New Eusebius Documents Illustrating The History Of The Church To Ad 337 Second Revised Edition:

A New Eusebius JAMES STEVENSON, 2020-05-21 A source book for students of the patristic period and a companion volume to *Creeds Councils and Controversies and Doctrine and Practice in the Early Church* This updated edition incorporates vital documents that were not available when the original collection was compiled **Sabbath and Sunday among the Earliest Christians, Second Edition** David W. T. Brattston, 2017-04-24 According to Christian sources from before the middle of the third century AD the ancient evidence is unanimous that although there were a few slight differences as to how weekends should be observed one thing is certain and was uncontroversial the main day of the week for early Christians to gather and worship was not the seventh day Saturday Sabbath but Sunday which they sometimes called the first day or the eighth day or the Lord's Day The booklet also considers 1 whether the Lord's Day replaces the Sabbath 2 whether the Sabbath was abolished 3 whether Sabbath keeping is forbidden 4 whether the Roman Catholic church changed the Sabbath to Sunday 5 whether Sunday is to be a day of rest as well as the chief day of public worship 6 a critique of sources and authorities on which Sabbatarians rely in advancing their contentions 7 whether some Christians before Constantine observed Sunday rather than Saturday to prevent the Roman government from considering them to be Jews who were allegedly persecuted before his reign and 8 where readers can find translations of the sources for themselves Focusing on pagan Roman and Jewish sources this second edition considers whether Sunday keeping began as a result of the Jewish revolts of AD 66-70 and/or AD 132-135 and examines the work of Samuele Bacchiocchi *The Apollinarian Christologies* Timothy John Carter, 2011 The christological writings of Apollinarius of Laodicea and what has been written about them present us with something of a contradiction The style of Apollinarius' exposition and his intellectual reputation indicate that he taught a clear logical and systematic doctrine of Christ and on this the commentators tend to agree The brilliance and thoroughgoing logic of Apollinarius' system are undeniable This was a brilliant and logical system destined to exercise an enormous influence it stands as a complete and elaborate system of doctrine to which all his writings make their contribution Yet when it comes to specifying the precise nature of this doctrine his interpreters both ancient and modern offer divergent opinions and strongly disagree with one another It is this apparent contradiction which first attracted me to re-examine the Apollinarian texts as collected by Hans Lietzmann in his 1904 edition and to reconsider what has been said about them for it suggests that the interpretative discussion may not be closed since the contradiction would appear to have two possible causes either the existing interpretations have been variously less than successful at delineating the precise nature of Apollinarian doctrine or Apollinarius' teaching was in fact less clear logical and systematic than his style and reputation suggests and his interpreters assume *The Rhetoric of the Gospel, Second Edition* C. Clifton Black, 2013-07-29 While most books on biblical rhetoric focus primarily on the epistles this volume from prominent scholar C. Clifton Black considers the variety of rhetorical critical approaches now being applied to the Gospels including Luke Acts This updated edition takes into

account recent research since the first volume was published in 2001 and features two brand new chapters Black provides an overview of the different forms of rhetorical criticism with examples from the Gospel of John studies of characterization in Matthew and Luke an analysis of classical rhetorical criteria found in Mark and Luke Acts and an analysis of the rhetoric of the parables with implications for contemporary preaching **Doctrine and Practice in the Early Church** Stuart George Hall,1992 There has long been a need for a succinct and up to date account of the major doctrines and practices of the early church This book fulfills that need in clearly tracing the emergence of the distinctive elements of the Christian tradition

Hebrews, the General Letters, and Revelation Charles B. Puskas,2016-10-28 Most New Testament NT introductions because of page limitations and other reasons tend to minimize their treatment of the last nine books of the Christian Bible from Hebrews to Revelation The focus in these introductions is often on the four Gospels and the Letters of Paul As important as these books are one should not neglect with only a brief survey the treatment of Hebrews the General Letters and the book of Revelation The title given later to the collection Catholic Epistles or General Letters is a reminder of its general appeal to the whole church despite its slow canonical recognition and authorship issues Nevertheless these writings from Hebrews to Revelation continue to capture our attention and ignite our imagination My purpose for this book is to supplement my NT introduction and others like it with a focus on specific questions about each book from Hebrews to Revelation When and why was each book written By whom and to whom was each book written What are some special features of each book How soon or late was each book included in the NT collection Answers to many of these questions are tentative The assured results of scholarship are in continual need of reevaluation Since the 1980s a host of diverse studies have emerged and I have endeavored to include them when they are relevant to the discussion Ancient Christianities Paula Fredriksen,2024-10-15 A new narrative history of the origins and development of ancient Mediterranean Christianity from the time of the apostle Paul up to the fifth century CE *A Timeline of Global Christianity* Brett Knowles,2020-06-01 This timeline comprises one thousand significant dates for global Christianity It includes events across all inhabited continents and also in Antarctica and outer space emphasizing those occurring in the non Western world The detailed annotations on each date are intended as provocative ignition points to spark historical curiosity functioning as launchpads into further exploration in global Christianity For example 739 What did the finding of the Rotas Sator palindrome on the walls of an eighth century Sudanese cave dwelling indicate 1346 Who were the mysterious Christians in the Javanese Royal Court of Majapahit 1969 Why was the secret communion on the Moon hushed up by NASA 1992 Why was Paraguay the only Latin American country to include an indigenous language as a national language Since previous histories of Christianity usually have a European or North American perspective students will find this book useful for its global coverage It can be used in three ways Firstly it can be used chronologically as a continuous global timeline It can also be used as a sampling of Christianity in each country or as an index of significant figures in the history of global Christianity Each section is cross

