The Real Life 101 Handbook Mike Duralia, 2009-01-08 There are many people that believe our education system is in trouble As we compare test scores to other countries around the world it appears we are not adequately preparing our children for the future But this is only part of the problem because a lot of what kids need to know about the real world is not even discussed in school Most high school students that are fast approaching graduation are not aware yet of the challenges they will face They simply don't know what they don't know They have spent 12 years being educated but will soon find out that they do not have all the tools needed to succeed in life When they purchase their first car they will not use Algebra but they will need to understand the Time Value of Money equation to calculate the payments Who teaches them that in school The average American has around 8 500 in outstanding credit card debt The 2007 2008 sub prime mortgage crisis demonstrated how much more we all need to learn about home mortgages and our personal finances This is why this book is so important The Real Life 101 Handbook is a beginners guide to the world of personal finance It explains everything from how a checking account works to how to purchase your first home It is for anyone and everyone who wants to learn how to make the best personal financial decisions in order to get the most out of the money they earn The book does not have any secret formula for how you can quickly become rich however it gives you the information you need to develop your own plans to become financially secure I hope you enjoy it
