Mark Steyvers

New Imperialism:

America V. G. Kiernan, 2005-06-17 The invasion and occupation of Iraq have sparked considerable discussion about the nature of American imperialism but most of it is focused on the short term The classical historical approach of this book provides a convincing and compelling analysis of the different phases of American imperialism which have now led to America becoming a global hegemon without any serious rivals Victor Kiernan one of the world's most respected historians has used his nuanced knowledge of history literature and politics to trace the evolution of the American Empire he includes accounts of relations between Indians and white settlers readings of the work of Melville and Whitman and an analysis of the way that money and politics became so closely intertwined Eric Hobsbawm's preface provides an insight into his own thoughts on American imperialism and a valuable introduction to Victor Kiernan's work Together they shed useful light on today's urgent debates about the uses and misuses of seemingly unlimited military power a lack of respect for international agreements and the right to pre-emptive defense

Exporting Democracy Sophia Z Kovachevich, 2022-05-05 The world is in ferment The situation of today s world is at its worst There is trouble in every part of the world We were supposed to have peace and prosperity at the end of the Great Wars And for a few decades we did The Cold War kept peace of sorts and no major wars were fought But it all changed with the collapse of the USSR We lost the balance of power and only USA dominated At the moment there are wars all over the world on every continent it is the super powers attacking small nations The excuses are taking democracy to those countries by force through war or war on terror We are terrorising small nations in the name of ending terror by bringing not only terror but also death destruction and annihilation in our wake This book sets out to comprehensively look at the reasons behind the present condition of the world today It looks to uncover if there is any real democracy in the world today and the types of democracy available to us Not everything is suited to everyone We certainly do not want totalitarian rule in the name of democracy But that is the way we are going It is time to stop Take stock and decide do we want a better world or do we want to destroy this world Perhaps we are the final throes of our civilisation and don t even realise it
