Deep Cosmopolis Adam K. Webb, 2015-05-15 Too often observers of globalization take for granted that the common ground across cultures is a thin layer of consumerism and perhaps human rights If so then anything deeper and more traditional would be placebound and probably destined for the dustbin of history But must this be so Must we assume as both liberals and traditionalists now tend to do that one cannot be a cosmopolitan and take traditions seriously at the same time This book offers a radically different argument about how traditions and global citizenship can meet and suggests some important lessons for the contours of globalization in our own time Adam K Webb argues that if we look back before modernity we find a very different line of thinking about what it means to take the whole world as one's horizon Digging into some fascinating currents of thought and practice in the ancient world the Middle Ages and the early modern period across all major civilizations Webb is able to reveal patterns of deep cosmopolitanism with its logic quite unlike that of liberal globalization today In their more cosmopolitan moments everyone from clerics to pilgrims to empire builders was inclined to look for deep ethical parallels points of contact among civilizations and traditions Once modernity swept aside the old civilizations however that promise was largely forgotten We now have an impoverished view of what it means to embrace a tradition and even what kinds of conversations across traditions are possible In part two Webb draws out the lessons of deep cosmopolitanism for our own time If revived it has something to say about everything from the rise of new non Western powers like China and India and what they offer the world to religious tolerance to global civil society to cross border migration Deep Cosmopolis traces an alternative strand of cosmopolitan thinking that cuts across centuries and civilizations It advances a new perspective on world history and a distinctive vision of globalization for this century which has the real potential to resonate with us all

Secular Faith Vincent William Lloyd, Elliot A. Ratzman, 2011-01-01 Is faith a necessary virtue in the contemporary world May it be or must it be detached from religious commitment What do genealogies of the secular tell us about faith Does religion need secular faith Secular Faith brings together leading and emerging scholars to reflect on the apparent paradox of secular faith Ranging over anthropology religious studies political science history and literature from Muslims in China to Pentecostals in South Africa to a prison chapel in Texas this collection of essays is as engaging and accessible as it is penetrating and rigorous Communism was once labeled the god that failed Like Christianity Communism involves faith in a superhuman endeavor conversion myth discipline and salvation and from the perspective of secular liberalism both are unjustified and false In recent years scholars have begun to investigate whether secularism is itself based on faith in a god that failed or is failing Nevertheless many still

embrace such a faith finding in the spirit of democracy an ethos of eternal renewal Secular Faith enters and broadens this conversation interrogating secular faith in a global context tapping new theoretical resources and grappling provocatively with the tragedies and opportunities of today s profane pantheon of beliefs LIST OF ESSAYS AND THEIR CONTRIBUTORS 1 Uncool Passion Nietzsche Meets the Pentecostals Jean Comaroff 21 2 The Secular Bad Faith of Harry Thiel the Bishop of Tellus Joshua Dubler 44 3 Darwin s Dogs Animals Animism and the Problem of Religion David Chidester 76 4 I Have Seen Miracles in My Life W E B Du Bois and the Religious Limits of Secularism Edward J Blum 102 5 Democracy Piety and Faith A Reading of Dewey s Religious Naturalism Melvin Rogers 126 6 Faith in the Time of Postsocialism Cindy Huang 153 7 Literary Enchantment and Literary Opposition from Hume to Scott Colin Jager 168 8 Imagined Communities Holistic Histories and Secular Faith Michael Saler 197 9 Interreligious Dialogue and Cosmopolitan Faith Adam K Webb 226

Joseph Carens: Between Aliens and Citizens Matthias Hoesch, Nadine Mooren, 2020-08-11 This book offers a critical discussion of Joseph Carens s main works in migration ethics covering themes such as migration naturalization citizenship culture religion and economic equality The volume is published on the occasion of the annual Münster Lectures in Philosophy held by Joseph Carens in the fall of 2018 It documents the intellectual exchange with the well known philosopher Joseph Carens by offering critical contributions on Carens s work and commentaries of Carens as a reply to these critical contributions With his various works on migration ethics Joseph Carens must be seen as one of the leading academics in the political and ethical discourse of migration in the last years The topic of migration raises questions not only regarding naturalization and citizenship but also cultural economic and religious differences between aliens citizens and persons whose status lies in between and calls for further determination Such questions gain more and more importance in our globalized world as can be seen for example in the context of the refugee crisis in the European Union and the U S The book covers different systematic topics of Carens s work as can be found in his widely read book *The Ethics of Immigration* but also in further publications It provides papers with critical discussions of Carens s work as well as his responses to these thus enabling and documenting the fruitful dialogue between the contributors and Carens himself The

aim of this book is to sharpen and shed light on Carens's arguments concerning migration by offering new and critical perspectives and fine grained analyses Democracy and Religion David W. Odell-Scott, 2004 This book explores the interrelations of politics and religion The work is divided into four main sections the constitutional debate regarding the establishment and free exercise of religion clause the themes of violence and nonviolence as they relate to religion the free exercise of religion and the rise of fundamentalism and the challenges to the free exercise of diverse religious practices in a democratic society The Limits of Religious Tolerance Alan Jay Levinovitz, 2016-10-21 Religion's place in American public life has never been fixed As new communities have arrived as old traditions have fractured and reformed as cultural norms have been shaped by shifting economic structures and the advance of science and as new faith traditions have expanded the range of religious confessions within America's religious landscape the claims posited by religious faiths and the respect such claims may demand have been subjects of near constant change In The Limits of Religious Tolerance Alan Jay Levinovitz pushes against the widely held and often unexamined notion that unbounded tolerance must and should be accorded to claims forwarded on the basis of religious belief in a society increasingly characterized by religious pluralism Pressing at the distinction between tolerance and respect Levinovitz seeks to offer a set of guideposts by which a democratic society could identify and observe a set of limits beyond which religiously grounded claims may legitimately be denied the expectation of unqualified non interference
