Rethinking God As Gift Marion Derrida And The Limits Of Phenomenology:

Rethinking God as Gift Robyn Horner, 2001 At once rigorous insightful and accessible the most thorough study yet available on the phenomenological treatment of God as gift in Marion and Derrida Invaluable reading for those concerned with the theological promise of contemporary Continental philosophy Thomas A Carlson University of California Santa Barbara

Self and Other: Essays in Continental Philosophy of Religion Eugene Thomas Long, 2007-04-11 The essays in this volume focus on some of the topics that are shaping recent continental philosophy of religion These primary topics include self and other evil and suffering religion and society and the relation between philosophy and theology The articles are by an international group of leading contributors to recent continental philosophy of religion

The Ground of the Image Jean-Luc Nancy, 2009-08-25 If anything marks the image it is a deep ambivalence Denounced as superficial illusory and groundless images are at the same time attributed with exorbitant power and assigned a privileged relation to truth Mistrusted by philosophy forbidden and embraced by religions manipulated as spectacle and proliferated in the media images never cease to present their multiple aspects their paradoxes their flat but receding spaces What is this power that lies in the depths and recesses of an image which is always only an impenetrable surface What secrets are concealed in the ground or in the figures of an image which never does anything but show just exactly what it is and nothing else How does the immanence of images open onto their unimaginable others their imageless origin In this collection of writings on images and visual art Jean Luc Nancy explores such questions through an extraordinary range of references From Renaissance painting and landscape to photography and video from the image of Roman death masks to the language of silent film from Cleopatra to Kant and Heidegger Nancy pursues a reflection on visibility that goes far beyond the many disciplines with which it intersects He offers insights into the religious cultural political art historical and philosophical aspects of the visual relation treating such vexed problems as the connection between image and violence the sacred status of images and in a profound and important essay the forbidden representation of the Shoah In the background of all these investigations lies a preoccupation with finitude the unsettling forces envisaged by the images that confront us the limits that bind us to them the death that stares back at us from their frozen traits and distant intimacies In these vibrant and complex essays a central figure in European philosophy continues to work through some of the most important questions of our time

The Implications of Immanence Leonard Lawlor, 2006 Leonard Lawlor develops a philosophy of life in opposition to the notion of bio power which reduces the human to the question of power over what Giorgio Agamben terms bare life mere biological existence He provides conceptual tools for intervening in issues such as the AIDS epidemic life support for the infirm

Aspects of Alterity Brian Treanor, 2006 Every other is truly other but no other is wholly other This is the claim that Aspects of Alterity defends Taking up the question of otherness that so fascinates contemporary continental philosophy this book asks what it means for something or someone to be other than the self After a thorough assessment and critique of

otherness in Levinas's and Marcel's work including a discussion of the relationship of ethical alterity to theological assumption. *Aspects of Alterity* traces the transmission and development of these two conceptions of otherness. Ultimately *Aspects of Alterity* makes a case for a hermeneutic account of otherness. Jacket Gadamer and the Question of the Divine Walter Lammi, 2011-10-27. *Gadamer and the Question of the Divine* uncovers a neglected side of Gadamer's thought, namely his life-long concern with the question of the divine. Not only is this an issue of fundamental importance to philosophical hermeneutics, but it also contributes to what Gadamer considered to be the most urgent task of our time: a conceptual dialogue among religions. New grounds for toleration among communities must be found, and Gadamer's study of the divine provides both a model and a starting place for doing so. In setting forth a conceptual narrative for global dialogue about religious transcendence, Gadamer is the pre-eminent twentieth-century philosopher of the divine. Gadamer's study of the divine is an application of philosophical hermeneutics and phenomenological in its descriptions of temporality and the experience of art. Walter Lammi shows how Gadamer provides us with a richly textured study of the divine that finds its bearings in Heidegger and the Greeks and suggests a path to questions of cosmology, temporality, and religious experience.

Key Theological Thinkers Svein Rise, 2016-04-22. The 20th and 21st Centuries have been characterized by theologians and philosophers rethinking theology and revitalizing the tradition. This unique anthology presents contributions from leading contemporary theologians including Rowan Williams, Fergus Kerr, Aidan Nichols, G. R. Evans, and Tracey Rowland, who offer portraits of over fifty key theological thinkers in the modern and postmodern era. Distinguished by its broad ecumenical perspective, this anthology spans arguably one of the most creative periods in the history of Christian theology and includes thinkers from all three Christian traditions: Protestant, Catholic, and Orthodox. Each individual portrait in this anthology includes a biographical introduction, an overview of theological or philosophical writing, presentation of key thoughts, and contextual placing of the thinker within 20th-century religious discourse. Overview articles explore postmodern theology, radical orthodoxy, ecumenical theology, feminist theology, and liberation theology. A final section includes portraits of important thinkers who have influenced Christian thought from other fields, not least from Continental philosophy and literature. Exploring Lost Dimensions in Christian Mysticism Louise Nelstrop, Simon D. Podmore, 2016-04-15. Mystical theology has developed through a range of meanings, from the hidden dimensions of divine significance in the community's interpretation of its scriptures to the much later science of the soul's ascent into communion with God. The thinkers and questions addressed in this book draw us into the heart of a complicated, beautiful, and often tantalisingly unfinished conversation continuing over centuries and often brushing allusively into parallel concerns in other religions. Raising fundamental matters of epistemology, representation, metaphysics, and divine reality, contributors approach the mystical from postmodern, feminist, sociological, and historical perspectives through thinkers such as Meister Eckhart, Thomas Aquinas, Catherine of Siena, Ignatius of Loyola, William James, Evelyn Underhill, Ernst Troeltsch, Rudolf Otto, Jacques Derrida, Jean-Luc

Marion and Jean Louis Chr tien Medieval and early modern radical prophetic approaches are also explored This book includes new essays by Sarah Apetrei Tina Beattie Raphael Cadenhead Oliver Davies Philip Endean Brian FitzGerald Ann Loades George Pattison Simon D Podmore Joel D S Rasmussen and Johannes Zachhuber **Prospects of Legal Semiotics** Anne Wagner, Jan M. Broekman, 2010-09-24 This book examines the progress to date in the many facets conceptual epistemological and methodological of the field of legal semiotics It reflects the fulfilment of the promise of legal semiotics when used to explore the law its processes and interpretation This study in Legal Semiotics brings together the theory structure and practise of legal semiotics in an accessible style The book introduces the concepts of legal semiotics and offers an insight in contemporary and future directions which the semiotics of law is going to take A theoretical and practical oriented synthesis of the historical contemporary and most recent ideas pertaining to legal semiotics the book will be of interest to scholars and researchers in law and social sciences as well as those who are interested in the interdisciplinary dynamics of law and semiotics Religion and European Philosophy Philip Goodchild, Hollis Phelps, 2017-04-13 Religion and European Philosophy Key Thinkers from Kant to i ek draws together a diverse group of scholars in theology religious studies and philosophy to discuss the role that religion plays among key figures in the European philosophical tradition Designed for accessibility each of the thirty four chapters includes background information on the key thinker an overview of the main themes concepts and concerns that occupy his or her attention and a discussion of the religious and theological elements present in his or her thought in light of contemporary issues Given the scope of the volume Religion and European Philosophy will be the go to guide for understanding the religious and theological dimensions of European philosophy for both students and established researchers alike
