The Rise of Asia Frank B. Tipton,1998-05-01 For many years Japan was seen as the peculiar exception in Asia a highly dynamic economy isolated in an otherwise moribund continent With the rise of the Southeast Asian and Chinese economies however it has now become clear that Asia as a whole is experiencing an extraordinary revolution which will result within a very few years in living standards for some countries being on a par with those in the West The results of this transformation can only be guessed at but *The Rise of Asia* adds a far greater sophistication to our understanding of how this process came about treating the key areas of Asian life economics society and politics as an integrated whole and avoiding the trap of most commentators who see the phenomenon as an exclusively postwar economic issue Balancing the uniquely Asian aspects with global developmental factors Dr Tipton creates a convincing picture of how this amazing change has occurred Asia,

Sports and the Emergence of Modern Asia, 1913-1974 Stefan Huebner,2016-05-11 The history of regional sporting events in 20th century Asia yields insights into Western and Asian perspectives on what defines modern Asia and can be read as a staging of power relations in Asia and between Asia and the West The Far Eastern Championship Games began in 1913 and were succeeded after the Pacific War by the Asian Games Missionary groups and colonial administrations viewed sporting success not only as a triumph of physical strength and endurance but also of moral education and social reform Sporting competitions were to shape a new Asian man and later a new Asian woman by promoting internationalism egalitarianism and economic progress all serving to direct a rising Asia toward modernity Over time exactly what constituted

a rising Asia underwent remarkable changes ranging from the YMCA's promotion of muscular Christianity democratization and the social gospel in the US colonized Philippines to Iranian visions of recreating the Great Persian Empire Based on a vast range of archival materials and spanning 60 years and 3 continents Pan Asian Sports and the Emergence of Modern Asia shows how pan Asian sporting events helped shape anti colonial sentiments Asian nationalisms and pan Asian aspirations in places as diverse as Japan and Iran and across the span of countries lying between them Southeast Asia in the Early Modern Era Anthony J. S. Reid, 2018-07-05 The political and religious identities of Southeast Asia were largely formed by the experiences of the fifteenth through seventeenth centuries when international commerce boomed before eventually falling under the domination of well armed European powers intent on monopoly This book is the first to document the full range of responses to the profound changes of this period urbanization and the burgeoning of commerce the proliferation of firearms an increase in the number and strength of states and the shift from experimental spirit worship to the universalist scriptural religions of Islam Christianity and Theravada Buddhism Bringing together ten essays by an international group of historians Southeast Asia in the Early Modern Era shows how various states adapted to new pressures and compares economic religious and political developments among the major cultures of the area **Studies in Southeast Asian Art** Nora A. Taylor, 2018-08-06 This wide ranging collection of essays examines the arts of Southeast Asia in context Contributors study the creation use and local significance of works of art illuminating the many complex links between an object's aesthetic qualities and its origins in a community Structure, Audience and Soft Power in East Asian Pop Culture Beng Huat Chua, 2012-03-01 East Asian pop culture can be seen as an integrated cultural economy emerging from the rise of Japanese and Korean pop culture as an influential force in the distribution and reception networks of Chinese language pop culture embedded in the ethnic Chinese diaspora Taking Singapore as a locus of pan Asian Chineseness Chua Beng Huat provides detailed analysis of the fragmented reception process of transcultural audiences and the processes of audiences formation and exercise of consumer power and engagement with national politics In an era where exercise of military power is increasingly restrained pop culture has become an important component of soft power diplomacy and transcultural collaborations in a region that is still haunted by colonization and violence The author notes that the aspirations behind national governments efforts to use popular culture is limited by the fragmented nature of audiences who respond differently to the same products by the danger of backlash from other members of the importing country's population that do not consume the popular culture products in question and by the efforts of the primary consuming country the People's Republic of China to shape products through co production strategies and other indirect modes of intervention **The Garland Handbook of Southeast Asian Music** Terry Miller, Sean Williams, 2011-03-17 The Garland Handbook of Southeast Asian Music is comprised of essays from The Garland Encyclopedia of World Music Volume 4 Southeast Asia 1998 Largely revised and updated the essays offer detailed regional studies of the different musical cultures of Southeast Asia and examine the
