Lower Mississippi Valley Expeditions Of Clarence Bloomfield Moore:

The Lower Mississippi Valley Expeditions of Clarence Bloomfield Moore Clarence B. Moore, 1998 *The Lower Mississippi Valley Expeditions of Clarence Bloomfield Moore* Clarence Bloomfield Moore, 1998-11-09 This third of nine volumes covering archaeologist Clarence B. Moore's expeditions in the southern United States in the early part of the century focuses on the sites on the Mississippi River and its major tributaries that Moore visited and excavated between 1907 and 1911. This one-volume facsimile edition includes descriptions of sites, maps, and fine black and white photographs of pottery. Annotation copyrighted by Book News Inc. Portland, OR **Moore Expedition Series** Clarence Bloomfield Moore, 1993-04-01 **The Tennessee, Green, and Lower Ohio Rivers Expeditions of Clarence Bloomfield Moore** Clarence Bloomfield Moore, 2002-07-17 This oversized reprint volume presents original materials from Moore's northernmost expeditions conducted in the early 1900s as he surveyed areas of potential archaeological interest in the southeastern United States. Some of the sites he found were later targeted for major excavations during the days of the WPA CCC. Many National Register Historic Sites are today located along the rivers he explored in this work. In many cases, however, Moore's report documents sites since destroyed by river action or by lake impoundments behind hydroelectric dams or by looters. As with all of Moore's other in **The Louisiana and Arkansas Expeditions of Clarence Bloomfield Moore** Clarence Bloomfield Moore, 2003 The ninth and final volume in the C. B. Moore reprint series that covers archaeological discoveries along North American Waterways *The West and Central Florida Expeditions of Clarence Bloomfield Moore* Clarence Bloomfield Moore, 1999-07-20 This compilation of Moore's publications on western and central Florida provides all of his archaeological data on the region's mounds and prehistoric canals in a single volume. The name Clarence B. Moore is familiar to every archaeologist interested in the southeastern United States. This amateur archaeologist's numerous scientific expeditions to the region resulted in dozens of well-illustrated publications, the value of which increases daily as many of the sites he investigated continue to be destroyed by modern development. Moore invested considerable time and effort exploring Florida's archaeological sites, devoting more pages of published reports and articles to Florida than to any other state. Because of the wealth of material on Florida, Moore's Florida expedition publications have been collected in three separate volumes, all published within the Classics in Southeastern Archaeology series. The thirteen papers reproduced in this volume present the results of Moore's research in West and Central Florida. Moore's first and last expeditions were to Florida and spanned almost fifty years of archaeological investigations. Following the eastern river drainages to central and western Florida in 1900, Moore concentrated his efforts along the Florida Gulf Coast, spurred by the exciting discoveries of Frank Hamilton Cushing at Key Marco in 1896. Although this region is rich in mound sites, many sites located by Moore in the early years of this century had already been destroyed by construction and lime processing. In addition to mound groupings, some containing masses of skeletal remains, Moore found a number of sites connected by a network of prehistoric canals. Several of

the sites located by Moore contained European trade goods and have been used to trace the early wanderings of the conquistadores in the New World Moore's early work on the Florida Gulf Coast succeeded in preserving much of the archaeological record in this area He is to be credited with remarkable insights concerning mound and earthwork construction artifact trade networks and chronology development **The Northwest Florida Expeditions of Clarence Bloomfield Moore** Clarence Bloomfield Moore,1999-09-27 This comprehensive compilation of Moore's archaeological reports on northwest Florida and southern Alabama and Georgia presents the earliest documented investigations of this region
