Rise And Decline Of The English Working Class:

The Rise and Decline of the English Working Classes 1918-1990 Eric Hopkins,1991-01-01 **The Longman Companion to Britain in the Era of the Two World Wars 1914-45** Andrew Thorpe,2014-09-19 In the momentous period barely 30 years covered by this systematic reference guide the Edwardian world was transformed unrecognisably through war technological progress and social change into the Nuclear Age It saw the coming of mass democracy the apogee of empire the Depression the threat of fascism the development of suburban society and as yet scarcely understood the end of Britain s international hegemony Andrew Thorpe s superb contribution to the Companions series illuminates all this and much else It will be indispensable to anyone interested in the history and politics of modern Britain **Working-Class Community in the Age of Affluence** Stefan Ramsden,2017-02-24 It has appeared to many commentators that the most fundamental change in what it is meant to be working class in twentieth century Britain came not as a result of war or of want but of prosperity Social investigators documented how the relative affluence of the 1950s and 1960s improved the material conditions of life for working class Britons whilst eroding their commitment to the shared life of traditional communities Utilising an oral history case study of sociability and identity in the Yorkshire town of Beverley between the end of the Second World War and the election of Margaret Thatcher s government *Working Class Community in the Age of Affluence* challenges this influential narrative An introductory essay outlines how sociologists and historians understood the complex social cultural and economic changes of the post war decades through the prism of affluence and traces how these changes came to be seen as deleterious to the traditional working class community The book then proceeds thematically exploring change across areas of social life including family neighbourhood workplace and associational life This book represents the first sustained historical analysis of change and continuity in working class community living during the age of affluence It suggests not only that older social practices persisted but also that new patterns of sociability could strengthen as much as undermine community Ultimately *Working Class Community in the Age of Affluence* asks us to rethink assumptions about the decline of local solidarities in this pivotal period and to recognise community as a key feature of working class life across the twentieth century **The Rise and Decline of the English Working Class 1918-1990** Eric Hopkins,1991 **A Companion to Contemporary Britain 1939 - 2000** Paul Addison,Harriet Jones,2008-04-15 A Companion to Contemporary Britain covers the key themesand debates of 20th century history from the outbreak of the SecondWorld War to the end of the century Assesses the impact of the Second World War Looks at Britain s role in the wider world including thelegacy of Empire Britain s specialrelationship with the United States and integration withcontinental Europe Explores cultural issues such as class consciousness immigration and race relations changing gender roles and theimpact of the mass media Covers domestic politics and the economy Introduces the varied perspectives dominating historicalwriting on this period Identifies the key issues which are likely to fuel futuredebate *20th Century Britain*

Francesca Carneval, Julie-Marie Strange, 2014-06-11 Written by leading international scholars *Twentieth Century Britain* investigates key moments themes and identities in the past century Engaging with cutting edge research and debate the essays in the volume combine discussion of the major issues currently preoccupying historians of the twentieth century with clear guidance on new directions in the theories and methodologies of modern British social cultural and economic history Divided into three the first section of the book addresses key concepts historians use to think about the century notably class gender and national identity Organised chronologically the book then explores topical thematic issues such as multicultural Britain religion and citizenship Representing changes in the field some chapters represent more recent fields of historical inquiry such as modernity and sexuality

The Rise and Fall of Class in Britain David Cannadine, 1999 Although politicians in Britain are now calling for a classless society can one conclude as do many scholars that class does not matter anymore Cannadine uncovers the meanings of class for such disparate figures as Adam Smith Karl Marx and Margaret Thatcher and identifies the moments when opinion shifted such as the aftermath of the French Revolution and the rise of the Labour Party in the early twentieth century

The fall and rise of the English upper class Daniel R. Smith, 2023-04-18 The fall and rise of the English upper class explores the role traditionalist worldviews articulated by members of the historic upper class have played in British society in the shadow of her imperial and economic decline in the twentieth century Situating these traditionalist visions alongside Britain's post Brexit fantasies of global economic resurgence and a socio cultural return to a green and pleasant land Smith examines Britain's Establishment institutions the estates of her landed gentry and aristocracy through to an appetite for nostalgic products represented with pastoral or pre modern symbolism It is demonstrated that these institutions and pursuits play a central role in situating social cultural and political belonging Crucially these institutions and pursuits rely upon a form of membership which is grounded in a kinship idiom centred upon inheritance and descent who inherits the houses of privilege inherits England