referenced to the timeline making it a valuable resource for historical study

Autism, Humanity and Personhood

Jennifer Anne Cox, 2017-05-11 Theological anthropology is charged with providing an understanding of the human but there are numerous challenges to this Autism is a pervasive developmental disorder the main characteristic of which is difficulty in social interaction In its severest form a person with low functioning autism may be both intellectually impaired and unable to relate to others as persons Theological anthropology can exclude people who are cognitively impaired because it has historically upheld reason as the image of God Recent theology of intellectual disability has bypassed this difficulty by emphasising relationality as the image of God However this approach has the unfortunate consequence of excluding people with severe low functioning autism This calls for a new approach to theological anthropology Autism Humanity and Personhood provides a Christ centred inclusive anthropology which does not exclude people with severe autism The book takes a conservative evangelical approach to severe autism and the challenges it poses to theological anthropology It considers significant aspects of salvation history creation incarnation atonement and resurrection in order to build a solid theological foundation for an inclusive theological anthropology As long as we look within the individual it is difficult to find a solid basis for the humanity of people who are severely intellectually and developmentally impaired Instead of trying to ground humanity and personhood within the individual with autism the book outlines an extrinsic basis for theological anthropology That extrinsic basis is the gift of humanness and personhood from Jesus Christ who alone is fully human and the true image of God Jesus has overcome sin and death which have wreaked havoc on the human person Therefore his incarnate life death and resurrection are more than enough basis to declare that people with the most severe intellectual and developmental impairment are truly human persons

[Finding Pieces of the Puzzle](#) Ronald A. N. Kydd, 2011-06-10. Climate change, Radical politics, National debt, Globalization. What do Christians have to say to the big questions we all face? Whatever they try to say, they will be seriously handicapped if they do not know their own story. *Finding Pieces of the Puzzle* will fill the knowledge gap. It breaks away from the usual manner in which history is written. Here is a sweeping overview of the story of Christianity that takes the reader to parts of the world seldom visited that watches as the message of Christ encounters cultures as different as ninth-century Persia and sixteenth-century Kongo. The story is carried from the first to the twenty-first century by a series of mini-biographies: a young woman facing martyrdom, a boy from a little French town who becomes Pope, and an African American who uses a successful international trade network to combat slavery. The glory, the confusion, the shame, the holiness of Christianity are all here. As the pieces are slipped into place, the puzzle begins to make sense. Watching Christians of the past face their challenges helps us understand who modern Christians really are.

Patterns of Creation Stephen Pope, 2012-06-29. This book is a radical exploration of the mystical teachings in the Gospel of John. It helps the reader to experience these spiritual truths for themselves and go beyond the everyday mind, which is dominated by the ego, and realize their eternal Being, which John's Gospel calls Logos. By approaching the teachings in a meditative state, the symbolism contained within the Greek text opens out and comes alive in the present moment. The Gospel is not a historical document; it speaks directly to each person now, and the states of consciousness represented in the stories are accessible now. The book contains guided meditations to help bring this to life for the reader. This awakening concerns our relationship with the whole of life. Spiritual consciousness means that we are aware of the sacredness of our connections to each other as fellow human beings and to the creatures of the natural world. Christ and the Logos contain both masculine and feminine in balance at this critical time; our well-being and that of our fellow creatures is dependent on this realization.

[War](#) Mrs. Cathy Miller, Rear Admiral Joseph H. Miller, 2017-11-08. War is an armed conflict between states or nations. The causes of war may be ideological, political, racial, economic, or religious. War has been a feature of history. The use of fighting forces requires strategy and tactics. Efforts to end war have all failed, including the League of Nations and the United Nations. The laws of war are not recognized. There has been no success in leaving out the civilian population in any war. The biblical concept of war required

that God declare the war The LORD hath sworn that the LORD will have war from generation to generation Exod 17 16 The book of the wars of the LORD Num 21 14 Our fight against radical Islam is a fight for LORDs battles 1 Sam 18 7 Our holy war is against murder terrorists the rise of ISIS and forty four known terrorist groups and a vanishing freedom It is now fight or die *Visions and Revisions* Roger Kojecký, Andrew Tate, 2013-09-05 Literary texts are more or less obliged to make

reference to entities beyond themselves Drawing on other texts ideas previously written or on the resources of language they make their attempts to communicate entertain and enlist sympathy or even to offer counsel Some texts profess an a priori vision others adopt a style of reporting only contingencies A dialogic relation can be posited between the ideal and the real heaven and earth imagination and reason langue and parole essence and substance poetry and prose The poetic and creative impulse is engaged with an ever present need to purify the dialect of the tribe The topics in *Visions and Revisions* reflect writers labours with form at whatever distance from the original sources of inspiration The authors discussed include William Blake Marilynne Robinson Salman Rushdie William Golding John Irving David Lodge Sara Maitland and Hilary Mantel Verbal by definition texts make use of other texts and are dependent on the cultural matrix Readers are also writers in one kind or another In both modes they may gain impetus or inspiration by re visioning their origins as well as their ends This book will offer readers new ways to understand the literary creations of some writers with affinities to the Western spiritual and specifically Christian tradition
