Reflexive Language Reported Speech And Metapragmatics:

Reflexive Language John A. Lucy, 1993-03-04 These innovative essays represent a critique of those researchers in the humanities and social sciences who fail to take language seriously The Reflexivity of Language and Linguistic Inquiry Dorte Duncker, 2018-11-09 This book explores the reflexivity of language both from the perspective of the lay speaker and the linguistic analyst Linguistic inquiry is conditional upon linguistic reflexivity but so is language Without linguistic reflexivity we would not be able to make sense of everyday linguistic communication and the idea of a language would not be conceivable Not even fundamental notions such as words or meaning would exist Linguistic reflexivity is a feature of the communication process and it essentially depends on situated participants and time It is a defining characteristic of the human language but despite its obvious importance it is not very well understood theoretically and it is strangely under researched empirically Throughout history and in modern linguistics it has mostly either been taken for granted misconstrued or ignored Only integrational linguistics fully recognizes its specifically linguistic implications However integrational linguistics does not provide the necessary methodological basis for investigating linguistic phenomena empirically This catch 22 situation means that the goal of the book is twofold one part is to explore the reflexivity of language theoretically and the other part is to propose an applied integrational linguistics and to implement this proposal in practice

Doing Pragmatics Peter Grundy, 2013-11-26 Doing Pragmatics achieved success through its unparalleled capacity to render pragmatics truly accessible to students Embracing the comprehensive and engaging style which characterised the previous editions the third edition is fully revised and expanded Grundy consolidates the strengths of the original version reinforcing its unique combination of theory and practice with new theory exercises and up to date real data and examples New chapters include pragmatic inference and language evolution and intercultural pragmatics Doing Pragmatics is designed for pragmatics courses both at an introductory and a more advanced level It extends beyond theory to promote an applied understanding of empirical data and to provide students with the opportunity to do pragmatics themselves providing the ideal foundation for all those studying linguistics and ELT Metapragmatics in Use Wolfram Bublitz, Axel Hübner, 2007-12-12 This collection of papers fills a gap in current research on both metapragmatics and pragmatics in that it combines data based pragmatic analysis with metapragmatic theory and focuses on the ways in which metadiscourse is actually used The 12 contributions investigate speech acts and verbal as well as non verbal expressions which highlight meta linguistic aspects of ongoing discourse and thus provoke a deviation from the latter's original direction and purpose All case studies discuss ways and means which interactants employ to resolve diverging pragmatic expectations in communication The papers analyze authentic examples from English and other languages and cultures including Thai Chinese and Japanese and center around three principal domains of communication ordinary everyday interaction interaction in educational contexts and in specialized discourse The introductory chapter locates the various contributions within a systematically

broader theoretical framework The wide scope of the collection its empirical orientation and the reader friendly form of presentation should appeal to anyone interested in pragmatics whether scholar or student

Pragmemes and Theories of Language Use Keith Allan, Alessandro Capone, Istvan Kecskes, 2017-01-10 This volume offers recent developments in pragmatics and adjacent territories of investigation including important new concepts such as the pragmatic act and the pragme and combines developments in neighboring disciplines in an integrative holistic pragmatic approach The young science of pragmatics has from its inception differentiated itself from neighboring fields in the humanities especially the disciplines dealing with language and those focusing on the social and anthropological aspects of human behavior by focusing on the language user in his or her societal environment This collection of papers continues that emphasis on language use and pragmatic acts in their context The editors and contributors share a perspective that essentially considers language as a system for communication and wants to look at language from a societal perspective and accept the view that acts of interpretation are essentially embedded in culture In an interdisciplinary approach some authors explore connections with social theory in particular sociology or socio linguistics some offer a political stance critical discourse analysis others explore connections with philosophy and philosophy of language and several papers address problems in theoretical pragmatics

Metapragmatics and the Chinese Language Xinren Chen, 2022-10-11 This volume presents how Chinese people communicate with various meta level expressions for different purposes across contexts It demonstrates empirically how the use of these expressions contributes to the management of meaning generation interpersonal relating and discourse organization It will serve to shed light on the understanding of how Chinese people monitor their speech in the course of communication and will function as an important reference for researchers and students who conduct cross linguistic comparative or contrastive metapragmatic research concerning Chinese and other languages

