Religious Diversity And Human Rights:

Religious Diversity and Human Rights Irene Bloom, J. Paul Martin, Wayne L. Proudfoot, 1893 Explores the applicability or pertinence of the language of human rights in non Western contexts the bearing of traditional concepts of the person on modern human rights thinking the sources of and limitations on the idea and practice of religious tolerance and the role of religious ideas and institutions in influencing human rights situations in several of the most troubled and contentious areas of the contemporary world such as the Middle East India Latin America and the former Soviet Union **New Approaches to the Study of Religion** Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004 *A Test of Faith?* Dr Jogchum Vrielink, Ms Katayoun Alidadi, Professor Marie-Claire Foblets, 2012-09-01 Issues of religious diversity in the workplace have become very topical and have been raised before domestic courts and the European Court of Human Rights Examining the controversial and constantly evolving position of religion in the workplace this collection brings together chapters by legal and social science scholars and provides a wealth of information on legal responses across Europe Turkey and the United States to conflicts between professional and religious obligations involving employees and employers The contributors examine how case law from the European Court of Human Rights domestic experiences and comparative analyses can indicate trends and reveal established and innovative approaches This multi perspective volume will be relevant for legal practitioners researchers academics and policy makers interested in human rights law discrimination law labour law and the intersection of law and religion Religious Perspectives on Bioethics and Human Rights Joseph Tham, Kai Man Kwan, Alberto Garcia, 2017-09-06 This book deals with the thorny issue of human rights in different cultures and religions especially in the light of bioethical issues In this book experts from Christianity Judaism Islam Buddhism Daoism Hinduism and Confucianism discuss the tension between their religious traditions and the claim of universality of human rights The East West contrast is particularly evident with regards to human rights Some writers find the human rights language too individualistic and it is foreign to major religions where the self does not exist in isolation but is normally immersed in a web of relations and duties towards family friends religion community and society Is the human rights discourse a predominantly Western liberal ideal which in bioethics is translated to mean autonomy and free choice In today's democratic societies laws have been drafted to protect individuals and communities against slavery discrimination torture or genocide Yet it appears unclear at what moment universal rights supersede respect for cultural diversity and pluralism This collection of articles demonstrates a rich spectrum of positions among different religions as they confront the ever more pressing issues of bioethics and human rights in the modern world This book is intended for those interested in the contemporary debates on religious ethics human rights bioethics cultural diversity and multiculturalism Religious Diversity, State, and Law Joseph Marko, Maximilian Lakitsch, Franz Winter, Wolfgang Weirer, Kerstin Wonisch, 2022-10-17 Globalisation migration and de secularisation have fundamentally transformed the concepts of religion state and law during the last decades The main goal of this

interdisciplinary approach is to clarify the multifaceted theoretical and practical challenges of religious diversity and socio political pluralism in Europe In twenty two chapters the contributions to this volume revisit basic concepts structures and institutional settings such as sovereignty the dogma of the separation of state church and or religion human and minority rights gender and religion varieties of fundamentalisms interreligious dialogue and peacebuilding and not least religious education

Routledge Handbook of Law and Religion Silvio Ferrari, 2015-03-05 The field of law and religion studies has undergone a profound transformation over the last thirty years looking beyond traditional relationships between State and religious communities to include rights of religious liberty and the role of religion in the public space This handbook features new specially commissioned papers by a range of eminent scholars that offer a comprehensive overview of the field of law and religion The book takes on an interdisciplinary approach drawing from anthropology sociology theology and political science in order to explore how laws and court decisions concerning religion contribute to the shape of the public space Key themes within the book include Religions symbols in the public space Religion and security Freedom of religion and cultural rights Defamation and hate speech Gender religion and law This advanced level reference work is essential reading for students researchers and scholars of law and religion as well as policy makers in the field

Public Theology, Religious Diversity, and Interreligious Learning Manfred L. Pirner, Johannes Lahnemann, Werner Haussmann, Susanne Schwarz, 2018-06-14 This book describes the relationship of Christian Public Theology to other religions and their ways of contributing to the common good It also promotes mutual learning processes in public education to strengthen the public role and responsibility of religions in pluralistic societies This volume brings together not only public education and public theology but also scholars from a variety of disciplines such as philosophy cultural studies and sociology and from different parts of the world By doing so the book intends to widen the horizon and provide fresh impulses for public theology as well as the discourse on public religious education

Human Rights and Diverse Societies François Crépeau, 2014-07-08 Over sixty years after the Universal Declaration of Human Rights it has been widely observed that human rights resonate differently in various settings This book addresses the timely and important question of how to understand human rights in a world of increasing diversity The effects of globalization and the increasing mobility of persons and peoples have further deepened and multiplied the sites of interaction between different cultures religions and ethnicities These changes have been a source of enrichment as multiculturalism interculturalism and diversity permeate our daily lives Yet they have also revealed important societal cleavages different conceptualizations of human rights and divergent values and beliefs about moral ethical cultural and religious issues In societies characterized by diverse social ethnic religious and cultural communities it becomes critical to examine how to reconcile the tensions between respect for group based identities and differences the robust protections of individual rights and freedoms and the maintenance of community solidarity and social cohesion It is these tensions mediated through debates about the interaction between human rights and diversity that this book addresses

Eschewing any simple reconciliation of human rights and universalism this book aspires to identify alternative frameworks that can facilitate the conceptualization of and help find solutions to the complex global human rights issues in diverse societies In engaging with both the theoretical perspectives that question the universality of human rights as well as assessing the practicality of diverse applications of human rights this collection of essays explores how human rights can be employed to empower historically excluded and marginalized groups Taking diversity into account in thinking about the universal aspirations of human rights protection requires us to reframe the question Rather than asking whether human rights are universal we need to ask how the universal principles underlying human rights are practically and tangibly realized in diverse contexts and communities Through critical reflection and a reexamination of the concepts categories institutions and frontiers of human rights this book contributes to an ongoing dialogue about human rights discourse and theory Yet beyond its contribution to scholarly debates it is our hope that this book will contribute to the development of concrete tangible and institutional strategies for advancing the protection of human rights in diverse societies

Religious Education in a World of Religious Diversity Wilna A.J. Meijer, Siebren Miedema, Alma Lanser-van der Velde, 2009 This volume brings together a selection of papers presented at the Fifteenth Session of the International Seminar on Religious Education and Values ISREV which took place in 2006 in Driebergen the Netherlands addressing the theme Religious Education in a World of Religious Diversity The authors were invited to combine the concept of diversity with the dimensions of temporality of time and history in reworking their contributions for this book This temporal aspect is in a sense inherent in educational thinking On the one hand education as intergenerational transmission has a conservative aspect tradition being what is actually and presently transmitted from the past and or what is considered worthwhile to be passed on On the other hand acknowledging the activity of students themselves as a prerequisite for any education to happen brings the open endedness and therefore the future into the pedagogical arena in terms of development learning reflection edification et cetera So the question answered in this volume is what does this inherent historicity mean for religious education as well as for the concept religion and religious diversity In answering this question the contributions represent the global character of the concern with religious diversity in relation to religious education and originate respectively from the following countries Canada Bhikkhu English United States Moran Latvia Ilishko Russia Kozyrev Germany Pirner South Africa Roux du Preez Ferguson Japan Omori Australia de Souza Turkey Sel uk and the Netherlands Meijer Miedema
