New Directions In Mis Management A Guide For Mis Practitioners And End Users:

New Directions in MIS Management Robert J. Thierauf, 1988-11-15 Thierauf's work develops a number of interesting and potentially useful approaches to management information systems MIS practice The author presents a number of techniques some well known others more recent that practicing MIS managers may adopt to facilitate effective MIS planning for the 1990's by focusing on problem finding rather than on problem solving A primary recommendation of Thierauf's is the restructuring of the MIS organization using a functional end user departmental approach Discussed at length are various issues relevant to this restructuring such as staffing motivating MIS personnel and end users and MIS soft controls Recommended for upper level undergraduate and graduate students as well as practicing managers and MIS specialists Choice With new developments in hardware and software MIS managers are increasingly faced with the need to develop more sophisticated managerial as opposed to purely technical skills Here an acknowledged expert in the field of information systems draws on his own original research and experience to develop a set of workable strategies and techniques that MIS managers can use to function more effectively as we move into the next decade Thierauf identifies probable trends in the field in coming years and outlines ways in which MIS managers can anticipate predictable problems apply improved management skills to the end user interface and effectively motivate MIS personnel Thierauf concentrates particularly on four major areas of managerial responsibility planning organizing motivating and controlling In planning he shows how to use problem finding techniques to anticipate and solve potential problems between MIS personnel and end users To help reduce this conflict Thierauf argues there is a need for a new direction in organizing MIS departments He proposes bringing MIS and end use departments together by using a functional departmental approach In motivating MIS personnel there is need to go beyond self actualization by emphasizing mutual actualization as well as self donation Finally in the area of control Thierauf advocates the use of soft controls to replace stringent controls that have had a tendency to restrict personal freedom on the job A common thread throughout the discussion is a focus on effective guidelines for the MIS manager to follow in order to come to grips with the changing realities of the 1990s *Effective Management and Evaluation of Information Technology* Robert J. Thierauf, 1994-08-23 Today's MIS manager must understand and apply the latest thinking on the crucial management functions planning organizing directing and controlling Moreover not only must managers understand the research based foundations underlying this thinking they must also know how to leverage the new MIS technologies and incorporate them into it Thierauf's new book guides managers through the technology managerial function interface explains latest research and its applications and then provides MIS managers their external auditors and consultants with a unique questionnaire to help them assess the performance of their MIS groups and their own managerial effectiveness With illustrations checklists guidelines and unusual clarity of presentation not only will Thierauf's book help MIS managers and those they report to understand better their day to day tasks but it will also shed new light on the

technologies themselves and their inevitable work impacts **Forthcoming Books** Rose Arny,1996-06 **Subject Guide to Books in Print** ,1996 *Computerworld* ,1982-02-15 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network *Computerworld* ,1986-03-24 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **The Writers Directory** ,2013 *Image Processing Systems in Business* Robert J. Thierauf,1992-05-20 A common complaint heard in today s business office is There is paper everywhere but I cannot find the document that I m looking for It is estimated that 90 percent of all data and information currently being processed and distributed within offices and between organizations resides on paper Finding the physical space to store this paper can be a key problem To overcome this problem and others there is a need for a dramatic new approach to information processing found in business Such an approach is found in this unique and useful volume Essentially image processing systems in business use today s computer technology to solve paper processing and storage problems Their main means of processing is performed electronically that is documents are captured initially on an electronic medium and forwarded to other users in the same mode In this manner their essential means of communicating with users is in an electronic format versus a paper one Also image processing systems in business are much more flexible in meeting changing user needs especially when the data is stored on optical disk **The Publishers' Trade List Annual** ,1989 *Choice* ,1998 **The Oxford Handbook of Management Information Systems** Robert D Galliers,Wendy Currie,2011-07-28 Management Information Systems MIS play a crucial role in an organization s operations accounting decision making project management and competitive advantage The Oxford Handbook of Management Information Systems takes a critical and interdisciplinary view of the increasing complexity of these systems within organizations and the strategic managerial and ethical issues associated with the effective use of these technologies The book is organized into four parts Part I Background Part II Theoretical and Methodological Perspectives in MIS Part III Rethinking Theory in MIS Practice Part IV Rethinking MIS Practice in a Broader Context The Handbook provides expansive coverage of the discipline and a methodological and philosophical framework for discussion of key topics before exploring the issues associated with MIS in practice and considering the broader context and future agenda of research in light of such concerns as sustainability ethics and globalization Bringing together international scholars to focus on the theory and practice of MIS this handbook provides a comprehensive resource for academics and research students in the fields of MIS IS Organizational Behaviour and Management in general **Books in Print** ,1991 **Data Visualization, Part 2** Tarek Azzam,Stephanie Evergreen,2013-12-13 This issue delivers concrete suggestions for

optimally using data visualization in evaluation as well as suggestions for best practices in data visualization design It focuses on specific quantitative and qualitative data visualization approaches that include data dashboards graphic recording and geographic information systems GIS Readers will get a step by step process for designing an effective data dashboard system for programs and organizations and various suggestions to improve their utility The next section illustrates the role that graphic recording can play in helping programs and evaluators understand and communicate the mission and impact that an intervention is having in a democratic and culturally competent way The GIS section provides specific examples of how mapped data can be used to understand program implementation and effectiveness and the influence that the environment has on these outcomes Discusses best practices that inform and shape our data visualization design choices Highlights the best use of each tool approach Provides suggestions for effective practice Discuss the strengths and limitations of each approach in evaluation practice This is the 140th volume of the Jossey Bass quarterly report series New Directions for Evaluation an official publication of the American Evaluation Association *Computer Decisions* ,1984 Effective Information Centers Robert J.
