

A woman with dark curly hair, seen from the back, is wearing a bright yellow short-sleeved shirt. She is gesturing with her right hand towards a young child with dark hair who is sitting in front of her. The child is wearing a blue shirt and looking towards the woman. Loving Discipline A To Z:

Loving Discipline A to Z Esther Wright,1996-11 Positive Discipline A-Z Jane Nelsen, Ed.D.,Lynn Lott,H. Stephen Glenn,2007-03-27 As a parent you face one of the most challenging and rewarding roles of your life No matter how much you love your child there will still be moments filled with anger frustration and at times desperation What do you do Over the years millions of parents just like you have come to trust the Positive Discipline series for its consistent commonsense approach to child rearing In this completely updated edition of Positive Discipline A Z you will learn how to use methods to raise a child who is responsible respectful and resourceful You ll find practical solutions to such parenting challenges as Sibling Rivalry Bedtime Hassles School Problems Getting Chores Done ADHD Eating Problems Procrastination Whining Tattling and Lying Homework Battles And Dozens More This newly revised and expanded third edition contains up to the minute information on sleeping through the night back talk and lack of motivation as well as tips on diet exercise and obesity prevention and new approaches to parenting in the age of computers and cell phones Loving Each One Best Nancy Samalin,2010-04-28 All those baby boomers who have embarked on the journey of raising their second and third children have found themselves left in the lurch by existing child care literature Now child care expert Nancy Samalin who has earned a reputation for her forgiving and empowering approach to parenting brings her inspiring outlook to this guide to the pitfalls and rewards of parenting two or more children Parents who consider themselves pros after the first child are in for a surprise when the encounter life after the second child is born and beyond Suddenly their world is an exhausting haze of competing demands perpetual squabbling sibling rivalry complaints of unfairness and you love him more and sometimes you do unrelenting stress and a pervasive sense of guilt and inadequacy Culled from her years of workshops with hundreds of parents Nancy Samalin shares the trials and joys of parenthood and provides specific advice on steering your way through the parenting rapids This is a must read for today s harried parents Your A-Z on Mental Health David Musyimi Ndeti,2016-06-01 According to the World Health Organization mental disorders currently account for about 12.5% of the total burden of disease This is expected to rise to 15% by 2020 Whereas the resource rich countries have the ability to address the problems posed by mental disorders this is not the case with poor developing countries most of them in Africa For most countries South of Sahara and outside South Africa and with the exception of Kenya they have one psychiatrist for more than one million populations The Kenyan situation of one psychiatrist for about half million population is no solace at all Most of the psychiatrists just about 70 in May 2009 are to be found mostly in the main urban areas where many are not involved in day to day clinical work for the general public who cannot afford private treatment Similarly we have a gross deficiency of other health professionals with an interest in mental health The long and short of it is that many people in Africa with mental illness grope in the dark They have no access to appropriately trained mental health workers to turn to They do not even know when they have mental disorders except when they are grossly disturbed when friends and relatives

go seeking for the hardly available services It is therefore necessary to impart some knowledge to the general public so that at least they can recognize the more subtle disorders in addition to the severe ones Through knowledge they can have increased awareness and seek help from friends More importantly they will understand themselves The book covers a wide range of topics It includes mental health disorders and how they are generally recognized and managed covering the whole spectrum of life It also includes description of subjects of interest in relation to mental disorders These include rights of people with mental disorders and the spiritual aspects of mental disorders to emphasize the fact there is nothing demonic about mental disorders any more than anything being demonic about malaria People also find themselves in special situations such as the prospects of death and dying either of a relative or friend People also have to deal with emotions as a result of the death of a relative or a friend Of special interest is the person who is facing imminent death of self and knows about it There are also those who actually think of taking away their lives Besides describing those common situations the book also addresses various approaches to the management of various mental health disorders and situations by mental health workers but most importantly what they can do for themselves in their homes and in mitigations against the costs and stigma of mental illness The book has given a chance to people with mental disorders to express themselves It is hoped this book will serve to demystify mental disorders and in the process significantly destigmatize people with mental disorders and in the process allow them together with their relatives to come forward and demand for equal treatment services and rights from the health professionals policy makers and medical insurers This book is a must read for everybody who cares for their mental well being and that of others
