New Directions In Scandinavian Archaeology Studies In Scandinavian Prehistory And Early History 1:

The Oxford Handbook of the European Iron Age Colin Haselgrove, Katharina Rebay-Salisbury, Peter S.

Wells, 2023-09-22 The Oxford Handbook of the European Iron Age presents a broad overview of current understanding of the archaeology of Europe from 1000 BC through to the early historic periods exploiting the large quantities of new evidence yielded by the upsurge in archaeological research and excavation on this period over the last thirty years Three introductory chapters situate the reader in the times and the environments of Iron Age Europe Fourteen regional chapters provide accessible syntheses of developments in different parts of the continent from Ireland and Spain in the west to the borders with Asia in the east from Scandinavia in the north to the Mediterranean shores in the south Twenty six thematic chapters examine different aspects of Iron Age archaeology in greater depth from lifeways economy and complexity to identity ritual and expression Among the many topics explored are agricultural systems settlements landscape monuments iron smelting and forging production of textiles politics demography gender migration funerary practices social and religious rituals coinage and literacy and art and design

Scandinavian History in the Viking Age Martin Syrett, 2003 Europe

Before History Kristian Kristiansen, 2000 The societies of the European Bronze Age produced elaborate artifacts and were drawn into a wide trade network extending over the whole of Europe even though they were economically and politically undiversified Kristian Kristiansen attempts to explain this paradox using a world systems analysis and in particular tries to account for the absence of state formation He presents his case with a powerful marshalling of the evidence across the whole of Europe and over two millennia The result is the most coherent overview of this period of European prehistory since the writings of Gordon Childe and Christopher Hawkes A great strength of this book is the broad European perspective which allows the author to address some of the larger questions that have been raised in the study of the Bronze Age It captures the complexity of a prehistorical world at different levels of integration and interaction from local to global *Handbook of Rock Art Research* David S. Whitley, 2001 While there has always been a large public interest in ancient pictures painted or carved on stone the archaeological study of rock art is in its infancy But intensive amounts of research has revolutionized this field in the past decade New methods of dating and analysis help to pinpoint the makers of these beautiful images new interpretive models help us understand this art in relation to culture Identification conservation and management of rock art sites have become major issues in historical preservation worldwide And the number of archaeologically attested sites has mushroomed In this handbook the leading researchers in the rock art area provide cogent state of the art summaries of the technical interpretive and regional advances in rock art research The book offers a comprehensive basic reference of current information on key topics over six continents for archaeologists anthropologists art historians and rock art enthusiasts

Frontier and Society in Roman North Africa Dr. David Cherry, 1998 Analysing the cultural social and economic consequences of the Roman occupation of North Africa c 50 BC AD 250 this book offers a fresh look at the development and

purpose of the north African frontier system **Trade before Civilization** Johan Ling, Richard J. Chacon, Kristian Kristiansen, 2022-09-15 Trade before Civilization explores the role that long distance exchange played in the establishment and or maintenance of social complexity and its role in the transformation of societies from egalitarian to non egalitarian Bringing together research by an international and methodologically diverse team of scholars it analyses the relationship between long distance trade and the rise of inequality The volume illustrates how elites used exotic prestige goods to enhance and maintain their elevated social positions in society Global in scope it offers case studies of early societies and sites in Europe Asia Oceania North America and Mesoamerica Deploying a range of inter disciplinary and cutting edge theoretical approaches from a cross cultural framework the volume offers new insights and enhances our understanding of socio political evolution It will appeal to archaeologists cultural anthropologists conflict theorists and ethnohistorians as well as economists seeking to understand the nexus between imported luxury items and cultural evolution **Villagers of the Maros** John M. O'Shea, 2013-11-11 John M O Shea explores this question by employing modern archaeological theory and analysis as well as mortuary theory to build a model of an Early Bronze Age society in the eastern Carpathian Basin He focuses on the Maros communities and utilizes the densely encoded social information from their cemeteries to draw a picture of the Maros social systems Archäologien Europas / Archaeologies of Europe Alexander Gramsch, Arkadiusz Marciniak, Peter F. Biehl, Peter F. Biehl, Alexander Gramsch, Arkadiusz Marciniak, 2002 *North European Symposium for Archaeological Textiles X* Eva B. Andersson Strand, Margarita Gleba, Ulla Mannering, Cherine Munkholt, Maj Ringgard, 2009-12-11 The NESAT symposium has grown from the first meeting in 1981 which was attended by 23 scholars to over 100 at the tenth meeting that took place in Copenhagen in 2008 with virtually all areas of Europe represented The 50 papers from the conference presented here show the vibrance of the study of archaeological textiles today Examples studied come from the Bronze Age Neolithic the Iron Age Roman Viking the Middle Ages and post Medieval and from a wide range of countries including Norway Czech Republic Poland Greece Germany Lithuania Estonia and the Netherlands Modern techniques of analysis and examination are also discussed **Approaches to Swedish Prehistory** Thomas B. Larsson, 1989 This collection of essays on a spectrum of problems and perspectives in contemporary research aims to inform the archaeological world about what is going on in Swedish archaeological research at the time The range is wide from Mesolithic to Viking from artefact studies to settlement and burials from social theory to paleobotanical analyses 21 papers