Indirect Reports and Pragmatics Alessandro Capone, Ferenc Kiefer, Franco Lo Piparo, 2015-12-01 This volume offers the reader a singular overview of current thinking on indirect reports The contributors are eminent researchers from the fields of philosophy of language theoretical linguistics and communication theory who answer questions on this important issue This exciting area of controversy has until now mostly been treated from the viewpoint of philosophy This volume adds the views from semantics conversation analysis and sociolinguistics Authors address matters such as the issue of semantic minimalism vs radical contextualism the attribution of responsibility for the modes of presentation associated with Noun Phrases and how to distinguish the indirect reporter s responsibility from the original speaker s responsibility They also explore the connection between indirect reporting and direct quoting Clearly indirect reporting has some bearing on the semantics pragmatics debate however there is much controversy on what is said whether this is a minimal semantic logical form enriched by saturating pronominals or a much richer and fully contextualized logical form This issue will be discussed from several angles Many of the authors are contextualists and the discussion brings out the need to take context into account when one deals

with indirect reports both the context of the original utterance and the context of the report It is interesting to see how rich cues and clues can radically transform the reported message assigning illocutionary force and how they can be mobilized to distinguish several voices in the utterance Decoupling the voice of the reporting speaker from that of the reported speaker on the basis of rich contextual clues is an important issue that pragmatic theory has to tackle Articles on the issue of slurs will bring new light to the issue of decoupling responsibility in indirect reporting while others are theoretically oriented and deal with deep problems in philosophy and epistemology The Cambridge Handbook of the Philosophy of Language Piotr Stalmaszczyk, 2021-12-02 A comprehensive guide to contemporary investigations into the relationship between language philosophy and linguistics Perspective and Perspectivation in Discourse Carl Friedrich Graumann, Werner Kallmeyer, 2002-01-01 Perspective and viewpoint are widely used in everyday talk as well as in the specialist languages of the social cognitive and literary sciences Taken from the field of visual perception and representation these concepts have acquired a general meaning and significance as characteristics of human cognitive processing Since however this field is shared by an increasing body of disciplines perspective terms have also acquired specific and technical meanings A striking example is the newly introduced use of perspectivation in discourse analysis This volume on perspective and perspectivation the first of its kind will help to fill the gap between the common understanding of perspective and the specifics of its structure and dynamics as they have been elaborated in the human sciences mainly in psychology and linguistics The focus is on the structure of perspectivity in cognition and language and the dynamics of setting and taking perspectives in social interaction and in the construction and understanding of texts Both topics are presented here in an interdisciplinary way by a group of linguists and psychologists *New Frontiers in Pragmalinguistic Studies* Alessandro Capone, Roberto Graci, Pietro Perconti, 2025-01-29 This book contains a comprehensive view of pragmalinguistic studies and their recent ramifications boasting some of the most advanced recent research in pragmatics Organised into three sections pragmalinguistics social pragmatics and cognitive inferential pragmatics respectively the chapters enable an understanding of the possible applications of linguistic and philosophical theories in practical fields Covering topics such as polysemy across languages and lexical externalism the role of literal meaning in the construction of metaphorical meaning the pragmatics of truth the roles of reflexivity in meaning negotiation argumentation and discourse the pragmatics of taboo linguistic and cognitive aspects of formation of implicates and reflections on neuropragmatics and clinical pragmatics in Autism Spectrum Disorder and Schizophrenia to name but a few exciting areas of exploration this book is of interest to scholars and postgraduate students in the fields of semantics pragmatics and philosophy of language cognitive science and other areas of linguistics *Dialogue Analysis IX: Dialogue in Literature and the Media, Part 1: Literature* Anne Betten, Monika Dannerer, 2011-12-22 These two volumes offer a selection of the papers held at the conference of the International Association for Dialogue Analysis IADA in 2003 Volume I contains 38 articles devoted to dialogue and the phenomenon of dialogicity in literature ranging from

antiquity to a large number of modern languages and literatures The conversation analytic approaches drawn upon are notable for their methodological diversity This is also true of the 32 articles in Volume II The main focus here is on present day types of dialogue in the new electronic media and their traditional counterparts press radio television film The examples are taken from various countries and they are discussed in terms of the intercultural semiotic translatorial and general pragmatic issues they pose

Powers of the Secular Modern David Scott, Charles Hirschkind, 2006 This book presents a set of critical engagements by writers from a variety of disciplines with the work of noted anthropologist Talal Asad

