Plutarch's Lives Plutarch,1874 **The Last Girls** Lee Smith,2002-01-01 Thirty five years after a trip down the Mississippi on a raft with their classmates four women are reunited to cruise the river once again where they plan to release the ashes of a fellow rafter Margaret Baby Ballou **Talar** Frank Sherry,2014-02-26 Simon Spicer is a lonely melancholy professor in Maine A widower he was once a talented poet but writes no more At the age of thirty five he simply exists aged beyond his years by disappointment Spice is unaware of the physical and mental properties that set him apart from his fellows and fit him for a bizarre missionbut he will soon find out In the world of the Keepers one of their own has gone rogue Calling himself ShadowCaster he has taken over the planet Talar and bred an environment of evil and death The Keepers need a hero but they are incapable of destroying ShadowCaster on their own They require an outsider with the proper skills and Spice is their manalthough before he can take on the task he must first die Once he does his true powers awaken powers of mind control and non oral communication With nothing to lose Spice accepts his fated mission to find ShadowCaster and stop him Once a lonely hopeless man Spice is now the hope of the universe ordered to redeem a fallen world and perhaps also himself , **The Collected Works of ... P. ...** Theodore Parker,1871 **The New Spinoza** Warren Montag,Ted Stolze,1997 Modeled on THE NEW NIETZSCHE this collection revitalizes the thought of Spinoza These essays establish Spinoza s rightful role in the development and direction of contemporary continental philosophy The volume should interest not only the growing group of scholars attracted to Spinoza s ideas on ethics politics and subjectivity but also theorists in a variety of fields *Dark Prophecy* Gherbod Fleming,2025-04-10 When the hunter becomes the hunted The crazed Camarilla prince of Atlanta will stop at nothing to kill Owain Evans Carlos bishop of the Sabbat also thirsts for vengeance The Giovanni might come to Owain s aid unless they can benefit from betraying him Who can he trust in the diabolic world of the Kindred those vampires who stalk the night unseen by mortal eyes The answer us simple no one Not even himself **I am Dracula. An interview with the greatest vampire** Boris Shabrin,2023-12-08 From how Dracula manages to stay under the radar and avoid vampire hunters to his unique eating habits and tips for extending his life this book is sure to captivate readers from start to finish But that s not all delve deeper into the life of this enigmatic figure as Dracula shares personal anecdotes about his first love and military successes You ll be spellbound as he talks about his hobbies and interests revealing a side of himself that few have ever seen before **Science and Health with Key to the Scriptures** Mary Baker Eddy,2022-11-13 In her seminal work Science and Health with Key to the Scriptures Mary Baker Eddy presents a profound synthesis of spiritual insight and healing practice Written in a clear accessible style the book intertwines Christianity with a distinctly metaphysical interpretation of the Bible advocating for the idea that reality is fundamentally spiritual and governed by divine law Eddy emphasizes the correlation between thought and health proposing that understanding this connection is key to physical and mental well being The work s innovative approach to Christian Science not only reflects the theological debates

of the 19th century but also pioneers a holistic perspective on health that continues to resonate today Mary Baker Eddy a prominent spiritual leader and the founder of Christian Science wrote this book following her personal struggle with illness and a transformative healing experience Her background as a deeply religious woman influenced her exploration of scriptural teachings and their application to everyday life Eddy s passionate pursuit of spiritual truth fueled by her desire to alleviate suffering inspired the creation of this text which has served as a foundational guide for countless seekers of faith and healing Science and Health with Key to the Scriptures is a must read for anyone interested in the intersection of spirituality and health Eddy s insights empower readers to rethink conventional notions of medicine and illness urging them to explore the spiritual roots of well being This work not only provides a compelling theological framework but also offers practical guidance making it an indispensable resource for both spiritual seekers and those on a quest for holistic healing

The Christian Science Journal ,1917 **The Philosophical Foundations of Christian Science** Nicholas

Sheldon,2025-01-01 Mary Baker Eddy 1821 1910 is best known for founding the religion of Christian Science an international institution which has extended beyond her lifetime and into the twenty first century Often labelled as fringe theology rather than core philosophy Eddy s work has remained on the peripheries of academia Her unmitigated idealism and occasionally nebulous style have led to a reluctance to apply a philosophical rigour to her thinking In *The Philosophical Foundations of Christian Science* Nicholas Sheldon rediscovers her as a radical philosopher one of many female philosophers of her time who he contends should no longer be underestimated Carefully analysing her non linear style in order to understand her internal system of thought Sheldon resolves flaws within her argument and draws out Christian Science s remarkable philosophical assertion that it is not only illness and suffering which are unreal but the entire physical realm For Eddy it is only the spiritual which remains

The Passion of Infinity Daniel Greenspan,2008-11-03 *The Passion of Infinity* generates a historical narrative surrounding the concept of the irrational as a threat which rational culture has made a series of attempts to understand and relieve It begins with a reading of Sophocles Oedipus as the paradigmatic figure of a reason that having transgressed its mortal limit becomes catastrophically reversed It then moves through Aristotle s ethics psychology and theory of tragedy which redefine reason s collapses in moral psychological rather than religious terms By changing the way in which the irrational is conceived and the nature of its relation to reason Aristotle eliminates the concept of an irrationality which reason cannot in principle dissolve The book culminates in an extensive reading of Kierkegaard s pseudonyms who in a critical retrieval of both Greek tragedy and Aristotle prescribe their apparently pathological age a paradoxical task develop a finite form of subjectivity willing to undergo an unthinkable thought allow the transcendence of a god to enter into the mind as well as the marrow to make a tragic appearance in which a limit to the immanence of human reason can again be established
