Andrew Lawrence Roberts, 2010 How does democracy work in the new democracies of Eastern Europe Do the people actually rule as one would expect in a democracy or do the legacies of communism and the constraints of the transition weaken popular control This book presents a new framework for conceptualizing and measuring democratic quality and applies this framework to multiple countries and policy areas in the region It defines democratic quality as the degree to which citizens are able to hold leaders accountable for their performance and keep policy close to their preferences Its surprising conclusion drawn from large N statistical analyses and small N case studies is that citizens exercise considerable control over their rulers in Eastern European democracies Despite facing difficult economic circumstances and an unfavorable inheritance from communism these countries rapidly constructed relatively high quality democracies Provided by publisher

Radhakamal Mukerjee,1923 **Media and Politics in New Democracies** Jan Zielonka,2015-10-08 This book analyses the relationship between the media and politics in new democracies in Europe and other parts of the world It does so from both theoretical and empirical angles How is power being mediated in new democracies Can media function independently in the unstable and polarised political environment experienced after the fall of autocracy Do major shifts in economic and ownership structures help or hinder the quality of the media How much can new media laws alter old journalistic habits and political cultures And how do new technologies impact the media and democracy The book examines these questions drawing on a vast set of data assembled by a large international project Media and Politics in New Democracies focuses chiefly on new democracies in Central and Eastern Europe but chapters analysing new democracies in Latin America Africa and Southeast Asia are also included These new democracies represent a variety of what sociologists call glocalism homogenisation and heterogenisation coexist revealing hybrid models and multiple modernities It is local culture that assigns meaning to global and regional influences Ideal liberal models and best practices are being promoted and aspired to but these models and practices are often being adopted in opaque ways generating results opposite to those intended The book finds many new democracies to be fragile if not deficient and tries to show what is really going on in these countries how they compare to each other and what they can learn from each other **Political Parties in Post-Communist Eastern Europe** Paul Lewis,2002-01-04 Political Parties in Post Communist Eastern Europe is the first textbook to survey the course of party developments in eastern Europe as a whole in the post Communist period This book relates the specifics of the post communist situation to the broader picture of the early stages of party development in western Europe and also to contemporary models of party organisation in established democracies The book includes a brief historical introduction to the context of post communist change the process of competitive party formation and democratic elections the development of independent parties their ideologies and electoral volatility the structure and level of organisation developed by new parties an analysis of stable party systems which have emerged in eastern Europe and the contribution they make to emerging democracies in the region Party Politics in Post Communist Eastern Europe will be a comprehensive and invaluable resource accessible to undergraduates of politics and European studies as well as the non specialist reader **Capitalism and Democracy in Central and Eastern Europe** Grzegorz Ekiert,Stephen E. Hanson,2003-09-15 This volume presents a

shared effort to apply a general historical institutionalist approach to the problem of assessing institutional change in the wake of communism's collapse in Europe. It brings together a number of leading senior and junior scholars with outstanding reputations as specialists in postcommunism and comparative politics to address central theoretical and empirical issues involved in the study of postcommunism. The authors address such questions as how historical legacies of the communist regime be defined, how their impact can be measured in methodologically rigorous ways, and how the effects of temporal and spatial context can be taken into account in empirical research on the region. Taken as a whole, the volume makes an important contribution to the growing literature by utilizing the comparative historical method to study key problems of world politics.

**Building Democracy and Civil Society East of the Elbe** Sven Eliaeson, 2006-04-18. This book explores the idea of civil society and how it is being implemented in Eastern Europe. The implosion of the Russian empire fifteen years ago and the new wave of democratization opened a new field of inquiry. The wide-ranging debate on the transition became focused on a conceptual battle: the question of how to define civil society. Because totalitarian systems shun self-organization, real existing civil society barely existed East of the Elbe, and the emergence of civil society took unusually complex and puzzling forms which varied with national culture and reflected the deep historical past of these societies. This insightful text relates the concept of civil society and developments in Eastern Europe to wider sociological theories and makes international comparisons where appropriate. It discusses particular aspects of civil society and examines the difficulties of establishing civil society. It concludes by assessing the problems and prospects for civil society in Eastern Europe going forward.

*Crafting Courts in New Democracies* Matthew Ingram, 2016. This book explores the importance of local courts in enacting positive social and economic reform in Brazil and Mexico.

**Democratic Consolidation in Eastern Europe:**

**International and transnational factors** Jan Zielonka, Alex Pravda, 2001. This book provides an unprecedented country-by-country examination of the specific experience of the democratic transitions experienced by the states of Eastern Europe. It concentrates on the influence of the international environment on these fledgling democracies.

