Rembrandt Reputation And The Practice Of Connoisseurship:

Rembrandt, Reputation, and the Practice of Connoisseurship Catherine B. Scallen, 2004 Annotation Elizabeth A Kaye specializes in communications as part of her coaching and consulting practice She has edited Requirements for Certification since the 2000 01 edition **A Corpus of Rembrandt Paintings VI** Ernst van de Wetering, 2014-11-11 A revised survey of Rembrandt's complete painted oeuvre The question of which 17th century paintings in Rembrandt's style were actually painted by Rembrandt himself had already become an issue during his lifetime It is an issue that is still hotly disputed among art historians today The problem arose because Rembrandt had numerous pupils who learned the art of painting by imitating their master or by assisting him with his work as a portrait painter He also left pieces unfinished to be completed by others The question is how to determine which works were from Rembrandt's own hand Can we for example define the criteria of quality that would allow us to distinguish the master's work from that of his followers Do we yet have methods of investigation that would deliver objective evidence of authenticity To what extent do research techniques used in the physical sciences help Or are we after all still dependent on the subjective expert eye of the connoisseur The book provides answers to these questions Prof Ernst van de Wetering the author of our forthcoming book which deals with these questions has been closely involved in all aspects of this research since 1968 the year the renowned Rembrandt Research Project RRP was founded In particular he played an important role in developing new criteria for authentication Van de Wetering was also witness to the way the often overly zealous tendency to doubt the authenticity of Rembrandt's paintings got out of hand In this book he re attributes to the master a substantial number of unjustly rejected Rembrandts He also was closely involved in the re discovery of a considerable number of lost or completely unknown works by Rembrandt The verdicts of earlier specialists including the majority of members of the original RRP up to 1989 were based on connoisseurship the self confidence in one's ability to recognise a specific artist's style and hand Over the years Van de Wetering has carried out seminal research into 17th century studio practice and ideas about art current in Rembrandt's time In this book he demonstrates the fallibility of traditional connoisseurship especially in the case of Rembrandt who was par excellence a searching artist The methodological implications of this critical view are discussed in an introductory chapter which relates the history of the developments in this turbulent field of research Van de Wetering's account of his own involvement in it makes this book a lively and sometimes unexpectedly personal account The catalogue section presents a chronologically ordered survey of Rembrandt's entire painted oeuvre of 336 paintings richly illustrated and annotated For all the paintings re attributed in this book extensive commentaries have been included that provide a multi faceted new insight into Rembrandt's world and the world of art historical research Rembrandt's Paintings Revisited is the concluding sixth volume of A Corpus of Rembrandt Paintings Volumes I V 1982 1986 1989 2005 2010 It can also be read as a revisionary critique of the first three Volumes published by the old RRP team up till 1989 and of Gerson's influential survey of Rembrandt

s painted oeuvre of 1668-69. At the same time the book is designed as an independent overview that can be used on the basis that anyone seeking more detailed information will be referred to the five previous digital versions of the Volumes and the detailed catalogues published in the meantime by the various museums with collections of Rembrandt paintings. This work of art history and art research should belong in the library of every serious art historical institute, university or museum.

Spaces of Connoisseurship Alison Clarke, 2022-07-18. In *Spaces of Connoisseurship* Alison Clarke explores the who, where and how of judging Old Master paintings in the nineteenth-century British art trade. She describes how the staff at family art dealers Thomas Agnew Sons, Agnew's and London's National Gallery took advantage of emerging technologies such as the railways and photography. Through encounters with pictures in a range of locations, both private and public, these art market actors could build up the visual memory and necessary expertise to compare artworks and judge them in terms of attribution, condition and beauty. Also explored are the display tactics adopted by both commercial outfit and art museum to showcase pictures once acquired. In a time of ever-spiralling art prices, this book tackles the question of why some paintings are preferred over others and exactly how art experts reach their judgements. **Going Dutch** Joyce Diane

Goodfriend, Benjamin Schmidt, Annette Stott, 2008-01-01. This volume investigates the place of Dutch history and Dutch-derived culture in America over the last four centuries. It considers how the Dutch have fared in America and it explores how American conceptions of Dutchness have developed from Henry Hudson's historic voyage to Manhattan in 1609 through the rise of Dutch design at the turn of the twenty-first century. Essays probe a rich array of topics: Dutch themes in American arts and letters; the place of Dutch paintings in American collections; shifting American interests in Dutch art, literature and architecture; the experience of Dutch immigrants in America; and the Dutch Reformed Church in America. *Going Dutch* presents a much-needed overview of the Dutch American experience from its beginnings to the present. Contributors include Julie Berger Hochstrasser, Willem Frijhoff, Joyce D. Goodfriend, Hans Krabbendam, Joseph Manca, Nancy T. Minty, Mark A. Peterson, Christopher Pierce, Judith Richardson, Louisa Wood, Ruby Benjamin, Benjamin Schmidt, Robert Schoone Jongen, Annette Stott, Tity de Vries and Dennis P. Weller. Late Style and its Discontents Gordon McMullan, Sam Smiles, 2016-10-06. Late style is a

critical term routinely deployed to characterise the work of selected authors, composers and creative artists as they enter their last phase of production, often but not only in old age. Taken at face value, this terminology merely points to a chronological division in the artist's oeuvre, late being the antonym of early or the third term in the triad early-middle-late. However, almost from its inception, the idea of late style or late work has been freighted with aesthetic associations and expectations that promote it as a special episode in the artist's creative life. Late style is often characterised as the imaginative response made by exceptional talents to the imminence of their death. In their confrontation with death, creative artists, critics claim, produce work that is by turns a determination to continue while strength remains, a summation of their life's work and a radical vision of the essence of their craft. And because this creative phenomenon is understood as primarily

an existential response to a common fate so late style is understood as something that transcends the particularities of place time and medium Critics seeking to understand late work regularly invoke the examples of Titian Goethe and Beethoven as exemplars of what constitutes late work proposing that something unites the late style of authors composers and creative artists who otherwise would not be bracketed together and that lateness per se is a special order of creative work The essays in this collection resist this position Ranging across literature the visual arts music and scientific work the material assembled here looks closely at the material biographical and other contexts in which the work was produced and seeks both to question the assumptions surrounding late style and to prompt a more critical understanding of the last works of writers artists and composers

Oscar Wilde and the Cultures of Childhood Joseph Bristow, 2017-11-09 This is the first collection of critical essays that explores Oscar Wilde's interest in children's culture whether in relation to his famous fairy stories his life as a caring father to two small boys his place as a defender of children's rights within the prison system his fascination with youthful beauty and his theological contemplation of what it means to be a child in the eyes of God The collection also examines the ways in which Wilde's works not just his fairy stories have been adapted for young audiences

Shaky Ground Elizabeth Marlowe, 2013-10-10 The recent crisis in the world of antiquities collecting has prompted scholars and the general public to pay more attention than ever before to the archaeological findspots and collecting histories of ancient artworks This new scrutiny is applied to works currently on the market as well as to those acquired since and despite the 1970 UNESCO Convention which aimed to prevent the trafficking in cultural property When it comes to famous works that have been in major museums for many generations however the matter of their origins is rarely considered Canonical pieces like the Barberini Togatus or the Fonseca bust of a Flavian lady appear in many scholarly studies and virtually every textbook on Roman art But we have no more certainty about these works archaeological contexts than we do about those that surface on the market today This book argues that the current legal and ethical debates over looting ownership and cultural property have distracted us from the epistemological problems inherent in all ostensibly ancient artworks lacking a known findspot problems that should be of great concern to those who seek to understand the past through its material remains
