China, India and the International Economic Order Muthucumaraswamy Sornarajah, Jiangyu Wang, 2010-08-26 With contributions by a variety

of internationally distinguished scholars on international law world trade business law and development this unique examination of the roles of China and India in the new world economy adopts the perspectives of international economic law and comparative law The two countries are compared with respect to issues concerning trade and development the World Trade Organization international dispute settlement regional free trade agreements outsourcing international investment foreign investment corporate governance competition law and policy and law and development in general The findings demonstrate that though their domestic approaches to economic issues diverge China and India adopt similar stances at the international level on many major issues recapturing images which existed during the immediate post colonial era Cooperation between China and India could provide leadership in the struggle for economic development in developing countries

Cries of the Sea Peter Bautista Payoyo,2021-09-27 A treasure lies at the bottom of the oceans This treasure takes the form of a legal and ethical principle which may illuminate the potential for an enriching international community in a world of growing disparities It is the principle of the Common Heritage of Humanity The 1982 United Nations Convention on Law of the Sea delineated an Area and then proclaimed the Area and its resources the common heritage of mankind The author suggests that the terms common heritage and humanity invite a larger perspective on the law underlying the Convention *Cries of the Sea* provides a unique view of the deep blue sea through the lens of the politics of international ocean law and policy and in particular through the exposition of the Common Heritage of Humanity as a fundamental principle of international law The book explains why and how the Common Heritage principle constitutes an indispensable ingredient in any global programme for sustainable development Legal philosophers and practitioners alike in the ocean arena and beyond will find that this work offers an intriguing intellectual and moral challenge This book received the first Arvid Pardo Prize for outstanding scholarship on the Law of the Sea

International Political Economy Yearbook W. Ladd Hollist,2020-01-29 The International Political Economy Yearbook will be published annually under the sponsorship of the International Political Economy Section of the International Studies Association at the Department of Political Science Brigham Young University The intent of the series is to describe and explain the structure and the dynamic operation of the international political economy and to explore their political social and economic impact on different countries be they advanced market economies newly industrializing countries or underdeveloped countries This first volume is an overview of the policy and research field of international political economy studies It explores what international political economy is what approaches and theories might broaden and deepen our understanding of the phenomena addressed what perspectives seem inappropriate or misdirected and why neither international relations scholars nor mainstream economists can any longer claim status as senior partners in the community of scholars and policymakers interested in these issues It also addresses major policy problems confronting both advanced and developing countries including commodity trade foreign investment regulation of multinational corporations food shortages and other development problems industrial crises in the United States and Europe international debt and the increased role of the state in different economies **Dispute Settlement in the UN Convention on the Law of the Sea**

Natalie Klein,2005-01-06 The United Nations Convention on the Law of the Sea is one of the most important constitutive instruments in international law Not only does this treaty regulate the uses of the world s largest resource but it also contains a mandatory dispute settlement system an unusual phenomenon in international law While some scholars have lauded this development as a significant achievement others have been highly sceptical of its comprehensiveness and effectiveness This book explores whether a compulsory dispute settlement mechanism is necessary for the regulation of the oceans under the Convention The requisite role of dispute settlement in the Convention is determined through an assessment of its relationship to the substantive provisions Klein firstly describes the dispute settlement procedure in the Convention She then takes each of the issue areas subject to limitations or exceptions to compulsory procedures entailing binding decisions and analyses the interrelationship between the substantive and procedural rules The Ambivalence of Good Jan

Eckel,2019-04-11 The Ambivalence of Good examines the genesis and evolution of international human rights politics since the 1940s Focusing on key developments such as the shaping of the UN human rights system decolonization the rise of Amnesty International the campaigns against the Pinochet dictatorship the moral politics of Western governments or dissidence in Eastern Europe the book traces how human rights profoundly if subtly transformed global affairs Moving beyond monocausal explanations and narratives prioritizing one particular decade such as the 1940s or the 1970s The

Ambivalence of Good argues that we need a complex and nuanced interpretation if we want to understand the truly global reach of human rights and account for the hopes, conflicts and interventions to which this idea gave rise. Thus it portrays the story of human rights as polycentric, demonstrating how actors in various locales imbued them with widely different meanings, arguing that the political field evolved in a fitful and discontinuous process. This process was shaped by consequential shifts that emerged from the search for a new world order during the Second World War, decolonization, the desire to introduce a new political morality into world affairs during the 1970s, and the visions of a peaceful international order after the end of the Cold War. Finally, the book stresses that the projects pursued in the name of human rights nonetheless proved highly ambivalent. Self-interest was as strong a driving force as was the desire to help people in need, and while international campaigns often improved the fate of the persecuted, they were equally likely to have counterproductive effects. *The Ambivalence of Good* provides the first research-based synopsis of the topic and one of the first synthetic studies of a transnational political field, such as population health or the environment during the twentieth century. Based on archival research in six countries, it breaks new empirical ground concerning the history of human rights in the United Nations, human rights NGOs, far-flung mobilizations, and the uses of human rights in state foreign policy. [The Road from Mont Pèlerin](#) Philip Mirowski, Dieter Plehwe, 2015-11-16 What exactly is neoliberalism and where did it come from? This volume attempts to answer these questions by exploring neoliberalism's origins and growth as a political and economic movement. Now with a new preface. **Sugar and the Making of International Trade Law** Michael Fakhri, 2014-11-27 Michael Fakhri uses the transnational history of sugar to tell the multilateral institutional history of trade law. *An Assault on Poverty* United Nations Commission on Science and Technology for Development. Panel on Technology for Basic Needs, International Development Research Centre (Canada), 1997 Does science and technology S T truly have a part to play in meeting basic human needs? Can S T help the world's communities secure adequate nutrition, health care, water, sanitary facilities, and access to education and information? The role of science and technology in development is certainly one of the most complex and delicate issues facing policymakers and development practitioners today. In *An Assault on Poverty*, the Panel on Technology for Basic Needs of the United Nations Commission on Science and Technology for Development offers analyses of poverty eradication and the role of S T.
