Military Thought, 2004 **Pravda Ha Ha** Rory MacLean, 2019-11-01 Shortlisted for the Stanford Dolman Travel Book of the Year Award A gem of a book informative companionable sometimes funny and wholly original MacLean must surely be the outstanding and most indefatigable traveller writer of our time John le Carr In 1989 the Berlin Wall fell In that euphoric year Rory MacLean travelled from Berlin to Moscow exploring lands that were for most Brits and Americans part of the forgotten half of Europe Thirty years on MacLean traces his original journey backwards across countries confronting old ghosts and new fears from revanchist Russia through Ukraine's bloodlands into illiberal Hungary and then Poland Germany and the UK Along the way he shoulders an AK 47 to go hunting with Moscow's chicken Tsar plays video games in St Petersburg with a cyber hacker who cracked the US election drops by the Che Guevara High School of Political Leadership in a non-existent nowhereland and meets the Warsaw doctor who tried to stop a march of 70 000 nationalists Finally on the shores of Lake Geneva he waits patiently to chat with Mikhail Gorbachev As Europe sleepwalks into a perilous new age MacLean explores how opportunists both within and outside of Russia from Putin to Home Counties populists have made a joke of truth exploiting refugees and the dispossessed and examines the veracity of historical narrative from reportage to fiction and fake news He asks what happened to the optimism of 1989 and in the shadow of Brexit chronicles the collapse of the European dream

The sea in Russian strategy Andrew Monaghan, Richard Connolly, 2023-06-27 For the first two decades after the Cold War Russian naval power hardly featured in the Euro Atlantic community's strategic thinking This began to change in the mid 2010s as the idea that the Russian navy poses a threat to NATO began to gain ground That threat took shockingly real form in February 2022 when Moscow launched its invasion of Ukraine The sea in Russian strategy is the first sustained examination of Russian maritime power in the period since the fall of the Soviet Union It brings together leading specialists from public policy and academia to reflect on historical and contemporary aspects of Russia's naval strategy and capacities At a time of mounting tensions which some observers have named the Fourth Battle of the Atlantic the book offers an informed and nuanced discussion taking into account the view from Moscow and how this differs from western perspectives It sketches a trajectory of Russia's power at sea and reflects on current capabilities and problems as well as Moscow's strategic planning for the future