The Cambridge Handbook of Sociopragmatics Michael Haugh, Dániel Z. Kádár, Marina Terkourafi, 2021-04-22 Sociopragmatics is a rapidly growing field and this is the first ever handbook dedicated to this exciting area of study Bringing together an international team of leading editors and contributors it provides a comprehensive cutting edge overview of the key concepts topics settings and methodologies involved in sociopragmatic research The chapters are organised in a systematic fashion and span a wide range of theoretical research on how language communicates multiple meanings in context how it influences our daily interactions and relationships with others and how it helps construct our social worlds Providing insight into a fascinating array of phenomena and novel research directions the Handbook is not only relevant to experts of pragmatics but to any reader with an interest in language and its use in different contexts including researchers in sociology anthropology and communication and students of applied linguistics and related areas as well as professional practitioners in communication research

Disorderly Discourse Charles L. Briggs, 1996 This volume contains eight essays that are at the intersection of two important areas within linguistics conversational analysis and the use of narrative in the creation mediation and resolution of conflict The contributors explore these issues in a variety of cultures and languages

Investigations into the Meta-Communicative Lexicon of English Ulrich Busse, Axel Hübler, 2012-05-15 The volume contributes to historical pragmatics an important chapter on what has so far not been paid adequate attention to i.e. historical metapragmatics. More particularly the collected papers apply a meta-communicative approach to historical texts by focusing on lexis that either directly or metaphorically identifies or characterizes entire forms of communication or single acts and act sequences or minor units. Within the context of their use such lexical expressions in fact provide a key for disclosing historical forms of communication taken out of context: they build the meta-communicative lexicon. The articles follow three principal distinctions in that they investigate the meta-communicative profile of genres, meta-communicative lexical sets and meta-communicative ethics and ideologies. They cover a broad spectrum of text types that span the entire history of the English language from Anglo-Saxon chronicles to computer-mediated communication.

Metapragmatics of Humor Leonor Ruiz-Gurillo, 2016-11-24 Metapragmatics of Humor: Current research trends contributes to a new area in the pragmatics of humor: its conception as a metapragmatic ability. The book collects thirteen chapters organized into three parts: Revisions and applications of General Theory of Verbal Humor (GTVH) in a metapragmatic context; Metapragmatic awareness of humor across textual modes; and Metapragmatic practices within the acquisition of humor. Thus, this book provides an up-to-date panorama of this field where metapragmatic abilities are described in adults as well as in children on humorous and non-humorous genres: jokes, cartoons, humorous monologues, parodies, conversation, Twitter, and using several approaches such as GTVH, multimodality, conversational analysis, eye-tracking methodology, etc.

Deuteronomy and the Material Transmission of Tradition Mark Lester, 2024-03-04 Winner of the 2025 Manfred Lautenschlaeger Award for Theological Promise. Deuteronomy and the inscribed texts depicted within it are often called books. Moreover, its treatment of writing has earned it a prominent place in historical accounts of the religion of ancient Israel and Judah. Neither Deuteronomy nor its text artifacts, however, are books in any conventional sense of the term. This interdisciplinary study reorients the analysis of Deuteronomistic textuality around the materiality, visibility, and rhetoric of ancient rather than modern media. It argues that the Deuteronomistic composition adapts the media aesthetics of ancient treaty tablets and monumental inscriptions to a story that is itself transformed into an artifact of the past.

More than (Just) Words Magdalena Szczyrbak, 2025-06-02 This edited collection illuminates the mechanisms involved in courtroom reality construction and the ways in which trial narratives are created and legal facts established. It covers a wide range of jurisdictions and legal procedures spanning five continents. In addition to explaining how courtroom actors utilise words to craft their narratives within institutional constraints, it draws attention to the effect the gestural, visual, and material resources have on the discursive shaping of the judicial process. The book highlights the intersection of legal and non-legal perspectives in judicial and related settings: those of judges, prosecutors, attorneys, complainants, lay witnesses, forensic experts, witness intermediaries, and jurors. Going beyond just words, the volume elucidates the processes of meaning-making and the discourse practices which underlie asymmetrical interaction.

in judicial settings Informed by diverse theoretical frameworks the book will appeal to legal linguists and discourse analysts studying institutional communication as well as legal practitioners engaged in trial practice *The Pursuit of Style in Early Modern Drama* Matthew Hunter, 2022-08-25 Matthew Hunter shows how early modern plays modeled diverse styles of talk for audiences inhabiting a newly public world
