Augusta Browne Bonny H. Miller, 2020 Augusta Browne's five decade career in music and letters reveals a gifted composer and author. Hailed as one of the most prolific women composers in the USA before 1870 Augusta Browne Garrett c 1820-1882 was also a dedicated music educator and music journalist. The Americanness of her story resounds across the decades: an earnest little girl growing up amidst a troubled family business; a young professor of music who burst onto the New York City musical scene; and an entrepreneur who resolutely sought publication of her music and prose to her final day. In *Augusta Browne: Composer and Woman of Letters in Nineteenth Century America* author Bonny Miller presents Browne's unfamiliar story, assesses her musical works and describes her literary publications. Browne's outsider status and self agency offer a potent narrative that transcends antebellum and Victorian era norms. She used the public arena of newspapers and magazines as conduits for her work during an era when women were ridiculed for public speaking. And yet in many ways her persona as a tenacious entrepreneur conflicted with her adherence to strict Christian precepts despite her assertion of woman's equality with man. Making use of recently digitized sheet music as well as archives of newspapers and books of the period Miller's narrative provides the first ever comprehensive nuanced account of this notable life in American music. BONNY H MILLER is a pianist and independent scholar who has taught at universities in Georgia, Florida, Louisiana and Virginia.

Choral Music in Nineteenth-Century America Lee N. Orr, Dan W. Hardin, 1999-08-28 Choral music represented an important part of American cultural life during the nineteenth century whether integral to worship or merely for entertainment. Despite this history choral music remains one of the more neglected studies in the scholarly community. In an effort to fill this gap N Lee Orr and W Dan Hardin offer a new approach to the study of choral music by mapping out and bringing bibliographical control to this expansive and challenging field of study. Their unique guide focuses on literature related to choral music in the United States from the end of the second decade of the nineteenth century through the earlier part of the twentieth century. *Choral Music in Nineteenth Century America* explores the entire range of choral music conceived, written, published, rehearsed and performed by an ensemble of singers gathered specifically to present the music before an audience or congregation. The guide expertly sifts through the extensive literature to cite the most notable sources for study and provides individual chapters on the leading nineteenth century composers who were instrumental in the development of choral music.

Servanthood of Song Stanley R. McDaniel, 2024-05-23 Servanthood of Song is a history of American church music from the colonial era to

the present Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today The gulf which separates advocates of traditional and contemporary worship Black and White Protestant and Catholic is not new History repeatedly shows us that ministry to be effective must meet the needs of the entire worshipping community not just one segment age group or class Servanthood of Song provides a historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of contemporary and traditional classically oriented church music are both unnecessary and counterproductive It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training appropriate to that Servanthood of Song provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today
