Historical Dictionary of Librarianship Mary Ellen Quinn,2014-05-08 Although the history of librarianship as an organized profession dates only as far back as the mid nineteenth century the history of libraries is much older and people have been engaged in pursuits that we recognize as librarianship for many thousands of years This book traces librarianship from its origins in ancient times through its development in response to the need to control the flood of information in the modern world to the profound transformations brought about by the new technologies of the late twentieth and early twenty first centuries The Historical Dictionary of Librarianship focuses on

librarianship as a modern organized profession emphasizing the period beginning in the mid nineteenth century Author Mary Ellen Quinn relates the history of this profession through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities libraries around the world and notable organizations and associations This book is an excellent access point for students researchers and anyone wanting to know more about librarianship The Museum Movement Ian McShane,2025-03-04 The Museum Movement provides the first systematic overview of the museum movement of the early twentieth century which encouraged museums to play a greater role in education and civic uplift Highlighting the key role played by the Carnegie Corporation in guiding museum development in the late colonial period this book shows that the movement was strongly influenced by the racial politics of the period and that its focus on local histories and civic engagement sought to boost the historical legitimacy and continued vitality of small towns and their dominant white populations Demonstrating that the museum movement placed new emphasis on the importance of professionalisation interpretation and audience engagement McShane shows how by the late 1930s the movement had helped lay the foundations of museology This book also constructs a genealogy of the new museology the next wave of museum reform that emerged in the 1970s by reflecting critically on the newness of some of its ideas Indicating that new thinking about audience display media and the economics of culture has a longer history this book also provides historical perspectives on current interests in informal and social learning the formation of museum publics and institutional convergence The Museum Movement explores the intersections and crosscurrents of modernism and settler colonialism and will thus appeal to academics and students with an interest in museum studies heritage history colonial studies and race History of the Book in Canada: 1840-1918 History of the Book in Canada Project,2004-01-01 This second of three volumes in theHistory of the Book in Canada demonstrates the same research and editorial standards established with Volume One by book history specialists from across the nation **The Rule of Freedom** Patrick Joyce,2003 The liberal governance of the nineteenth century state and city depended on the rule of freedom As a form of rule it relied on the production of certain kinds of citizens and patterns of social life which in turn depended on transforming both the material form of the city its layout architecture infrastructure and the ways it was inhabited and imagined by its leaders citizens and custodians Focusing mainly on London and Manchester but with reference also to Glasgow Dublin Paris Vienna colonial India and even contemporary Los Angeles Patrick Joyce creatively and originally develops Foucauldian approaches to historiography to reflect on the nature of modern liberal society His consideration of such artifacts as maps and censuses sewers and markets public libraries and parks and of civic governments and city planning are intertwined with theoretical interpretations to examine both the impersonal often invisible forms of social direction and control built into the infrastructure of modern life and the ways in which these mechanisms both shape culture and social life and engender popular resistance **Residential Institutions in Britain, 1725-1970** Jane Hamlett,2015-10-06 The essays in this

collection explore both organizational intentions and inhabitants experiences in a diverse range of British residential institutions during a period when such provision was dramatically increasing

Emerson's English Traits and the Natural History of Metaphor David LaRocca, 2013-09-26 Metaphors are ubiquitous and yet or for that very reason go largely unseen We are all variously susceptible to a blindness or blurry vision of metaphors yet even when they are seen clearly we are left to situate the ambiguities conflations and contradictions they regularly present logically aesthetically and morally David LaRocca s book serves as a set of reminders of certain features of the natural history of our language especially the tropes that permeate and define it As part of his investigation LaRocca turns to Ralph Waldo Emerson s only book on a single topic *English Traits* 1856 which teems with genealogical and generative metaphors blood birth plants parents family names and race In the first book length study of *English Traits* in over half a century LaRocca considers the presence of metaphors in Emerson s fertile text a unique work in his expansive corpus and one that is regularly overlooked As metaphors are encountered in Emerson s book and drawn from a long history of usage in work by others a reader may realize or remember what is inherent and encoded in our language but rarely seen how metaphors circulate in speech and through texts to become the lifeblood of thought
