Moscow Women Thirteen Interviews:

Moscow Women Carola Hansson,Karin Lidén,1983 **Moscow Women** Carola Hansson,Karin Lidén,1983 Life Stories of Soviet Women Melanie Ilic,2013-08-15 This book provides a rich picture of what everyday life was like for women in Soviet times by presenting the life stories of eight women who were born in the interwar period The life stories are told through interviews with the women who were well educated and well placed in Soviet society often in elite positions and therefore well able to observe and articulate the wider conditions for Soviet women besides their own personal circumstances The interviews which are edited and preceded by a full introduction setting the context touch on a wide variety of issues key events in Soviet history religion and nationalities policies and women s everyday experiences of life in the Soviet Union growing up and going to school education falling in love and getting married giving birth and starting a family housework and paid employment travel leisure and culture and remembering the past **Sexual Mutilations**

George C. Denniston,Marilyn Fayre Milos,2013-03-09 Sexual mutilation is a global problem that affects 15 3 million children and young adults annually In terms of gender 13 3 million boys and 2 million girls are involuntarily subjected to sexual mutilation every year While it is tempting to quantify and compare the amount of tissue removed from either gender no ethical justification can be made for removing any amount of flesh from the body of another person The violation of human rights implicit in sexual mutilation is identical for any gender The violation occurs with the first cut into another person s body Although mutilation is a strong term it precisely and accurately describes a condition denoting any disfigurement or injury by removal or destruction of any conspicuous or essential part of the body While such terms as circumcision and genital cutting are less threatening to our sensitivities they ultimately do a disservice by masking the fact of what is actually being done to babies and children Although the courageous example of the survivors of sexual mutilation indicates that humans can certainly live and even reproduce without all of their external sexualorgans this biological phenomenon does not however justify subjecting a person to sexual mutilation The remarkable resilience of the human body is a testament to the importance nature places on reproduction rather than a vindication for surgical practices that compromise this function

Soviet Women – Everyday Lives Melanie Ilic,2020-02-18 Based on an extensive reading of a broad range of women s accounts of their lives in the Soviet Union this book focuses on many hidden aspects of Soviet women s everyday lives thereby revealing a great deal about how the Soviet Union operated on a day to day basis and about the place of the individual within it Including testimony from both celebrated literary and cultural figures and from many ordinary people and from both enthusiastic supporters of the regime and dissidents the book considers women s daily routines attitudes and behaviours It highlights some of the hidden inequalities of an ostensibly egalitarian society and considers many wider questions including how extensive was the reach of the Soviet regime how modern was it how far were there continuities after 1917 between the new Bolshevik regime and Russia s imperial past and how homogenous and how mobile was Soviet

society **Sex, Race, and Class—The Perspective of Winning** Selma James, 2012-05-01 In 1972 Selma James set out a new political perspective Her starting point was the millions of unwaged women who working in the home and on the land were not seen as workers and their struggles viewed as outside of the class struggle Based on her political training in the Johnson Forest Tendency founded by her late husband C L R James on movement experience South and North and on a respectful study of Marx she redefined the working class to include sectors previously dismissed as marginal For James the class struggle presents itself as the conflict between the reproduction and survival of the human race and the domination of the market with its exploitation wars and ecological devastation She sums up her strategy for change as Invest in Caring not Killing This selection spanning six decades traces the development of this perspective in the course of building an international campaigning network It includes excerpts from the classic *The Power of Women and the Subversion of the Community* which launched the domestic labor debate the exciting *Hookers in the House of the Lord* which describes a church occupation by sex workers an incisive review of the C L R James masterpiece *The Black Jacobins* a reappraisal of the novels of Jean Rhys and of the leadership of Julius Nyerere the groundbreaking *Marx and Feminism* and more The writing is lucid and without jargon The ideas never abstract spring from the experience of organising from trying to make sense of the successes and the setbacks and from the need to find a way forward *The Feminization of Poverty* Gertrude Schaffner Goldberg, Eleanor Kremen, 1990-11-09 This comprehensive and carefully organized collection provides an overview of the relationship between gender and economic stratification in seven industrialized countries Everywhere as a Polish commentator notes men have too much power and women too much work Nevertheless these studies reveal large differences in the circumstances of women in different countries and help to illuminate the several developments in the labor market the family and public policy which explain the extreme feminization of poverty in the United States Frances Fox Piven City University of New York Lucid careful and systematic the book builds a compelling explanation for the needless impoverishment experienced by millions of American women and offers a sensible realistic agenda for its reduction Michael B Katz University of Pennsylvania This study asks whether the feminization of poverty the tendency of women and their families to become the majority of the poor is unique to the United States where the phenomenon was first discovered Seven industrialized nations both capitalist and socialist with different degrees of commitment to social welfare are compared Canada Japan France Sweden Poland the Soviet Union and the United States In each of the countries the authors analyze information about women labor market conditions equalization policies social welfare programs and demographic variables such as the rates of divorce and single parenthood According to Goldberg and Kremen it is possible to predict the feminization of poverty when three conditions are present 1 insufficient efforts to reduce work place and wage inequities for women 2 the absence or ineffectiveness of social welfare programs which can redress the cost both economic and personal of the dual role that women have assumed in industrialized societies and 3 the presence of increasing rates of divorce and

single motherhood An array of labor market and social welfare programs in use in the six other industrialized nations are then reviewed by the authors for possible adaptation in the United States This important work will be a valuable resource for scholars across the academic and professional disciplines of political science sociology economics social work and women s studies

Writing Women's History Karen M. Offen, Ruth Roach Pierson, Jane Rendall, 1991-08-23 Five essays address such themes as the relationship between feminist history and women s history the use of the concept of experience the development of the history of gender demographic history and women s history and the importance of post structuralism to women s history

Reproduction, Medicine and the Socialist State Alena Heitlinger, 1987-06-18 **Russia's Alternative Prose** Robert Porter, 1994-09-30 This book is an up to date examination of the major works of some of the Russian writers who have come to prominence since 1985 when Gorbachev rose to power and effectively abolished all literary controls The title of the book is taken from articles in the Soviet Russian literary press that sought to address this new and often outrageous type of literature The author contends that alternative prose in Russia deserves serious critical attention and that in discarding the civic mindedness of a former era it is aligning itself more with Western literature and is re discovering pre Stalinist literary trends

Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989 *Spare Rib* , 1984 **Soviet Consumer Culture in the Brezhnev Era** Natalya Chernyshova, 2013-06-26 After decades of turmoil and trauma the Brezhnev era brought stability and an unprecedented rise in living standards to the Soviet Union enabling ordinary people to enjoy modern consumer goods on an entirely new scale This book analyses the politics and economics of the state s efforts to improve living standards and shows how mass consumption was often used as an instrument of legitimacy ideology and modernization However the resulting consumer revolution brought its own problems for the socialist regime Rising well being and the resulting ethos of consumption altered citizens relationship with

the state and had profound consequences for the communist project The book uses a wealth of sources to explore the challenge that consumer modernity was posing to Soviet mature socialism between the mid 1960s and the early 1980s It combines analysis of economic policy and public debates on consumerism with the stories of ordinary people and their attitudes to fashion Western goods and the home The book contests the notion that Soviet consumers were merely passive abused eternally queuing victims and that the Brezhnev era was a period of stagnation arguing instead that personal consumption provided the incentive and the space for individuals to connect and interact with society and the regime even before perestroika This book offers a lively account of Soviet society and everyday life during a period which is rapidly becoming a new frontier of historical research