The Archaeology of Contextual Meanings Ian Hodder, 1987-08-06 This companion volume to Archaeology as Long term History focuses on the symbolism of artefacts It seeks at once to refine the theory and method relating to interpretation and show with examples how to conduct this sort of archaeological work Some contributors work with the material culture of modern times or the historic period areas in which the symbolism of mute artefacts has traditionally been thought most accessible However the book also contains a good number of applications in prehistory to demonstrate the feasibility of

symbolic interpretation where good contextual data survive from the distant past In relation to wider debates within the social sciences the volume is characterised by a concern to place abstract symbolic codes within their historical context and within the contexts of social actions In this respect it develops further some of the ideas presented in Dr Hodder s Symbolic and Structural Archaeology an earlier volume in this series

Argonauts of the Stone Age Andrzej Pydyn,2016-02-28 This book gives a full account of stone age seafaring presenting the archaeological evidence in the context of the changing world environment and uses ethnographic sources to broaden the readers understanding of the worlds earliest sea craft

Social Transformations in Archaeology Kristian Kristiansen,Michael Rowlands,2005-10-05 Social Transformations in Archaeology explores the relevance of archaeology to the study of long term change and to the understanding of our contemporary world The articles are divided into broader theoretical issues post colonial issues in a wide range of contexts archaeological examination of colonialism with case studies from the Mediterranean in the first millenium BC and historical Africa

The Scandinavians from the Vendel Period to the Tenth Century Judith Jesch,2012 Ethnographic studies trace the background to and impact of urbanisation and Christianisation and the development of royal power which stimulated the transition from the Viking age to the medieval period Using the evidence of archaeology poetry legal texts and annals this volume investigates the social economic and symbolic structures of early Scandinavia at the time of the Viking expansion The contributors provide an outlineethnography covering dwellings and settlements kinship and social relations law political structures and external relations rural and urban economies and the

ideology of warfare The topics are discussed through case studies illustrating the changing scholarly interpretations of this formative period in Scandinavian history By addressing these key research questions the contributions trace the background to and the impact of urbanisation and Christianisation and the development of royal power which stimulated the transition from the Viking age to the medieval period in Scandinavia JUDITH JESCH is Professor in Viking Studies at the University of Nottingham Contributors LENA HOLMQUIST OLAUSSEN BENTE MAGNUS E VESTERGAARD BIRGIT ARRHENIUS STEFAN BRINK LISE BENDER JORGENSEN SVEND NIELSEN FRANDS HERSCHEND NIELS LUND DAVID N DUMVILLE JUDITH JESCH DENNIS H GREEN Marxist Perspectives in Archaeology Matthew Spriggs,1984-02-23 Marxist theory has been an undercurrent in western social science since the late nineteenth century It came into prominence in the social sciences in the 1960s and 1970s and has had a profound effect on history sociology and anthropology This book represents an attempt to gather together Marxist perspectives in archaeology and to examine whether indeed they represent advances in archaeological theory The papers in this volume look forward to the growing use of Marxist theory by archaeologists as well as enriching archaeology as a discipline they have important implications for sociology and anthropology through the addition of a long term historical perspective This is a book primarily for undergraduates and research students and their teachers in departments of archaeology and anthropology but it should also be of interest to historians sociologists and geographers Narratives and Journeys in Rock Art: A Reader George Nash,Aron Mazel,2018-11-19 Why publish a Reader Today it is relatively easy and convenient to switch on your computer and download an academic paper However as many scholars have experienced historic references are difficult to access Moreover some are now lost and are merely references in later papers This can be frustrating European Societies in the Bronze Age A. F. Harding,2000-05-18 The Bronze Age roughly 2500 to 750 BC was the last fully prehistoric period in Europe and a crucial element in the formation of the Europe that emerged into history in the later first millennium BC This book focuses on the material culture remains of the period and through them provides an interpretation of the main trends in human development that occurred during this timespan It pays particular attention to the discoveries and theoretical advances of the last twenty years that have necessitated a major revision of received opinions about many aspects of the Bronze Age Arranged thematically it reviews the evidence for a range of topics in cross cultural fashion defining which major characteristics of the period were universal and which culture and area specific The result is a comprehensive study that will be of value to specialists and students while remaining accessible to the non specialist Advances in Archaeological Method and Theory ,2014-06-28 Advances in Archaeological Method and Theory **Analecta Praehistorica Leidensia XV** Corrie Bakels,M.E.Th. de Grooth,L.P.