Modern Britain Third Edition Edward Royle, 2012-04-10 Fully revised and updated the third edition of this deservedly popular history book incorporates new currents in historical writing on matters such as the language of class the position of women and the revolution worked by the Internet and mobile technologies

Youth Movements, Citizenship and the English Countryside Sian Edwards, 2017-11-28 This book explores the significance and meaning of the countryside within mid twentieth century youth movements It examines the ways in which the Boy Scouts Girl Guides Woodcraft Folk and Young Farmers Club organisations employed the countryside as a space within which good citizenship in leisure work the home and the community could be developed Mid century youth movements identified the problem of modern youth as a predominantly urban and working class issue They held that the countryside offered an effective antidote to these problems being a good citizen within this context necessitated a respectful and mutually beneficial relationship with the rural sphere Avenues to good citizenship could be found through an enthusiasm for outdoor recreation the stewardship of the countryside and work on the land However

models of good citizenship were intrinsically gendered

Industrialisation and Society Eric Hopkins, 2013-01-11

Industrialisation and Society provides an essential introduction to the effects of industrialisation on British society from Queen Victoria's reign to the birth of the welfare state in the 1940s. This book deals with the remarkable social consequences of the industrial revolution as Britain changed into an urban society based on industry. As the first nation to undergo an industrial revolution, Britain was also the first to deal with the unprecedented social problems of rapid urbanisation combined with an unparalleled growth in population. *Industrialisation and Society* looks at contemporary ways in which the government and ordinary people tried to cope with these new pressures and studies their reactions to the unforeseen consequences of the steam revolution. In particular, this indispensable book considers the Victorian inheritance, Edwardian England and the Liberal reforms, the two world wars, the Welfare State.

Cultures of Selling Laura Ugolini, 2018-12-07

The study of consumption and its relationship to cultural and social values has become a vibrant and important field in recent years. Hitherto, however, relatively few detailed and full-length works on this topic have been published. In what will become a seminal volume, this book examines retail selling in various historical contexts and locations as both an activity at once mundane and almost universal. The book introduces the reader to the existing literature relevant to the subject and explores the widespread perceptions of moral ambiguity surrounding the practice of selling consumer goods, ranging from concerns about the adulteration of goods to fears about sharp practice on the part of retailers and places such concerns in the context of wider societal values and ideas. The ambivalence towards retail selling and sellers is also a central focus of the collection, focussing on the attempts by retailers to develop selling techniques and successful practices of salesmanship and at the same time establish widely shared understandings of good retailing. The book also delves into the more dubious practices of retail selling, including practices on the margin of legality, the issue of credit and changing attitudes towards debt. Uniquely, the book examines how sales techniques relate to the wider context of a whole shopping experience or shopping environment. Taken as a whole, this volume will provide a first port of call for students, researchers and others interested in exploring consumer cultures and the cultural norms and practices involved in the sale of consumer goods in various historical periods and geographical contexts.

Rise and Fall of the UK Film Council Gillian Doyle, 2015-08-18

Drawing on interviews with leading film executives, politicians and industry stakeholders including Alan Parker, Stewart Till and Tim Bevan, this book provides an empirically grounded analysis of the rise and unexpected fall of the UK Film Council, the key strategic body responsible for supporting film in the UK for over a decade. As well as offering a critical overview of the political policy and technological contexts which framed the organisation's creation, existence and eventual demise, the book provides a probing analysis of the tensions between national and global interests in an increasingly transnational film industry, not least underlining how both US and EU interests and pressures have played themselves out. It therefore provides a timely and significant investigation into the contemporary policy environment for film in the 21st century.

A Hundred English

Working-Class Lives, 1900-1945 Rebecca Ball, 2024-07-11 Stanley Rice born in London in 1905 began his autobiography by stating that his life was an ordinary average life with all its ups and downs Stanley may have described his life as ordinary and yet he lived through a period of rapid social change including two world wars Despite this Stanley assumed that his life story would be of little interest to most readers as he had not achieved great fame or any notable accolades This book argues that this is exactly why historians should focus on such life stories as there is much to be gained by focusing on memories of ordinary average lives as they can expand our knowledge of the past often revealing firsthand experiences that have been excluded from the historical record This book does not intend to be a general social history of the working class Rather it is a work of memory drawing upon a microhistory methodology to examine how a sample of one hundred working class autobiographers remembered and wrote about living through years that were punctuated by two worldwide conflicts and a global economic depression

The Rise and Fall of Radical Westminster, 1780-1890 M. Baer, 2012-07-25 The Rise and Fall of Radical Westminster 1780 1890 explores a critical chapter in the story of Britain's transition to democracy Utilising the remarkably rich documentation generated by Westminster elections Baer reveals how the most radical political space in the age of oligarchy became the most conservative and tranquil in an age of democracy