Bridging the Gap Council of Europe. Parliamentary Assembly, 1995-01-01. Political social guidelines for the governments of Europe's new democracies which now realize the human costs of economic reforms undertaken since 1989.

Challenges to Democracy Sten

Berglund, 2001-01-01. The book is written in a systematic, clear, and accessible style and provides an excellent introduction to the state of democracy in contemporary postsocialist Europe. Recommended for undergraduate, graduate research, and faculty collections.

P. Rutland, *Choice*. The euphoria evidenced in the aftermath of the collapse of communist regimes in the late 1980s and early 1990s sometimes conveyed the impression that the process of democratization would be achieved without difficulty or tribulation. This book sets out to provide a thorough comparative analysis of the challenges which face the emerging democracies of Central and Eastern Europe and considers the impact of political change. Drawing heavily on available survey data, the book provides an in-depth account of how the new democracies of Central and Eastern Europe have coped with four

major challenges political fragmentation nationalism lack of respect for human rights and poorly developed civil service systems The book demonstrates that although the first few years of the 1990s were marked by increasing disenchantment with the new regimes the change of governments as a direct result of the electoral process and the prospects for European integration have served to reverse this negative trend Indeed the authors find that the new political systems have managed to cope with the challenges so effectively that striking similarities with Western democracies are now apparent *Coalition Governance in Central Eastern Europe* Torbjörn Bergman, Gabriella Ilonszki, Wolfgang C. Müller, 2019-12-12 Coalition government among different political parties is the way most European democracies are governed Traditionally the study of coalition politics has been focused on Western Europe Coalition governance in Central Eastern Europe brings the study of the full coalition life cycle to a region that has undergone tremendous political transformation but which has not been studied from this perspective The volume covers Bulgaria Estonia the Czech Republic Latvia Lithuania Hungary Poland Romania Slovakia and Slovenia It provides information and analyses of the coalition life cycle from pre electoral alliances to coalition formation and portfolio distribution governing in coalitions the stages that eventually lead to government termination and the electoral performance of coalition parties In Central Eastern Europe few single party cabinets form and there have been only a few early elections The evidence provided shows that coalition partners in the region write formal agreements coalition agreements to an extent that is similar to the patterns that we find in Western Europe but also that they adhere less closely to these contracts While the research on Western Europe tends to stress that coalition partners emphasize coalition compromise and mutual supervision there is more evidence of ministerial government by individual ministers and their parties There are also some systems where coalition governance is heavily dominated by the prime minister No previous study has covered the full coalition life cycle in all of the ten countries with as much detail Systematic information is presented in 10 figures and in more than one hundred tables Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit [www.ecprnet.eu](http://www.ecprnet.eu) The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand Müller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow John and Rebecca Moores Professor of Political Science University of Houston **Rethinking 'Democratic Backsliding' in Central and Eastern Europe** Licia Cianetti, James Dawson, Seán Hanley, 2020-06-29 This book seeks to inject fresh thinking into the debate on democratic deterioration in Central and Eastern Europe CEE viewing democratic backsliding through the prism of a range of cases beyond Hungary and Poland to redress the imbalance in current scholarship Over the past decade a consensus has emerged that democracy in CEE is sharply deteriorating perhaps even backsliding into new forms of authoritarianism Debate has however so far focused

disproportionately on the two most dramatic and surprising cases Hungary and Poland This book reflects on the backsliding debate through the experience of CEE countries such as the Czech Republic Bulgaria Latvia and Estonia as well as neighbouring post communist regions such as the Western Balkans and former Soviet Union cases such as Moldova and Ukraine whose patterns of failing or partial democratisation may be newly instructive for analysing the development of CEE Contributors present less frequently considered perspectives on democratic backsliding in the CEE region such as the role of oligarchisation and wealth concentration the potential of ethnographical approaches to democracy evaluation the trade offs between democratic quality and democratic stability and the long term interplay between social movements state building and democratisation This book was originally published as a special issue of East European Politics     *The Quality of Democracy in Eastern Europe* Andrew Roberts, 2009-10-12 How does democracy work in the new democracies of Eastern Europe Do the people actually rule as one would expect in a democracy or do the legacies of communism and the constraints of the transition weaken popular control This book presents a framework for conceptualizing and measuring democratic quality and applies this framework to multiple countries and policy areas in the region It defines democratic quality as the degree to which citizens are able to hold leaders accountable for their performance and keep policy close to their preferences Its surprising conclusion drawn from large N statistical analyses and small N case studies is that citizens exercise considerable control over their rulers in Eastern European democracies Despite facing difficult economic circumstances and an unfavorable inheritance from communism these countries rapidly constructed relatively high quality democracies
