Rene Guenon Some Observations:

René Guenon Frithjof Schuon, 2004 René Guenon 1886-1951 was the founder of the Traditionalist School Along with Ananda K Coomaraswamy and Frithjof Schuon he reintroduced traditional metaphysics and esoterism into the Western world after a lapse of centuries and was perhaps the first to present the doctrines of the Vedanta Taoism and Sufism not as Eurocentric orientalist or occult fantasists had done but strictly in their own terms To the mathematical precision of Guenon's metaphysics cosmology and esoteric history Frithjof Schuon 1907-1998 added a poetic or musical element inspired by his close relationship to the Divine Feminine He also presented the spiritual path as a concrete praxis involving the spiritual virtues and stations of wisdom that was not so prominent in Guenon's writings On the other hand Guenon's prophetic eschatology especially in *The Reign of Quantity and the Signs of the Times* as well as his analysis of the counter tradition gives him an unexpectedly contemporary edge that is perhaps less prominent in Schuon's more aesthetic approach René Guenon and Frithjof Schuon illuminate each other both through their unanimity and the specific points where they differ Each is almost the only means of taking the other's measure Questions of who was greater who more traditional are finally less interesting than the tremendous vision of human reality and spiritual truth that emerges from their shared role as renewers of traditional metaphysics and religious understanding Schuon as the younger man was in a position to compose an evaluation of his early intellectual master and in view of his long and illustrious career as an author after Guenon's death Schuon's central essay *René Guenon Some Observations* is also his profoundly appreciative as well as pointedly critical declaration of independence though simultaneously a declaration of collegiality from the man who more than anyone else in the modern world opened to him a fundamental view of principial reality

The Serpent Symbol in Tradition Charles Dailey, 2022-01-24 Serpent and dragon symbolism is ubiquitous in the art and mythology of premodern cultures around the world Over the centuries conflicting hypotheses have been proposed to interpret this symbolism which while illuminating have proved insufficient to the task of revealing a singular meaning for the vast majority of examples In *The Serpent Symbol in Tradition* Dr Dailey argues that in what the symbolist Rene Guenon and the historian of religions Mircea Eliade have called traditional or archaic societies the serpent dragon transculturally symbolizes matter a state of being that is constituted by the perception of the physical world as chaotic in comparison to what traditional peoples believed to be the higher meta physical source of the physical world or nature In the course of Dr Dailey's investigations into the meaning of traditional serpent dragon symbolism the following contributions have proved invaluable 1 Gu non's interpretation of the language of traditional symbolism and the metaphysics that underlies it as well as his interpretation of

the terminology of the Hindu Doctrines 2 Eliade's interpretation of traditional archaic societies by means of his concepts of chaos creation Axis Mundi World Axis and Sacred and Profane and 3 the insights of various other researchers of serpent dragon symbolism Beyond purporting to resolve some of the mystery of the ancient and varied symbolism of the serpent dragon The Serpent Symbol in Tradition strives to serve the related functions of interpreting the symbolic meanings of a wide variety of premodern artifacts and narratives as well as providing a study of the origination and ancient human awareness of the mentioned state of matter
