Littell, 1873 **The Touch of Aphrodite** Joanna Mansell, 1993 **Poems** John Francis O'Donnell, 1891 **Stray leaves, including translations from the lyric poets of Germany, with brief notices of their works** Stray leaves, 1827 **From War to Peace** Nick Robins, 2021-09-30

From War to Peace tells the story of the adaptation from White Ensign to Red Ensign and to flags of other nations of the numerous classes of naval ships mainly built during the two world wars and surplus to requirements with the advent of peace It also describes ships sourced from the United States Navy and elsewhere that were converted for commercial use The most successful classes to transfer to the merchant service were the Hunt class minesweepers of the Great War Landing Craft Tank the salvage tugs of World War Two and the wooden hulled Fairmile launches which became familiar at seaside resorts in the 1950s and 60s and of course the MFV classes that helped the fishing industry in the postwar years The story includes the successful commercial conversions of many of the Flower and Castle Class corvettes and River Class frigates notably the 1954 conversion of HMCS Stormont to a luxury yacht for the Greek shipping magnate Onassis It describes why HMS Charybdis became a passenger liner in the Great War and how HMS Albatross nearly became a luxury liner after World War Two but in fact was transformed into a very unpopular emigrant ship and ended her days as a floating casino based at Cape Town The author reveals the military antecedents of numerous commercial vessels that many would have thought were built especially for the service that they later maintained and it illustrates just how many Royal Navy vessels ended up in private ownership And the question is asked if the military had not built so many ships that were eminently suitable for commercial adaptation would the technical development of merchant shipping have progressed at a faster rate than it did The answer is a definite no and is illustrated in several ways It was former naval vessels that promoted the early development of the Ro Ro ferry former naval ships introduced numerous design innovations for example the raised foredeck common for so many years on salvage tugs and above all stripped of their military hardware ex naval ships provided opportunities for modest investment

where otherwise there would have been none Copiously illustrated throughout the book tells a fascinating story of invention and ingenious ship conversion and of pragmatic adaptation in the financially stringent years after two world wars
