhola R. Gurjar, Luisa T. Molina, C.S. P. Ojha, 2010-06-22 Air pollution is recognized as one of the leading contributors to the global environmental burden of disease, even in countries with relatively low concentrations of air pollution. Air Pollution: Health and Environmental Impacts examines the effect of this complex problem on human health and the environment in different settings around the world. I

Municipal Management Annelise Venter, 2007 Book the constitutional dispensation as it affects municipalities, the strategic orientation of municipalities within the global and national contexts, the capacities and resources available, best practices as far as management processes, procedures, and methods are concerned. The book explores the multifaceted nature of municipal management in South Africa and focuses the reader's attention on selected key strategic issues such as local economic development, local democracy, disaster risk reduction.

Managing Water Under Uncertainty and Risk Unesco, 2012 This flagship report is a comprehensive review that gives an overall picture of the world's freshwater resources. It analyses pressures from decisions that drive demand for water and affect its availability. It offers tools and response options to help leaders in government, the private sector, and civil society address current and future challenges. It suggests ways in which institutions can be reformed and their behaviour modified and explores possible sources of financing for the urgently needed investment in water. The WWDR4 is a milestone within the WWDR series, reporting directly on regions and highlighting hotspots, and it has been mainstreamed for gender.

equality It introduces a thematic approach Managing Water under Uncertainty and Risk in the context of a world which is changing faster than ever in often unforeseeable ways with increasing uncertainties and risks It highlights that historical experience will no longer be sufficient to approximate the relationship between the quantities of available water and shifting future demands Like the earlier editions the WWDR4 also contains country level case studies describing the progress made in meeting water related objectives The WWDR4 also seeks to show that water has a central role in all aspects of economic development and social welfare and that concerted action via a collective approach of the water using sectors is needed to ensure water s many benefits are maximized and shared equitably and that water related development goals are achieved