The Casino, Card and Betting Game Reader Mark R. Johnson, 2021-12-30 Casino games and traditional card games have rich and idiosyncratic histories complex subcultures and player practices and facilitate the flow of billions of dollars each year through casinos and card rooms and between professional players and amateurs They have nevertheless been overlooked by game scholars due to the negative ethical weight of gambling with such games pathologized and labelled as deviance or mental illness few look beyond to unpick the games their players and their communities The Casino Card and Betting Game Reader offers 25 chapters studying the communities playing these games the distinctive cultures and practices that have emerged around them their activities and beliefs and interpersonal relationships and how these games influence both positively and negatively the lives and careers of millions of game players around the world It is the first of a new series of edited collections Play Beyond the Computer dedicated to exploring the play of games beyond computers and games consoles

An Analysis of Paul Kennedy's The Rise and Fall of the Great Powers Riley Quinn, 2017-07-05 Paul Kennedy owes a great deal to the editor who persuaded him to add a final chapter to this study of the factors that contributed to the rise and fall of European powers since the age of Spain's Philip II This tailpiece indulged in what was for an historian a most unusual activity it looked into the future Pondering whether the United States would ultimately suffer the same decline as every imperium that preceded it it was this chapter that made The Rise and Fall of the Great Powers a dinner party talking point in Washington government circles In so doing it elevated Kennedy to the ranks of public intellectuals whose opinions were canvassed on matters of state policy From a strictly academic point of view the virtues of Kennedy's work lie elsewhere and specifically in his flair for asking the sort of productive questions that characterize a great problem solver Kennedy's work is an example of an

increasingly rare genre a work of comparative history that transcends the narrow confines of state and era specific studies to identify the common factors that underpin the successes and failures of highly disparate states Kennedy's prime contribution is the now famous concept of imperial overstretch the idea that empires fall largely because the military commitments they acquire during the period of their rise ultimately become too much to sustain once they lose the economic competitive edge that had projected them to dominance in the first place Earlier historians may have glimpsed this central truth and even applied it in studies of specific polities but it took a problem solver of Kennedy's ability to extend the analysis convincingly across half a millennium

The Rise and Fall of British Crusader Medievalism, c.1825-1945 Mike Horswell, 2018-01-29 This book investigates the uses of crusader medievalism the memory of the crusades and crusading rhetoric and imagery in Britain from Walter Scott's *The Talisman* 1825 to the end of the Second World War It seeks to understand why and when the crusades and crusading were popular how they fitted with other cultural trends of the Victorian and Edwardian eras how their use was affected by the turmoil of the First World War and whether they were differently employed in the interwar years and in the 1939-45 conflict Building on existing studies and contributing the fruits of fresh research it brings together examples of the uses of the crusades from disparate contexts and integrates them into the story of the rise and fall crusader medievalism in Britain

The Rise and Fall of the British Empire Lawrence James, 1997-09-15 Covers the history of the British Empire from 1600 to the present day and its transition from ruler of half the world to its current status of isolated economically fragile island

Politics UK Bill Jones, Philip Norton, Isabelle Hertner, 2025-07-31 This revised and updated eleventh edition of the bestselling textbook *Politics UK* is an indispensable introduction to British politics It provides a thorough and accessible overview of the institutions and processes of British government an excellent grounding in British political history and an incisive introduction to the issues and challenges facing Britain today This edition welcomes rigorously updated revised chapters It delivers excellent coverage of contemporary events with significant new material covering the tumultuous end of the dominant Conservative party era under Johnson the brief and contrasting Truss and Sunak premierships followed by the seismic Labour general election victory for Keir Starmer in 2024 and the first stuttering steps of the new administration the continued cost of living crisis and inflation continued challenges around the UK's place in a post Brexit world and position on the invasion of Ukraine climate change and much more Other features of the new edition include A wide range of illustrative material boxes and case studies providing illuminating examples alongside the analysis A comprehensive who's who of politics in the form of Profile boxes featuring key political figures Point of View pieces containing short articles on salient and pressing topics written by distinguished commentators including Sir Anthony Seldon Claire Ainsley David Gauke and James O'Brien Online resources including interactive questions per chapter flashcards of key terms annotated weblinks new discussion questions video interviews with politicians and more With chapters written by highly respected scholars in the field and contemporary articles on real world politics from well known political

commentators this textbook is an essential guide for all students of British politics
